I have been training horses since I was a boy. I have some stories to tell, and some advice for horse owners and everyone else, and I would like to share it here. Horses have been part of my life since the day I was born. They have taught me a great deal. I was so excited about sharing my passion with everybody who has horses and who wants to build a real relationship with their animals

The average American spends 70 hours per year, the equivalent of nearly two full work weeks, on lawn and garden care. For some, lawn care is an onerous task, grudgingly accomplished, and for others it is a source of personal pride and accomplishment. Over the past four decades, author John B. Marek has variously and intermittently fallen into both camps. In Ben and the Art of

Lawnmower Maintenance, he weaves humorous personal anecdotes with fascinating historical facts, and recounts his father's homespun wisdom alongside insight gained from his own suburban homesteading experiences.

The title of this book, *I May Smell Like Bacon But I Haven't Oinked Yet*, speaks to the resiliency of Richard Allen Warner, Captain USMC (ret.). The Marine Corps motto: Semper Fidelis (always faithful) attests to the character of this man. And the three core values of the Marine Corps: Honor, Courage, and Commitment exemplify his life. HONOR: Discipline at an early age set the stage for his accomplishments. Obeying and honoring his parents were paramount. "Please Mom. I won't do it again!" he pleaded. "That's the purpose of this whipping!" she affirmed. "How dare you give your mother THE LOOK!" his dad fumed. "You're going to the basement with me!" COURAGE: Richard's first step in this direction occurred when he defied his mother. "Well, I've been thinking about joining the Navy." "Listen hear young man! I've told you several times that you are going to college!" "No Mom, I've made up my mind!" COMMITMENT: Richard was committed to his military service and his family. In the summer of 1970, he took his family westward from Florida on an

educational tour to visit the Western States' Capitals.

Civil Procedure, Second Edition primes students to engage at a high level in the classroom. The

authors offer clear explanations and frameworks to help students see what is important about each topic in civil procedure. By the time students arrive in the classroom, they will have a solid understanding not only of basic doctrine and mechanics, but also why each topic matters in the real world of litigation. The case selection reflects this commitment. Rather than rely exclusively on appellate cases exploring legal questions, the authors chose cases that would best help students understand the core functions and challenges of each aspect of civil procedure, including numerous decisions by district and magistrate judges applying the rules. The notes and questions guide students step by step to understand the implications of each case. Throughout, the authors offer insights on the implications of procedural rules as a matter of policy and as a matter of litigation strategy. New to the Second Edition: Revised chapter on personal jurisdiction based on Supreme Court's decisions in Ford (2021) and Mallory (2023). New cases on issue preclusion, supplemental jurisdiction, personal jurisdiction, service of process, and venue. Updates and refinements throughout the book. Benefits for instructors and students include: Clear explanations of each topic to prime students for case reading and class discussion. Notes and Questions that guide students, step by step, not only to understand case holdings and procedural story lines, but also to appreciate nuances that may otherwise be invisible to first-year students. "Terminology Tips" to help students learn the sometimes-baffling language of civil procedure. "Strategy Sessions" to help students see how procedural rules affect litigation strategy and settlement dynamics. "The Big Picture" boxes to help students step back from each topic to see trends and implications.
