Civil society as an analytical concept is increasingly treated with suspicion in the study of politics in postcolonial societies. While engaging with Dalit struggles for civility, this book offers a critique of normative liberal assumptions of civil society and also counters the scholarship that rejects the idea and possibility of civil society in postcolonial societies. Based on an ethnography of Dalit movements in Maharashtra, this book highlights the centrality of caste in constructing localized forms and processes of civil society. The study marks a shift from perspectives that either emphasize the role of the state in shaping civil society or totally ignore the role of caste in its formation. As one of the first books on the post-Panther phase of Dalit politics in Maharashtra, this book makes an important contribution. It reopens the debate on the nature and forms of Dalit assertion in the 1990s and looks beyond the 'impasse' in Dalit politics.

No other narrative from within the corridors of power has offered as frank and intimate an account of the making of the modern Chinese nation as Ji Chaozhu's *The Man on Mao's Right*. Having served Chairman Mao Zedong and the Communist leadership for two decades, and having become a key figure in China's foreign policy, Ji now provides an honest, detailed account of the personalities and events that shaped today's People's Republic. The youngest son of a prosperous government official, nine-year-old Ji and his family fled Japanese invaders in the late 1930s, escaping to America. Warmly received by his new country, Ji returned its embrace as he came of age in New York's East Village and then attended Harvard University. But in 1950, after years of enjoying a life of relative ease while his countrymen suffered through war and civil strife, Ji felt driven by patriotism to volunteer to serve China in its conflict with his adoptive country in the Korean War. Ji's mastery of the English language and American culture launched his improbable career, eventually winning him the role of English interpreter for China's two top leaders: Premier Zhou Enlai and Party Chairman Mao Zedong. With a unique blend of Chinese insight and American candor, Ji paints insightful portraits of the architects of modern China: the urbane, practical, and avuncular Zhou, the conscience of the People's Republic; and the messianic, charismatic Mao, student of China's ancient past—his country's stern father figure. In Ji's memoir, he is an eyewitness to modern Chinese history, including the Great Leap Forward, the Cultural Revolution, the Nixon summit, and numerous momentous events in Tiananmen Square. As he becomes caught up in political squabbles among radical factions, Ji's past and charges against him of "incorrect" thinking subject him to scrutiny and suspicion. He is repeatedly sent to a collective farm to be "reeducated" by the peasants. After the Mao years, Ji moves on to hold top diplomatic posts in the United States and the United Kingdom and then serves as under secretary-general of the United Nations. Today, he says, "The Chinese know America better than the Americans know China. The risk is that we misperceive each other." This highly accessible insider's chronicle of a struggling people within a developing powerhouse nation is also Ji Chaozhu's dramatic personal story, certain to fascinate and enlighten Western readers. A riveting biography and unique historical record, *The Man on Mao's Right* recounts the heartfelt struggle of a man who loved two powerful nations that were at odds with each other. Ji Chaozhu played an important role in paving the way for what is destined to be known as the Chinese Century. Praise for *The Man on Mao's Right* "Brave, beautifully written testimony . . . A true "fly-on-the-wall" account of the momentous changes in Chinese society and international relations over the last century." --Kirkus Reviews "It is a relief to read an account by an urbane and often witty insider who neither idolizes nor demonizes China's top leaders . . . Highly recommended." --Library Journal, starred review

You've heard of the "Great Books"? These are their evil opposites. From Machiavelli's *The Prince* to Karl Marx's *The Communist Manifesto* to Alfred Kinsey's *Sexual Behavior in the Human Male*, these "influential" books have led to war, genocide, totalitarian oppression, family breakdown, and disastrous social experiments. And yet these authors' bad ideas are still popular and pervasive—in fact, they might influence your own thinking without your realizing it. Here with the antidote is Professor Benjamin Wiker. In his scintillating new book, *10 Books That Screwed Up the World (And 5 Others That Didn't Help)*, he seizes each of these evil books by its malignant heart and exposes it to the light of day.

Merging biography, memoir, and cultural history, this compelling book, a bestseller in France, traces the life of Dora Maar (1907-1997) through a serendipitous encounter with the artist's address book. In search of a replacement for his lost Hermès agenda, Brigitte Benkemoun's husband buys a vintage diary on eBay. When it arrives, she opens it and finds inside private notes dating back to 1951—twenty pages of phone numbers and addresses for Balthus, Brassai, André Breton, Jean Cocteau, Paul Éluard, Leonor Fini, Jacqueline Lamba, and other artistic luminaries of the European avant-garde. After realizing that the address book belonged to Dora Maar—Picasso's famous "Weeping Woman" and a brilliant artist in her own right—Benkemoun embarks on a two-year voyage of discovery to learn more about this provocative, passionate, and enigmatic woman, and the role that each of these figures played in her life. Longlisted for the prestigious literary award Prix Renaudot, *Finding Dora Maar* is a fascinating and breathtaking portrait of the artist. "Beautifully written and fascinating."—Paris Match "One of the happy surprises of the end of the literary season."—Livres Hebdo "A highly moving portrait of the artist."—Elle (France) This book received support from the French Ministry of Foreign Affairs and the Cultural Services of the French Embassy in the United States through their publishing assistance program.

Snehal Shah believes in making architecture that is 'of its time', as a Gujarati proverb states. History confirms that buildings appropriate to their time, place and climate endure. In learning to build, his architecture adopted a variety of expressions - with the constant being the will to manipulate light and ventilation to best advantage. He studies vernacular techniques as well as learning from wider Indian exemplars and also Western architectural history. References from all these find their way into his buildings, along with his debt to the geometry of Louis Kahn and Mario Botta. In this book, Shah exhibits the work of 25 years in practice. He describes his concerns and development as an architect in parallel with the emergence of India onto the world stage as a mighty, populous, modern nation rich in contradictions.
