**So You Want to Talk About Race** Penguin  
 A landmark American drama that inspired a classic film and a Broadway revival—featuring an introduction by David Mamet A blistering character study and an examination of the American melting pot and the judicial system that keeps it in check, *Twelve Angry Men* holds at its core a deeply patriotic faith in the U.S. legal system. The play centers on Juror Eight, who is at first the sole holdout in an 11-1 guilty vote. Eight sets his sights not on proving the other jurors wrong but rather on getting them to look at the situation in a clear-eyed way not affected by their personal prejudices or biases. Reginald Rose deliberately and carefully peels away the layers of artifice from the men and allows a fuller picture to form of them—and of America, at its best and worst.

After the critically acclaimed teleplay aired in 1954, this landmark American drama went on to become a cinematic masterpiece in 1957 starring Henry Fonda, for which Rose wrote the adaptation. More recently, *Twelve Angry Men* had a successful, and award-winning, run on Broadway. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound

policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a

difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading) *Confronting Racial and Ethnic Disparities in Health Care (with CD)* SUNY Press

Scott Turow, #1 New York Times bestselling author and "one of the major writers in America" (NPR), returns with a page-turning legal thriller about an American prosecutor's investigation of a refugee camp's mystifying disappearance. At the age of fifty, former prosecutor Bill Ten Boom has walked out on everything he thought was important to him: his law career, his wife, Kindle County, even his country. Still, when he is tapped by the International Criminal Court--an organization charged with prosecuting crimes against humanity--he feels drawn to what will become the most elusive case of his career. Over ten years ago, in the apocalyptic chaos following the Bosnian war, an entire Roma refugee camp vanished. Now for the first time, a witness has stepped forward: Ferko Rincic claims that armed men marched the camp's Gypsy residents to a cave in the middle of the night--and then with a hand grenade set off an avalanche, burying 400 people alive. Only Ferko survived. Boom's task is to examine Ferko's claims and determine who might have massacred the Roma. His investigation takes him from the International Criminal Court's base in Holland to the cities and villages of Bosnia and secret meetings in Washington, DC, as Boom sorts through a host of suspects, ranging from Serb paramilitaries, to organized crime gangs, to the US government itself, while also maneuvering among the alliances and treacheries of those connected to the case: Layton Merriwell, a disgraced US major general desperate to salvage his reputation; Sergeant Major Atilla Doby, a vital cog in American military operations near the camp at the time of the Roma's disappearance; Laza Kajevic, the brutal former leader of the Bosnian Serbs; Esma Czarni, Ferko's alluring barrister; and of course, Ferko himself, on whose testimony the entire case rests--and who may know more than he's telling. A master of the legal thriller, Scott Turow has returned with his most irresistibly confounding and satisfying novel yet.

This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's *Willing Executioners* provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the

killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer

The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. "Utah has been my home for over half a century. Native Americans have inhabited these landscapes since time immemorial. The writers in *Red Rock Stories* capture that connection in essays and poems that run as deep as the canyons of the Colorado River." --ROBERT REDFORD, actor, director, environmentalist *Red Rock Stories* conveys spiritual and cultural values of Utah's canyon country through essays and poems of

writers whose births span seven decades. First delivered to decision makers in Washington as a limited-edition chapbook, this art-as-advocacy book explores the fierce beauty of and the dangers to ecological and archaeological integrity in this politically embattled corner of wild America. In the American Southwest, we dwell in one end of the visible spectrum. Passions or furies, we see it all in shades of red. --Amy Irvine *Red Rock Stories* features three generations of writers from diverse cultures. Young activists and regional leaders fill the pages with heartfelt testimonies for the red rock wilderness. Notable contributors range from acclaimed writer Terry Tempest Williams and Poet Laureate of the Navajo Nation Luci Tapahonso, to Charles Wilkinson of the University of Colorado Law School and Regina Lopez-Whiteskunk of the Ute Mountain Ute Council. Stephen Trimble, editor of *Red Rock Stories*, has published more than twenty books. He received the Sierra Club's Ansel Adams Award for photography and conservation and a Wallace Stegner Centennial Fellowship at the University of Utah Tanner Humanities Center. In 1995, Trimble co-compiled with Terry Tempest Williams the landmark book of advocacy, *Testimony: Writers of the West Speak on Behalf of Utah Wilderness*--the model for *Red Rock Testimony*. He teaches writing in the University of Utah Honors College and makes his home in Salt Lake City and in Torrey, Utah.

Racial and ethnic disparities in health care are known to reflect access to care and other issues that arise from differing socioeconomic conditions. There is, however, increasing evidence that even after such differences are accounted for, race and ethnicity remain significant predictors of the quality of health care received. In *Unequal Treatment*, a panel of experts documents this evidence and explores how persons of color experience the health care environment. The book examines how disparities in treatment may arise in health care systems and looks at aspects of the clinical encounter that may contribute to such disparities. Patients' and providers' attitudes, expectations, and behavior are analyzed. How to intervene? *Unequal Treatment* offers recommendations for improvements in medical care financing, allocation of care, availability of language translation, community-based care, and other arenas. The committee highlights the potential of cross-cultural education to improve provider-patient communication and offers a detailed look at how to integrate cross-cultural learning within the health professions. The book concludes with recommendations for data collection and research initiatives. *Unequal Treatment* will be vitally important to health care policymakers, administrators, providers, educators, and students as well as advocates for people of color. *Rigoberta Menchu and the North American Classroom* Grand Central Publishing

"We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to

believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Winner of the James Harvey Robinson Prize from the American Historical Association--and widely acclaimed by educators and students--*Abina and the Important Men, Second Edition*, is a compelling and powerfully illustrated "graphic history" based on an 1876 court transcript of a West African woman named Abina, who was wrongfully enslaved and took her case to court. The book is a microhistory that does much more than simply depict an event in the past; it uses the power of illustration to convey important themes in world history and to reveal the processes by which history is made. The story of Abina Mansah--a woman "without history" who was wrongfully enslaved, escaped to British-controlled territory, and then took her former master to court--takes place in the complex world of the Gold Coast at the onset of late nineteenth-century colonialism. Slavery becomes a contested ground, as cultural practices collide with an emerging wage economy and British officials turn a blind eye to the presence of underpaid domestic workers in the households of African merchants. The main scenes of the story take place in the

courtroom, where Abina strives to convince a series of "important men"--a British judge, two Euro-African attorneys, and a jury of local leaders--that her experiences and perceptions matter. "Am I free?" Abina inquires. Throughout both the court case and the flashbacks that dramatically depict her life in servitude, both the defendants and members of the court strive to "silence" Abina and to impose their own understandings and meanings upon her. The story seems to conclude with the short-term success of the "important men," as Abina loses her case. But it doesn't end there: Abina is eventually redeemed. Her testimony is uncovered in the dusty archives by Trevor Getz and, through Liz Clarke's illustrations, becomes a graphic history read by people around the world. In this way, the reader takes an active part in the story along with the illustrator, the author, and Abina herself. Following the graphic history in Part I, Parts II-V provide detailed historical context for the story, a reading guide that reconstructs and deconstructs the methods used to interpret the story, and strategies for using Abina in various classroom settings. This second edition features a new gender-rich section, Part V: Engaging Abina, which explores Abina's life and narrative as a woman. Focusing on such important themes as the relationship between slavery and gender in pre-colonial Akan society, the role of marriage in Abina's experience, colonial paternalism, and the meaning of cloth and beads in her story, this section also includes a debate on whether or not Abina was a slave, with contributions by three award-winning scholars--Antoinette Burton, Sandra Greene, and Kwasi Konadu--each working from different perspectives. The second edition includes new, additional testimony that was rediscovered in the National Archives of Ghana, which is also reflected in the graphic history section.
