The 21 Indispensable Qualities of a Leader Thomas Nelson

#1 New York Times bestselling author

John C. Maxwell's latest book will

enhance the lives of leaders,

professionals, and anyone who wants to achieve success and personal growth.

We often treat the word capacity as if it were a natural law of limitation.

Unfortunately, most of us are much

more comfortable defining what we

perceive as off limits rather than what's

really possible. Could it be that many of

us have failed to expand our potential

because we have allowed what we

perceive as capacity to define us? What

if our limits are not really our limits? In

his newest book, John Maxwell identifies

17 core capacities. Some of these are

abilities we all already possess, such as

energy, creativity and leadership. Others

are aspects of our lives controlled by our

choices, like our attitudes, character,

and intentionality. Maxwell examines

each of these capacities, and provides

clear and actionable advice on how you

can increase your potential in each. He

will guide you on how to identify, grow,

and apply your critical capacities. Once

you've blown the "cap" off your

capacities, you'll find yourself more

successful--and fulfilled--in your daily

life.

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1.

Position—People follow because they have to. 2. Permission—People follow because they want to. 3.

Production—People follow because of what you have done for the organization.

4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow

because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next

to become a more influential, respected, and successful leader.

Right now, 70% of Americans aren't passionate about their work and are desperately longing for meaning and purpose. They're sick of "average" and know there's something better out there, but they just don't know how to reach it. One basic principle—The Proximity Principle—can change everything you

Ken will show you how to be intentional and genuine about the connections you make with a fresh, unexpected take on resumes and the job interview process. You'll discover the five people you should look for and the four best places to grow, learn, practice, and perform so you can step into the role you were created to fill.
