returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, *Where the Mountain Meets the Moon* is a timeless story reminiscent of *The Wizard of Oz* and Kelly Barnhill's *The Girl Who Drank the Moon*. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers. A teenage boy in 1940s Italy becomes part of an underground railroad that helps Jews escape through the Alps, but when he is recruited to be the personal driver for a powerful Third Reich commander, he begins to spy for the Allies. *East of the Mountains* Abbott Press
First, the unthinkable: a security breach at a secret U.S. government facility unleashes the product of a chilling military experiment. Then, the unspeakable: a night

of chaos gives way to sunrise on a nation, and ultimately a world, turned to hell. All that remains is the long fight ahead for the stunned survivors faced with a future ruled by fear—of darkness, of death, of a fate far worse. As civilization crumbles, two people flee in search of sanctuary. FBI agent Brad Wolgast is a good man haunted by what he's done in the line of duty. Six-year-old orphan Amy Harper Bellafonte is a refugee from the doomed scientific project, and Brad is determined to

protect her. But, for young Amy, escaping is only the beginning of a much longer odyssey—spanning miles and decades—toward the time and place where she must finish what should never have begun in the first place.

The oceans stopped working before Willo was born, so the world of ice and snow is all he's ever known. He lives with his family deep in the wilderness, far from the government's controlling

grasp. Willo's survival skills are put to the test when he arrives home one day to find his family gone. It could be the government; it could be scavengers--all Willo knows is he has to find refuge and his family. It is a journey that will take him into the city he's always avoided, with a girl who needs his help more than he knows. S.D. Crockett on narrative voice and an especially cold winter: What was your inspiration for *After the Snow*? Well, apart from the unbelievably

cold winter during which I was writing—in an unheated house, chopping logs and digging my car out of the snow; I think much of the inspiration for the settings in *After the Snow* came from my various travels. In my twenties I worked as a timber buyer in the Caucasus Mountains of southern Russia, and that work led to travels in Eastern Europe and Armenia. As soon as I step off the plane in those places it smells like home. It may sound strange to say, when *After the Snow*

is set in Wales, but really the practical dilemmas in the book come directly from places I've been, people I've lived with, and the hardships I've seen endured with grace and capability. I was in Russia not long after the Soviet Union collapsed and I've seen society in freefall. Without realizing it at the time I think those experiences led me to dive into *After the Snow* with real passion. What would western civilization look like with a few tumbles under its belt? What would happen if the

things we took for granted disappeared? I wanted to write a gripping story about that scenario, but hardly felt that I was straying into fantasy in the detail. What do you want readers to most remember about *After the Snow*? We all have the capacity to survive, but in what manner? What do we turn to in those times of trouble? Those are the questions I would like people to contemplate after reading *After the Snow*. How did Willo's unique voice come to you? Willo's voice

appeared in those crucial first few paragraphs. After that it just grew along with his world and the terrible situations that arise. I think his voice is in all of us. We don't understand, we try to make good—maybe we find ourselves. How did you stay warm while writing this novel? I banked up the fire—and was warmed by hopes of spring.

[Snow Mountain, Lopez Canyon, and Aldo Leopold Wilderness Areas](#) BoD - Books on Demand Jessie, part of the ill-fated Donner party trapped while trying to cross a high mountain pass, is near death when she is rescued by an Indian and gruff mountain man

Daniel Bear. Jessie falls in love with Daniel, and is stunned to learn he's wanted for murder. Now she must do all in her power to keep him from being hanged.

The Best Land Under Heaven: The Donner Party in the Age of Manifest Destiny Knopf Snow Mountain Passage is a powerful retelling of the most dramatic of our pioneer stories—the ordeal of the Donner Party, with its cast of young and old risking all, its imprisoning snows, its rumors of cannibalism.

James Houston takes us inside this central American myth in a compelling new way that only a novelist can achieve. The people whose dreams, courage, terror, ingenuity, and fate we share are James Frazier Reed, one of the leaders of the Donner Party, and his wife and four children—in particular his eight-year-old daughter, Patty. From the moment we meet Reed—proud, headstrong, yet a devoted husband and father—traveling with his family in the "Palace

Car," a huge, specially built covered wagon transporting the Reeds in grand style, the stage is set for trouble. And as they journey across the country, thrilling to new sights and new friends, coping with outbursts of conflict and constant danger, trouble comes. It comes in the fateful choice of a wrong route, which causes the group to arrive at the foot of the Sierra Nevada too late to cross into the promised land before the snows block the way. It comes in the sudden fight between

Reed and a drover—a fight that exiles Reed from the others, sending him solo over the mountains ahead of the storms. We follow Reed during the next five months as he travels around northern California, trying desperately to find means and men to rescue his family. And through the amazingly imagined "Trail Notes" of Patty Reed, who recollects late in life her experiences as a child, we also follow the main group, progressively stranded and starving on

the Nevada side of the Sierras. Snow Mountain Passage is an extraordinary tale of pride and redemption. What happens—who dies, who survives, and why—is brilliantly, grippingly told.

Century of Northwest wilderness skiing stories by noted expert 150 black-and-white and color photographs Celebrates the friluftsliv, or open-air living spirit, of backcountry skiing In Written in the Snows, renowned local skiing

historian Lowell Skoog presents a definitive and visually rich history of the past century of Northwest ski culture, from stirring and colorful stories of wilderness exploration to the evolution of gear and technique. He traces the development of skiing in Washington from the late 1800s to the present, covering the beginnings of ski resorts and competitions, the importance of wild places in the Olympic and Cascade mountains (including Oregon's Mount Hood), and the friluftsliv,

or open-air living spirit, of backcountry skiing. Skoog addresses how skiing has been shaped by larger social trends, including immigration, the Great Depression, war, economic growth, conservation, and the media. In turn, Northwest skiers have affected their region in ways that transcend the sport, producing local legends like Milnor Roberts, Olga Bolstad, Hans Otto Giese, Bill Maxwell, and more. While weaving his own impressions and experiences into the

larger history, Skoog shows that skiing is far more than mere sport or recreation.

book so gripping it can scarcely be put down.... Superb." —New York Times Book Review "WESTWARD HO! FOR OREGON AND CALIFORNIA!" In the eerily warm spring of 1846, George Donner placed this advertisement in a local newspaper as he and a restless caravan prepared for what they hoped would be the most rewarding journey of a lifetime. But in eagerly pursuing what would a century later become known as the "American dream," this optimistic-

yet-motley crew of emigrants was met with a chilling nightmare; in the following months, their jingoistic excitement would be replaced by desperate cries for help that would fall silent in the deadly snow-covered mountains of the Sierra Nevada. We know these early pioneers as the Donner Party, a name that has elicited horror since the late 1840s. With *The Best Land Under Heaven*, Wallis has penned what critics agree is “destined to become the standard account” (Washington

Post) of the notorious saga. Cutting through 160 years of myth-making, the “expert storyteller” (True West) compellingly recounts how the unlikely band of early pioneers met their fate. Interweaving information from hundreds of newly uncovered documents, Wallis illuminates how a combination of greed and recklessness led to one of America’s most calamitous and sensationalized catastrophes. The result is a “fascinating, horrifying, and inspiring”

(Oklahoman) examination of the darkest side of Manifest Destiny. *Snow Mountain Wilderness* A&C Black Disaster Is Brewing In Donner Pass...Winter in the High Sierras has always been a challenge, but this time is different. Global warming has spawned an endless series of blizzards the likes of which have never been seen before. Even the proud Union Pacific is reeling from the onslaught. But the relentless storms and equipment breakdowns

are only the beginning. They face a crisis at Donner Summit: a passenger train wrecked in the most dangerous, inhospitable terrain in all of railroading. The railroad men, exhausted and short of equipment, must brave bitter cold and white-out conditions to rescue the survivors, in a raging blizzard, with the real danger of avalanches striking at any moment. More than five hundred lives hang in the balance...*****Here is the story of the unsung heroes of modern

railroading - the Maintenance of Way - who keep the lines open under the worst conditions, and who uphold the time honored tradition that the trains will always get through.
