In contrast to traditional leadership perspectives that view structure as the prescribed framework of the organization, directed by managerial leaders, research investigating Relational Leadership Theory as a process of structuring (Barley, 1986,

Fombrun, 1986, Giddens, 1984, Weick, 2001) or organizing (Dachler and Hosking, 1995, Hosking and Fineman, 1990) would view structure as "patterned regularity of interaction," in which leadership can result from everyday practices that ...
Relational Leadership Theory: Exploring the social ...
In the present article I describe two perspectives of relational leadership: an entity perspective that focuses on identifying attributes of individuals as they engage in interpersonal relationships, and a relational perspective that views leadership as a process of social construction through which certain understandings of leadership come about and are given privileged ontology. These approaches can be complementary, but their implications for study and practice are quite different.
