'Kittens and Cats: A first reader' is a children's reader for young audiences. The vocabulary is fun, yet simplistic enough for readers to follow along, and is accompanied with fun black and

white cat photos - cats wearing bonnets, dresses, fun outfits, and cute hats. All of which are directly related to the short stories and poems in the book. It is perfect for young readers, for teachers to use in the classroom, or just for cat lovers. Though the book is more than a hundred years old, it is still a must-have for young readers.

Kittens and Cats Thunder Bay Press (CA)

An American classic with a refrain that millions of kids love to chant: Hundreds of cats, thousands of cats, millions and billions and trillions of cats. Once upon a time there was an old man and an old woman who were very lonely. They decided to get a cat, but when the old man went out searching, he found not one cat, but millions and billions and trillions of cats! Unable to decide which one would be the best pet, he brought them all home. How the old couple came to have just one cat to call their own is a classic tale that has been loved for generations. Winner of a Newbery Honor, this collector's edition—featuring a heavy interior stock, spot gloss and embossing on the cover, and a thread-sewn binding—will bring this beloved tale to a whole new generation of readers.

Cats Touchstone

When aspiring screenwriter Andrew Bloomfield moved into a bungalow in Southern California he soon discovered that he shared the property with a large colony of feral cats — untamed, uninterested in human touch, not purring pets in waiting. But after a midnight attack by predators that decimated yet another litter of kittens, Bloomfield decided to intervene. He began to name and nurse, feed and house, rescue and neuter. Drawing on his time living in Asia among spiritual teachers, he takes us on the contemplative, humorous, and poignant journey of saving these cats, only to find it was they who saved him by revealing a

world of meaning beyond his unrealized Hollywood dreams.

Kittens and Cats

Walter Chandoha's Book of Kittens and Cats New World Library

In the hugely popular New York Times bestseller, *Dogs Never Lie About Love*, provocative psychoanalyst Jeffrey Moussaieff Masson brilliantly navigated the inner landscape of "man's best friend." Now he delves deep into the secretive, playful world of cats,

revealing emotions, debunking myths, and honoring the feline's evolution from solitary jungle creature to human companion. Drawing from literature, history, animal behavioral research, and the wonderful true stories of cat experts and cat lovers around the world, Jeffrey Masson vividly explores the delights and mysteries of the feline heart. But at the core of this remarkable book are Masson's candid, often amusing observations of his own five cats. Their mischievousness, aloofness, and affection provide a way to examine emotions from contentment to jealousy, from anger to love. Consider the question: Are cats selfish? While human egocentricity is defined by how little a person cares about others, the cat's narcissism is not like that at all. Cats may appear self-centered, but they watch us all the time, taking us in. They see us; they notice us—a far cry from vanity. Cats are curious, a trait that rarely kills them. On the contrary, it gives them the chance to assess, in their own idiosyncratic way, whether we are worthy of their attention. Cats are happy to be themselves. What they think of us is a different question entirely. "We need cats to need us," notes Masson, "It unnerves us that they do not. However, if they do not need us, they nonetheless seem to love us." *The Nine Emotional Lives of Cats* will captivate readers with its surprises and insights, offering a new perspective on the deep connection shared by humans and their feline friends. This is the book that Masson's many fans and cat lovers everywhere have been waiting for.
