Plato. Aristotle.

Augustine. Hume. Kant.

Hegel. Every student of
philosophy needs to

know the history of the
philosophical discourse
such giants have
bequeathed us.

Philosopher C. Stephen
Evans brings his
expertise to this
daunting task as he
surveys the history of
Western philosophy,
from the Pre-Socratics
to Nietzsche and

postmodernism—and every major figure and movement in between. John Hunt Publishing Charting the history of Western thought from Socrates to Sartre, from Epicureans to Existentialists, *Western Philosophy Made Easy* offers a short, readable historical summary of aspects of Western philosophy and key philosophers from Ancient Greece to the modern day, with the emphasis on topics of direct relevance to our own lives.

An Introduction

McGraw-Hill
Humanities/Social Sciences/Languages
This work argues that Jean-Paul Sartre's early philosophy had a notable inheritance from the Christian doctrine of original sin. With particular attention to being and

nothingness, Kirkpatrick connects Sartre to an Augustinian tradition of Christian thought according to which nothingness enters the world with the creation of the human.

Western Philosophy Made Easy Routledge
The fourth and final volume in Michel Foucault's acclaimed *History of Sexuality*, completed just before his death in 1984 and finally available to the public One of the most influential thinkers of the twentieth century, Michel Foucault made an indelible impact on Western thought. The first three volumes in his *History of Sexuality*—which trace cultural and intellectual notions of sexuality, arguing that it has been profoundly shaped by the power

structures applied to it—constitute some of Foucault's most important work. This fourth volume posits that the origins of totalitarian self-surveillance began with the Christian practice of confession. The manuscript had long been secreted away, in accordance with Foucault's stated wish that there be no posthumous publication of his unpublished work. With the sale of the Foucault archives in 2013, Foucault's nephew felt that the time had come to publish this final volume in Foucault's seminal history. Philosophically, it is a chapter in his hermeneutics of the desiring subject. Historically, it focuses on the remodeling of subjectivity carried out

by the early Christian Fathers, who set out to transform the classical Logos of truthful human discourse into a theologos—the divine Word of a pure sovereign. What did God will in the matter of righteous sexual practice? Foucault parses out the logic of the various responses proffered by theologians over the centuries, culminating with Saint Augustine's fascinating discussion of the libido. Sweeping and deeply personal, *Confessions of the Flesh* is a tour de force from a philosophical master

The Story of Philosophy Farrar, Straus and Giroux
With fifty-four chapters charting the development of moral philosophy in the Western world, this

volume examines the key thinkers and texts and their influence on the history of moral thought from the pre-Socratics to the present day. Topics including Epicureanism, humanism, Jewish and Arabic thought, perfectionism, pragmatism, idealism and intuitionism are all explored, as are figures including Aristotle, Boethius, Spinoza, Hobbes, Hume, Kant, Hegel, Mill, Nietzsche, Heidegger, Sartre and Rawls, as well as numerous key ideas and schools of thought. Chapters are written by leading experts in the field, drawing on the latest research to offer rigorous analysis of the canonical figures and movements of this branch of philosophy. The volume provides a

comprehensive yet philosophically advanced resource for students and teachers alike as they approach, and refine their understanding of, the central issues in moral thought.

The Father of Philosophy Meets the Founder of Existentialism : a Socratic Cross-examination of Existentialism and Human Emotions

InterVarsity Press
This is the 5th volume in the series of popular volumes by Peter Kreeft, in which the "Father of Philosophy," Socrates, cross-examines various other important philosophers and thinkers (in previous books he examined Marx, Sarte, Machiavelli, and Socrates himself.) Kreeft states that

Socrates and Descartes are perhaps the two most important philosophers who have ever lived, because they are the two who made the most difference to all philosophy after them. These two fathers of philosophy stand at the beginning of the two basic philosophical options: the classical and the modern. Kreeft focuses on seven features that unite these two major philosophers and distinguish them from all others. So this dialog between Socrates and Descartes is a dialog between the fundamental stages in the history of philosophy, the history of consciousness, and the history of Western culture. Like his other works in this popular series, this book is

profound and witty reading that makes for an entertaining and insightful exploration of modern philosophy. It will appeal to both the common reader as well as to those more philosophically inclined.

A History of Western Philosophy Quercus

A challenging new look at the great thinkers whose ideas have shaped our civilization. From Socrates to Sartre presents a rousing and readable introduction to the lives, and times of the great philosophers. This thought-provoking book takes us from the inception of Western society in Plato's Athens to today when the commanding power of Marxism has captured one third of the world. T. Z. Lavine, Elton Professor of

Philosophy at George Washington University, makes philosophy come alive with astonishing clarity to give us a deeper, more meaningful understanding of ourselves and our times. From Socrates to Sartre discusses Western philosophers in terms of the historical and intellectual environment which influenced them, and it connects their lasting ideas to the public and private choices we face in America today. From Socrates to Sartre formed the basis of from the PBS television series of the same name.

The Philosophic Quest Paulist Press
"Spectacular . . . A delight to read." —The Wall Street Journal
From bestselling

biographer and historian Paul Johnson, a brilliant portrait of Socrates, the founding father of philosophy In his highly acclaimed style, historian Paul Johnson masterfully disentangles centuries of scarce sources to offer a riveting account of Socrates, who is often hailed as the most important thinker of all time. Johnson provides a compelling picture of Athens in the fifth century BCE, and of the people Socrates reciprocally delighted in, as well as many enlightening and intimate analyses of specific aspects of his personality. Enchantingly portraying "the sheer power of Socrates's mind, and its unique combination of steel, subtlety, and frivolity," Paul Johnson captures

the vast and intriguing life of a man who did nothing less than supply the basic apparatus of the human mind.

A Personal Search For Meaning Quercus

From Socrates to Sartre, Avicenna to Angela Davis, this accessible guide will get you up to speed on the world's greatest minds and help you to think like them. You've heard of Plato, but do you understand his Theory of Forms? What does René Descartes' maxim 'I think, therefore I am' actually mean? And how is philosophy relevant to modern life? Drawing on the thoughts and words of iconic philosophers from the ancient world right through to the present day, each chapter deals with a specific

philosophical theory. Explore the conflict between free will and determinism, the political concept of Machiavellianism, the difference between metaphysics and epistemology, and what dialectics actually is in this accessibly-written guide to the smartest minds in history.

 In a provocative and

engaging style, Philosophy: A Historical Survey with Essential Readings consists of two main parts: the chapters, which contain the primary contributions of Western civilization's most influential philosophers, and the anthology of chronologically organized classic readings from Western philosophy. The first half of this book presents a sustained narrative of the great philosophers of Western civilization from ancient Greece until today. In the second half we offer a snapshot of the most famous discussions by many of the philosophers discussed in the first half. These readings are presented chronologically and parallel the order

presented in the first half of the book.

From Socrates to Sartre Oxford University Press

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?"

Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Socrates Meets Sartre Yale University Press
Philosophy begins with questions about the nature of reality and how we should live. These were the concerns of Socrates, who spent his days in

the ancient Athenian marketplace asking awkward questions, disconcerting the people he met by showing them how little they genuinely understood. This engaging book introduces the great thinkers in Western philosophy and explores their most compelling ideas about the world and how best to live in it. In forty brief chapters, Nigel Warburton guides us on a chronological tour of the major ideas in the history of philosophy. He provides interesting and often quirky stories of the lives and deaths of thought-provoking philosophers from Socrates, who chose to die by hemlock poisoning rather than live on without the freedom to

think for himself, to Peter Singer, who asks the disquieting philosophical and ethical questions that haunt our own times. Warburton not only makes philosophy accessible, he offers inspiration to think, argue, reason, and ask in the tradition of Socrates. A Little History of Philosophy presents the grand sweep of humanity's search for philosophical understanding and invites all to join in the discussion.

Socrates Simon and Schuster

Peter Kreeft's Socrates enters the debate on abortion, considering the arguments of psychology, medicine and philosophy.

Personal History

Penguin

An innovative and insightful exploration of the passionate early life of Socrates and the influences that led him to become the first and greatest of philosophers Socrates: the philosopher whose questioning gave birth to the ideas of Western thought, and whose execution marked the end of the Athenian Golden Age. Yet despite his pre-eminence among the great thinkers of history, little of his life story is known. What we know tends to begin in his middle age

and end with his trial and death. Our conception of Socrates has relied upon Plato and Xenophon – men who met him when he was in his fifties and a well-known figure in war-torn Athens. There is mystery at the heart of Socrates' story: what turned the young Socrates into a philosopher? What drove him to pursue with such persistence, at the cost of social acceptance and ultimately of his life, a whole new way of thinking about the meaning of existence? In this revisionist biography, Armand D'Angour draws on neglected sources to explore the passions and motivations of young Socrates, showing how love transformed him into the philosopher he was

to become. What emerges is the figure of Socrates as never previously portrayed: a heroic warrior, an athletic wrestler and dancer – and a passionate lover. Socrates in Love sheds new light on the

formative journey of the philosopher, finally revealing the identity of the woman who Socrates claimed inspired him to develop ideas that have captivated thinkers for 2,500 years.
