## **MELENDEZ GRETCHEN**

---

Revised edition for OCR GCSE Classical Greek (9-1) Cambridge University Press  
The frames of classical art are often seen as marginal to the images that they surround. Traditional art history has tended to view framing devices as supplementary 'ornaments'. Likewise, classical archaeologists have often treated them as tools for taxonomic analysis. This book not only argues for the integral role of framing within Graeco-Roman art, but

also explores the relationship between the frames of classical antiquity and those of more modern art and aesthetics.

Contributors combine close formal analysis with more theoretical approaches: chapters examine framing devices across multiple media (including vase and fresco painting, relief and free-standing sculpture, mosaics, manuscripts and inscriptions), structuring analysis around the themes of 'framing pictorial space', 'framing bodies', 'framing the sacred' and 'framing texts'. The result is a new cultural history of framing - one that probes the sophisticated and playful ways in which

frames could support, delimit, shape and even interrogate the images contained within.

**Appendix** Univ of California Press  
After studying ancient Greek for a year, students often become discouraged when presented with unabridged classical texts that offer only minimal supportive apparatus. In welcome contrast, this intermediate-level textbook reinforces the first-year lessons and enables students to read Plato's Symposium, one of the most engaging works in Attic Greek, the dialect taught in most first-year courses. To meet the needs of students who are reading

extended passages of challenging Greek for the first time, Louise Pratt, a classical scholar with more than twenty years' teaching experience, has lightly condensed the early readings, supplementing them with review exercises and new vocabulary. She includes the remaining portion of the dialogue in its entirety to give students the experience of reading Plato's imaginative dialogue in all its richness. All readings are glossed, with explanatory notes appearing on the same page as the relevant texts. Enlivened by twenty-five illustrations, *Eros at the Banquet* also features an introduction explaining the Symposium's historical and philosophical significance, a comprehensive glossary, and an up-to-date bibliography. Instructors may also supplement this volume with Pratt's *The Essentials of Greek Grammar: A Reference for Intermediate Readers of Attic Greek*, which includes many examples from the Symposium.

[A Comprehensive Guide to Reading and Understanding Ancient Greek, with Original Texts](#) University of Oklahoma Press

This handbook synthesizes what is known

and debated about science in the classical world of ancient Greece and Rome, also touching briefly on Egypt, Mesopotamia, India, and China. Each of its many essays provides a synthesis and synopsis of the concepts and models of one of the ancient natural sciences.

**Proofs from THE BOOK** University of Oklahoma Press

This text gives clear, concise and easily understood explanations of all the key points of Ancient Greek grammar.

Features such as study tips and a glossary ensure students have all the support they need to help their language learning.

Open Book Publishers

This innovative textbook offers students a dynamic introduction to classical Greek. It inspires a constructive sense of enthusiasm in the classroom while helping students master grammatical principles and reading skills. Among the imaginative features of the book is a two-week introduction to spoken Greek, which immerses students in the sound and basic vocabulary of the language so that they are comfortable as they learn to read and write. (Conversational scripts are provided.) For its reading passages,

*Ancient Greek Alive* uses engaging and even humorous stories drawn from folklore around the world and rendered freshly into classical Greek. The book's grammatical explanations are unusually clear. Helpful, one-step-at-a-time exercises are incorporated into the lessons. Entire chapters are devoted to vocabulary review to underline its importance and provide rest stops. There are special sections on aspects of Greek culture. Students test their reading skills along the way on intriguing passages in original Greek texts, which range from Heraclitus and the New Testament to Diogenes and Greek gravestones.

*The Cambridge Grammar of Classical*

*Greek SuperHuman Enterprises*

Designed for complete beginners, and tested for years with real learners, *Complete Ancient Greek* offers a bridge from the textbook to the real world, enabling you to learn the grammar, understand the vocabulary and even how to translate the writings of Socrates and Homer. Structured around authentic material, placing an emphasis on the importance of reading classical texts in the original, and introducing both a grammar

perspective and a full introduction to essential vocabulary, this course also features: -25 learning units plus maps and verb guide -Authentic materials - language taught through key texts -Teaches the key skills - reading and understanding Ancient Greek grammar and vocabulary -Culture insights - learn about the culture and beliefs of the Ancient Greeks -Self tests and learning activities - see and track your own progress. Featuring additional exercises in this new edition, this is a genuinely comprehensive yet accessible introduction to Ancient Greek. Rely on Teach Yourself, trusted by language learners for over 75 years.

*Greek Buddha* Liverpool University Press Since its publication in 1990, Athenaze: An Introduction to Ancient Greek has helped tens of thousands of students learn classical Greek. Building on the bestselling tradition of previous editions, the long-awaited third edition combines the best features of traditional and modern teaching methods. It provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading

complete classical texts. James Morwood, editor of the Oxford Grammar of Classical Greek and the Pocket Oxford Classical Greek Dictionary, brings his expertise and years of teaching experience to this revision. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also woven throughout. *A Greek Grammar* UNC Press Books Combining the best features of traditional and modern methods, Athenaze: An Introduction to Ancient Greek, 2/e, provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. Carefully designed to hold students'

interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also provided. New to the Second Edition: \* Short passages from Classical and New Testament Greek in virtually every chapter \* The opening lines of the Iliad and the Odyssey toward the end of Book II \* New vocabulary and more complete explanations of grammar, including material on accents \* Many new exercises and additional opportunities for students to practice completing charts of verb forms and paradigms of nouns and adjectives \* Updated Teacher's Handbooks for Books I and II containing translations of all stories, readings, and exercises; detailed suggestions for classroom presentation; abundant English derivatives; and additional linguistic

information \* Offered for the first time, Student Workbooks for Books I and II that include self-correcting exercises, cumulative vocabulary lists, periodic grammatical reviews, and additional readings

Develop the Skills to Learn Anything Faster, Easier, and More Effectively

Written by the creators of the #1

bestselling course of the same name, this book will teach you how to "hack" your learning, reading, and memory skills, empowering you to learn everything faster and more effectively. What Would You Do If You Could Learn Anything 3 Times Faster? In our rapidly changing and information-driven society, the ability to learn quickly is the single most important skill. Whether you're a student, a professional, or simply embarking on a new hobby, you are forced to grapple with an every-increasing amount of information and knowledge. We've all experienced the frustration of an ever-growing reading list, struggling to learn a new language, or forgetting things you learned in even your favorite subjects. This Book Will Teach You

3 Major Skills: Speed reading with high (80%+) comprehension and understanding Memory techniques for storing and recalling vast amounts of information quickly and accurately Developing the cognitive infrastructure to support this flood of new information long-term However, the SuperLearning skills you'll learn in this course are applicable to many aspects of your every day life, from remembering phone numbers to acquiring new skills or even speaking new languages. Anyone Can Develop Super-Learning Skills This course is about improving your ability to learn new skills or information quickly and effectively. We go far beyond the kinds of "speed reading" (or glorified skimming) you may have been exposed to, diving into the actual cognitive and neurological factors that make learning easier and more successful. We also give you advanced memory techniques to grapple with the huge loads of information you'll soon be able to process. "This book should be the go-to reference for anyone looking to upgrade their mind's firmware!" -Benny Lewis, Language Learning Expert Learn How to Absorb and Retain Information in a

Whole New Way - A Faster, Better Way The Authors' Proprietary Method for Teaching Speed Reading & Memory Improvement You may have even taken a normal speed reading course in the past, only to realize that you didn't retain anything you read. The sad irony is that in order to properly learn things like speed reading skills and memory techniques in the past, you had to read dozens of books and psychological journals to decode the science behind it. Or, you had to hire an expensive private tutor who specializes in SuperLearning. That's what I did. And it changed my life. Fortunately, my co-authors (experts and innovators in the fields of superlearning, memory improvement, and speed reading) agreed to help me transform their materials into the first ever digital course. Over 25,000 satisfied students later, we have transformed our course into a book you can enjoy anywhere. Our teaching methodology relies heavily on at-home exercises. The chapters themselves are only part of what you're buying. You will be practicing various exercises and assignments on a regular basis over the course a 7 week schedule. In addition to

the lectures, there are hours of supplemental video and articles which are considered part of the curriculum. "This vital book contains all the tools needed to learn, memorize, and reproduce anything you want with the joy that ease brings. Don't take another class until you've read it!" -Dr. Anthony Metivier, Author & Memory Expert If you wish to improve memory and concentration, learn more effectively, read faster, and learn the techniques of memory champions - look no further! An awesome read that will push the limits of your brain. Levi does an incredible job of guiding you through, to bring your brain from average to UNSTOPPABLE!" -Nelson Dellis, 4-Time USA Memory Champion  
Greek to GCSE: Part 1 ANU Press  
 First published in 1978, Reading Greek has become a best-selling one-year introductory course in ancient Greek for students and adults. It combines the best of modern and traditional language-learning techniques and is used widely in schools, summer schools and universities across the world. It has also been translated into several foreign languages. This volume provides full grammatical

support together with numerous exercises at different levels. For the second edition the presentations of grammar have been substantially revised to meet the needs of today's students and the volume has been completely redesigned, with the use of colour. Greek-English and English-Greek vocabularies are provided, as well as a substantial reference grammar and language surveys. The accompanying Text and Vocabulary volume contains a narrative adapted entirely from ancient authors in order to encourage students rapidly to develop their reading skills, simultaneously receiving a good introduction to Greek culture.  
*Text and Vocabulary* Cambridge University Press  
 Sponsored by the Department of Classics of Harvard University, a revised edition of the late Professor Smyth's A Greek Grammar for Colleges is now available. All necessary corrections have been made, and the book retains the form which has long made it the most complete and valuable work of its kind. In this descriptive grammar the author offers a treatment of Greek syntax which is exceptionally rich as well subtle and

varied.  
Who Killed Homer? Oxford University Press, USA  
 For nearly sixty years, Wheelock's Latin has remained the opitmus liber of beginning Latin textbooks. When Professor Frederic M. Wheelock's Latin first appeared in 1956, the reviews extolled its thoroughness, organization, and conciseness; one reviewer predicted that the book "might well become the standard text" for introducing students to elementary Latin. Now, nearly six decades later, that prediction has certainly proved accurate. This new edition of Wheelock's Latin has all of the features, many of them improved and expanded, that have made it the bestselling single-volume beginning Latin textbook: 40 chapters with grammatical explanations and readings drawn from the works of Rome's major prose and verse writers; Self-tutorial exercises, each with an answer key, for independent study; An extensive English-Latin/Latin-English vocabulary section; A rich selection of original Latin readings—unlike other Latin textbooks, which contain primarily made-up texts; Etymological aids, maps, and dozens of

images illustrating aspects of the classical culture and mythology presented in the chapter readings. Also included are expanded notes on the literary passages, comments on vocabulary, and translation tips; new comprehension and discussion questions; and new authentic classical Latin readings, including Roman graffiti, in every chapter.

**Greek, an Intensive Course** Barnes & Noble Publishing

In this book, Eric Havelock presents a challenging account of the development of the idea of justice in early Greece, and particularly of the way justice changed as Greek oral tradition gradually gave way to the written word in a literate society. He begins by examining the educational functions of poets in preliterate Greece, showing how they conserved and transmitted the traditions of society, a thesis adumbrated in his earlier book *Preface to Plato*. Homer, he demonstrates, has much to say about justice, but since that idea is nowhere in the epics directly stated or expressed, it must be deduced from the speech and actions of the characters. Havelock's careful reading of the *Iliad* and the *Odyssey* is original and

revealing; it sheds light both on Homeric notions of justice and on the Archaic Greek society depicted in the poems. As Havelock continues his inquiry from Hesiod to Aeschylus, his findings become more complex. The oral Greek world shades into a literate one. Words lose some kinds of meanings, gain others, and steadily become more suited to the conceptualization that Plato strove for and achieved. This evolution of language itself, Havelock shows, was one of the principal accomplishments of the Greek world. Lucidly written and forcefully argued, this book is a major contribution to our knowledge of ancient Greece--its politics, philosophy, and literature, from Homer to Plato.

**The Cambridge Greek Lexicon**

Bloomsbury Publishing

A.E. Luschnig's "An Introduction to Ancient Greek: A Literary Approach" prepares students to read Greek in less than a year by presenting basic traditional grammar without frills and by introducing real Greek written by ancient Greeks, from the first day of study. This second edition retains all the features of the first but is more streamlined, easier on the eyes, more

gender-inclusive, and altogether more 21st century. It is supported by a Web site for teachers and learners.

*A Cultural History* Univ of California Press  
First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's *Odyssey* and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school

teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

**A Beginner's Course in Classical Greek, Based on Plato, Meno 70a1 - 81e6** Harvard University Press

This is the first full-scale reference grammar of Classical Greek in English in a century. The first work of its kind to reflect significant advances in linguistics made in recent decades, it provides students, teachers and academics with a comprehensive yet user-friendly treatment. The chapters on phonology and morphology make full use of insights from comparative and historical linguistics to elucidate complex systems of roots, stems and endings. The syntax offers linguistically up-to-date descriptions of such topics as case usage, tense and aspect, voice, subordinate clauses,

infinitives and participles. An innovative section on textual coherence treats particles and word order and discusses several sample passages in detail, demonstrating new ways of approaching Greek texts. Throughout the book numerous original examples are provided, all with translations and often with clarifying notes. Clearly laid-out tables, helpful cross-references and full indexes make this essential resource accessible to users of all levels.

An Independent Study Guide to Reading Greek Greek, an Intensive

Course"Although this text was written for use in the intensive summer Greek Institute of the City University of New York, the experience of the last decade has shown it can be used successfully in a wide variety of regularly paced courses."-- taken from *On the Use of This Text*, page ix. Greek, an Intensive Course Greek, an Intensive Course

**Eros at the Banquet** Teach Yourself Adult learners of ancient Greek are often attracted to it by the prospect of being able to read in the original a particular

author or genre. Greek philosophical writing and Plato in particular is often the target. This book's material has been tried and tested by the author over the years with adult classes, and can be used as a course textbook, or as a handbook for self-teaching. Each of 25 sections is clearly laid out – with tabulation of Greek word-forms and grammar. Each includes ample exercises and practice in reading Greek sentences. Readings in later sections consist of passages of continuous Greek from Plato's *Meno*, a typical Platonic dramatic dialogue.

**The Frame in Classical Art** Springer Science & Business Media

"The best Latin text now available and I very much doubt that a better one will appear for a long time."—Ralph W.

Johnson, Cornell University

Sophie's World Cambridge University Press

For many years, Homeric Greek has been a standard textbook for first-year Greek courses in college and preparatory schools. This fourth edition addresses the needs of today's teachers and students, while retaining those elements of the original book responsible for its longevity.
