Everything around us is designed and the word 'design' has become part of our everyday experience. But how much do we know about it? Fifty Cars That Changed the World imparts that knowledge listing the top 50 cars that have made a substantial impact in the world of British design today. From the 1908 Ford Model T to the 1998 smart car, each entry offers a short appraisal to explore what has made their iconic status to give them a special place in design history.

"All the information needed to rebuild your 2CV in step-by-step detail, supported by over 1500, mainly colour illustrations. Covers body, trim and mechanical restoration, and gives advice on what to look for when buying a car or van, and originality guidance (colour schemes and production changes)."--Publisher description.

**Citroen Berlingo & Peugeot Partner** Amberley Publishing Limited

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh

perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.

Citroen 2CV Matt White. The Citroen 2CV was designed as an inexpensive car for rural France in the early post-war years. With its twin-cylinder engine and basic interior it was ideal for taking produce to the market, and its high ground clearance enabled it to cross rough country roads with ease. Later

developments added a level of refinement but the car never lost its immense appeal. Here Matt White tells the full story , and includes details of the 2CV racing class that has a following all its own.
