It is now widely agreed that the climate is changing, global resources are diminishing and biodiversity is suffering. Developing countries - many of them considered by the World Tourism Organization to be 'Top Emerging Tourism Destinations' (UNWTO, 2009) - are already suffering the full

frontal effect of environmental degradation. The challenge for developing countries is a triple-edged sword, how can economic prosperity be achieved without the perpetual depletion of nature's reserves, the destruction of rural habitat and the dislocation of traditional societies? Many emerging nations are looking increasingly to the tourism industry as the motor for economic development, with hospitality businesses at the forefront. This book uses twenty-five case studies to demonstrate how it is possible to create income and stimulate regional socio-economic development by using sustainable hospitality and tourism attractions. These case studies focus on issues such as the protection of indigenous cultures as a source of touristic curiosity; the preservation of the environment and the protection of endangered species - such as the plight of turtles in Sri Lanka or butterflies in Costa Rica to encourage tourism. Some cases cover government supported projects, for example, the green parks venture and regional tourism development in the Philippines, an archaeological park initiative in Honduras and the diversity of nature tourism in St. Vincent. Sustainable Hospitality and Tourism as Motors for Development is designed to give students, academics and practitioners a guide for best practices of sustainable hospitality operations in developing countries. Based on case studies, it provides a road map of how to achieve the goals of sustainability giving benchmark examples. The book not only taps into a contemporary business subject, but aims to provide readers with a better understanding of how sustainable theories can be put into practice in hospitality and tourism industries in developing countries.

The new sixth edition of Bradt's Sri Lanka is the longest and by far the most comprehensive guidebook ever published to this alluring island nation, and now includes a brand new, detailed, full-colour wildlife section. Freshly researched and completely rewritten by Philip Briggs, one of the world's most experienced and highly regarded guidebook writers, the new Bradt guide incorporates detailed coverage of every aspect of this diverse and compact land, from the idyllic tropical coastline to the misty forests of Hill Country. Not only does the book provide in-depth sections on all major beach resorts, archaeological reserves, historic towns and national parks, but it also introduces adventurous travellers to a host of intriguing lesser-known sites, along with many emergent destinations inaccessible for decades prior to the end of the civil war in 2009. Extensive hotel and restaurant listings, covering everything from exclusive boutique hotels to shoestring homestays, have been compiled from scratch rather than updated from historical information, with each entry having been cherry-picked by the author based on his personal inspection of hundreds upon hundreds of properties countrywide. More than 70 newly drawn maps cover all towns and resorts of note, as well as the main national parks and their surrounds. Sri Lanka has enjoyed a high level of political stability and safety since the civil war ended in May 2009, encouraging a tourist boom in the south, and the gradual opening of the north and east to independent travel. Beach holidays are an all-year attraction, while a host of fantastic Buddhist-affiliated UNESCO World Heritage Sites ranges from the massive dagobas of Anuradhapura, built in pre-Christian times on a scale to rival the Egyptian pyramids, to the exquisitely painted cave temples of Dambulla. Wildlife-viewing opportunities abound, and this guide provides unparalleled, illustrated advice on making the most of these. Asia's densest wild elephant and leopard populations are protected in the island's extensive network of national parks, and there's also fine

offshore whale and dolphin-watching, and a bird checklist of 450 species including more than 30 endemics.

Are you sure to find your hotel with the limited information of "10 minutes from the exit M6 of MRT Taipei Main Station"? Which way will you take when you come out of the exit M2 of the bustling metro station? This book introduces 20 attractions of Taiwan including 18 must-visits in Taipei, the capital city of Taiwan. Alishan National Scenic Area and Sun Moon Lake, the 2

giant attractions in the central district of Taiwan, will follow them. As a backpacker to the world, I especially emphasize the way to the attractions of Taiwan in this book. In addition to the detailed information on the ways to the must-visits, you will find maps and photos taken every nook and corner. For example, this book introduces Shifen, one of the best attractions in Taiwan, through a map as below. "Take a train to Ruifang at Taipei Railway Station as indicated by the first red arrow on the map, and transfer to Pingxi Line bound for Shifen. The second red arrow shows the way between Ruifang and Shifen. There are 3 kinds of train at Taipei Main Station. However, for Ruifang where you have to transfer train to Pingxi Line, you don't need to take an express line or even a normal one. Commuter train, the cheapest one, might be enough. For the commuter train bound for Ruifang, go down to the basement of Taipei Railway Station, and wait for the train at platform No. 4B." In addition to the arrows and explaining boxes on the map, photos taken on the way from the starting point until the destination will give you full confidence when you try the wonderful attractions by yourself. Keep this book in your pack and fly to the fantastic city of Taipei. Then, this book will shed light on your way to the must-visits. You need neither to chase after a guide nor to ask passers-by for your destination. You can get them all by your own self. *Make Way for Ducklings*
