#1 NEW YORK TIMES BESTSELLER • "This book delivers completely new and refreshing ideas on how to create value in the world."—Mark Zuckerberg, CEO of Meta "Peter Thiel has built multiple breakthrough companies, and Zero to One shows how."—Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we're too distracted by shiny mobile devices to notice. Information

technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

Create your first business online now from scratch. It is possible to make money online by creating your own business. The problem is that you do not know how to do it. Indeed in the beginning when we think of how to make money on the internet, multiple ideas arrive, but are often not the best. Making money on the internet is not synonymous with making money easily. It is a work that is built on the long term. It is a work that is created from solid foundations. The goal is to have results quickly but also results that will continue in future years. Forget from now on

all that you could see to make money on the internet like click bars or paid surveys that will not allow you to create your success on the internet. No here we talk about entrepreneurship, so we are talking about creating a real business success by building a viable business that works and that lasts over time. You need to create your first profitable online business to change the way you earn money and earn money differently. To create your business online is to earn passive income, the income that you will generate for a long time passively. You can work independently, no longer work for a boss and therefore work differently. But not to burn the steps, so start your first online business as an income supplement, and once this activity developed you can then see further. In this book, I will show you how to create your first profitable business, and especially how to create your first profitable business from scratch, and with a minimum investment, so within reach of everyone. After having put you in the right mental conditions to get you started with the use of certain techniques, I will show you how to create content effectively, this content will then be valuable to your business. From there we will see how to start your business by choosing your niche. Then it will be important to create your first digital products from scratch. From there I will explain how you can quickly sell your digital products, depending on your initial investment, and especially to go step by step. That is to say start with market places, then sell more high-end products through a blog and a sales page. I will also show you how to start your blog and set up the sale of your products on your blog. Finally a bonus module introducing you to other models, how to create your ebook cover in an attractive way, or how to create your logo for your business.

You can make your own online business profitable, but you cannot do it overnight. Self-publishing continues to grow in popularity, and for good reason. Basically, it's the simplest online business because Amazon gives you the ability to publish your books free and send them to customers. Moreover, this is just the last of the advantages. What really makes the difference with Self-Publishing compared to e-commerce is that you don't have to worry about marketing substantially, but you just need to "convert" the huge flow of potential customers into customers. As online sales turn into an increasingly large business, the huge opportunities at Amazon are open to those who wish to reach and tap into these prospects. The question most of us face is to get to the front page first. The tips you will find in this guide will not only help you identify the right topics and make the most ideal sales, but they will give you the key to knowing how the Amazon algorithm works, unlocking the secret to success. Reading this book you will receive the step-by-step guide that will show you exactly how to build your profitable Internet business (even if you are not very tech savvy). Within this book, I will present a proven method that you can do to start creating a revenue stream that allows you to work anytime, anywhere as long as you have a laptop and a stable Internet connection. In this book, you will discover: What is Self-Publishing and how to manage a KDP account. Quick information on Self-Publishing, for who is the best thing and how much money can potentially be making. How to optimize sales without underestimating competitors based on the lowest possible prices available. Strategies to improve your rankings on Amazon. How to create your own books in a way that shouts professionalism and leads to sales. How to continue to grow your business. Today you can't quit your job, but as your earnings with Self-Publishing arrive and your business grows, you'll start to see the light at the end of the tunnel earlier than expected! Once you have mastered this process, you will be able to work from anywhere in the world. You will be able to leave your work permanently. What are you waiting for? Immerse yourself, act and increase your income. Are you ready to start making passive revenue? So start Now! Act with the click of the BUY NOW button!
