 "The most remarkable feature of man's future is its flexibility. It is determined by his attitudes rather than by his acts. The cornerstone on which all things are based is man's concept of himself." - Neville Goddard, *Out of This World* This title shows the same intensity of thought and conviction that had made Neville famous amongst progressive thinkers. Here he explains the power of imagination and offers detailed visualization/mediation techniques that are out of this world! Learn what thinking fourth dimensionally is all about and discover how to change your future and make your desires in the invisible manifest in this physical realm. In *Out of This World* we see not only a profound religious feeling, but also a sense of the dignity and responsibility of human life. Our own feeling about the results of his experiments as a whole is that they are not just an addition to our existing knowledge, but require a revolution in our whole way of thinking about the world.

 I've always thought that Matlacha (say Mat-la-SHAY), the funky Pine Island Florida fishing village cum art colony would be a perfect setting for a mystery, when along comes Jessie Murphy, the perfect gal to sort out the riff from the raff of it all. You've got to love this lady, a Goodwill fashion queen, who comes across as a ditzzy airhead whose best buddy is a Gargoyle named Gar. Jessie's taken time off from her job, thrilled to be rekindling the flame of romance with her treasure-hunting guy, Will Rolins, who adores her. Will has just made a wonderful archeological discovery, aka buried treasure. He's offered to support Jessie in her painting career if only she'll rejoin him in the sandy, salt-water and flip-flop lifestyle she adores. As she arrives in Matlacha, Jessie, to her horror, is met instead with the crime scene tape in place, bloodstains on the floor and pinholes where Will's treasure maps should have been. The sheriff insists that Will's death was a suicide but he refuses to release the police report and Jessie is bewildered. It is true that Will was often depressed and sometimes controlling. But why kill himself when he's fulfilled his life's dream? If he meant to kill himself why would he ask Jessie to join him? The facts don't sit straight with Jessie. She is determined to sort out the case. Jessie's a red-headed Irish Bostonian, whose art career has gone on the back burner as she struggles to earn a living. Meanwhile, certain investigative skills Jessie has acquired—a stint in a private investigator's office, classes in theater and karate—all come into play as she trails suspects and sometimes overplays her hand, arousing the suspicions of whoever it is who makes crank calls to her in the middle of the night. Do not be fooled, there's way more to Jessie than meets the eye, and do not, repeat, do not miss this true beach read with a pelican's eye view of

The NEW YORK TIMES best-selling porcine wonder finds herself behind the wheel in this hilarious adventure now available as an e-book. (Ages 6 - 8) Features an audio read-along! Mr. and Mrs. Watson's porcine wonder, Mercy, loves nothing more than a ride in the car. One day the Watsons' motoring ritual takes an unexpected turn, however, when their elderly neighbor Baby Lincoln pops up in the backseat in hopes of some "folly and adventure" – and in the chaos that ensues, an exuberant Mercy ends up behind the wheel! Soon there's a policeman on her tail, a struggle for the brake, and a blissfully airborne Mercy. Of course, it's nothing that an extra helping of buttered toast can't fix! She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human

biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

In the corridors of the Vatican on the eve of World War II, American Catholic priest Joseph Patrick Hurley found himself in the midst of secret diplomatic dealings and intense debate. Hurley’s deeply felt American patriotism and fixed ideas about confronting Nazism directly led to a mighty clash with Pope Pius XII. It was 1939, the earliest days of Pius’s papacy, and controversy within the Vatican over policy toward Nazi Germany was already heated. This groundbreaking book is both a biography of Joseph Hurley, the first American to achieve the rank of nuncio, or Vatican ambassador, and an insiders view of the alleged silence of the pope on the Holocaust and Nazism. Drawing on Hurley’s unpublished archives, the book documents critical debates in Pope Pius’s Vatican, secret U.S.-Vatican dealings, the influence of Detroit’s flamboyant anti-Semitic priest Charles E. Coughlin, and the controversial case of Croatias Cardinal Stepinac. The book also sheds light on the powerful connections between religion and politics in the twentieth century.

25th Anniversary Edition "A magnificent treasure for all cultures and all time." --St. Petersburg Times It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo’s dictatorship. It doesn’t have to. Everybody knows of Las Mariposas--the Butterflies. In this extraordinary novel, the

voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo’s rule. Through the art and magic of Julia Alvarez’s imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. Julia Alvarez’s new novel, *Afterlife*, is available now.

Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides’ witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there’s a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie’s grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator’s life in motion. Middlesex is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It’s a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.

"And I tell you, if you have the desire for knowledge and the power to give it physical expression, go out and explore," wrote Apsley Cherry-Garrard in the opening chapters of his now classic exploration narrative, *The Worst Journey in the World*. The incredible tale that he tells is of the fated last voyage of Captain Robert Scott and his crew to the outermost reaches of the South Pole on the Terra Nova. Chronicling the journey of the Terra Nova from England in 1910 to New Zealand in 1913, *The Worst Journey in the World* vividly describes the entirety of Scott’s harrowing and tragic final expedition. Driven by a lust to investigate the untold scientific knowledge contained within the South Pole, these courageous pioneers embarked on a journey into previously unexplored territory, subjecting themselves to the ultimate physical and mental limits as they traveled the massive expanses of the icy tundra. Cherry-Garrard was a key member of the Terra Nova crew that, in addition to the desire to uncover scientific data, desperately sought to be the first Europeans to reach the South Pole. But the expedition was thwarted at every turn by punishing weather, extreme bad luck, and the intense physical and mental decline of the crew on the final stages of their journey. Confronted by the shattering knowledge that rival explorer Roald Amundsen had reached the South Pole only a few weeks before them, Scott’s team then had to negotiate the last stage of their voyage, a doomed attempt which has no equal in peril, disaster, and tragedy.
