Preparing Every Teacher to Reach English Learners Teacher
Created Materials
2013 Outstanding Book Award, American Association of Colleges
for Teacher Education (AACTE) *Preparing Every Teacher to Reach
English Learners* presents a practical, flexible model for infusing
English learner (EL) instruction into teacher education courses.
The editors outline the key steps involved in this
approach—winning faculty support, assessing needs, and

developing capacity—and share strategies for avoiding pitfalls.
The central chapters feature sample courses illustrating how EL
content can be incorporated into standard courses (human
development, learning disabilities, and social foundations) and
across subject areas and topics (math, science, social science,
physical education, and classroom management). Most
preservice teacher candidates report that they feel unprepared to
work with English learners. This practical, flexible model for
infusing EL content into teacher education will provide an
invaluable resource in shaping the next generation of teachers.

Guided Reading is the classroom Reading Recovery with supplements. In the classroom every child is involved in focussed

reading instruction, small groups necessitate exceptional organization, all this without the year-long training that Reading Recovery participants have. Over the years teachers have been directed towards Guided Reading without knowledge of how to organize the class while working with small groups and further, without the knowledge of what is involved in overt reading instruction. This book will change that and give teachers the resources to organize and put in place worthwhile and relevant activities for children to independently engage in. In this book, significant suggestions are forwarded to make Guided Reading easier to implement and more effective. This book challenges held views about Guided Reading - misconceptions and misapplications of Guided Reading will be highlighted and in place will be effective pedagogy to help children move towards being truly confident, thinking readers. The teaching practices emphasized are: * Managing differentiated reading instruction for early, developing, early fluent readers, including a chapter relating to older readers. * Class management while working with small groups - independent tasks. * Questioning and prompting so children acquire and use self-help reading and comprehension strategies. * Encouraging student talk where they explore and exchange ideas. * Assessment (and recording) that informs instruction.
