The Defenders and Three Others

HarperCollins

PAYCHECK, originally written as a short story by Philip K. Dick and first published in 1953, centres on an electrician who

wakes up to discover his employer has erased his memory of the past two years -- as a security measure. When he tries to collect his paycheck, he finds he has previously signed a release replacing the money with a bag of random objects. Previous film adaptations of Dick's short stories have included the box office smash hits MINORITY REPORT, TOTAL RECALL and BLADE RUNNER, released shortly after Dick died in 1982.

GENERAL NONFICTION "The Undying is a startling, urgent intervention in our discourses about sickness and health, art and science, language and literature, and mortality and death. In dissecting what she terms 'the ideological regime of cancer,' Anne Boyer has produced a profound and unforgettable document on the experience of life itself." —Sally Rooney, author of *Normal People* "Anne Boyer's radically unsentimental account of cancer and the 'carcinogenosphere' obliterates cliché. By demonstrating how her utterly specific experience is also irreducibly social, she opens up new spaces for thinking and feeling together. *The Undying* is an outraged, beautiful, and brilliant work of embodied critique." —Ben Lerner, author of *The Topeka School* A week after her forty-first

birthday, the acclaimed poet Anne Boyer was diagnosed with highly aggressive triple-negative breast cancer. For a single mother living paycheck to paycheck who had always been the caregiver rather than the one needing care, the catastrophic illness was both a crisis and an initiation into new ideas about mortality and the gendered politics of illness. A twenty-first-century *Illness as Metaphor*, as well as a harrowing memoir of survival, *The Undying* explores the experience of illness as mediated by digital screens, weaving in ancient Roman dream diarists, cancer hoaxers and fetishists, cancer vloggers, corporate lies, John Donne, pro-pain "dolorists," the ecological costs of chemotherapy, and the many little murders of capitalism. It

excoriates the pharmaceutical industry and the bland hypocrisies of "pink ribbon culture" while also diving into the long literary line of women writing about their own illnesses and ongoing deaths: Audre Lorde, Kathy Acker, Susan Sontag, and others. A genre-bending memoir in the tradition of *The Argonauts*, *The Undying* will break your heart, make you angry enough to spit, and show you contemporary America as a thing both desperately ill and occasionally, perversely glorious. Includes black-and-white illustrations

"Aside from its perfect fit of critic and subject, Laurence A. Rickels's book provides the most thorough and exhaustive reading of Philip K. Dick's

literary work that exists. He goes through all the novels literally, both the science fiction works and the so-called mainstream novels Dick did not publish in his lifetime. The reader of science fiction should welcome a book like this, which is both knowledgeable of the SF tradition tradition and creatively analytical. I could not put this book down once I began to read it".---George Slusser, University of California, Riverside --

The Joy Luck Club Citadel

The Man in the High Castle Paycheck

and Other Classic Stories By Philip K. Dick

The classic stories of Philip K. Dick offer an intriguing glimpse into the early imagination of one of science fiction's most enduring and respected names. The Collected Short Stories Citadel Press

"The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of *Crazy Rich Asians*

Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary *Amy Tan: Unintended Memoir* on Netflix

Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the

truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

Make Room! Make Room! HarperCollins
Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people.

Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and

formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Bradbury Classic Stories 1 Echo Point+ORM

The stories that inspired the original dramatic series. Though perhaps most famous as a novelist, Philip K. Dick wrote more than one hundred short stories

over the course of his career, each as mind-bending and genre-defining as his longer works. Philip K. Dick's *Electric Dreams* collects ten of the best. In "Autofac," Dick shows us one of the earliest examples (and warnings) in science fiction of self-replicating machines. "Exhibit Piece" and "The Commuter" feature Dick exploring one of his favorite themes: the shifting nature of reality and whether it is even possible to perceive the world as it truly exists. And "The Hanging Stranger" provides a thrilling, dark political allegory as relevant today as it was when Dick wrote it at the height of the Cold War. Strange, funny, and powerful, the stories in this collection highlight a master at work, encapsulating his boundless imagination and deep understanding of the human

condition.

The Best of Philip K. Dick

Metropolitan Books

Purpose and a Paycheck tells the compelling story of how a growing movement of older entrepreneurs and part-time workers are creating a stronger and more vibrant economy. Whether you're a corporate executive,

business owner, policymaker, or moving into the later season of your career, the stakes for America's aging population are high. People 65 and older will account for 20 percent of the population in 2030, up from 13 percent in 2000. Many prognosticators blame the aging population for the stagnating economy, citing that as more and more people retire, they will stop working as relatively fewer working people have to support growing numbers of dependent elderly. Purpose and a Paycheck debunks this line of thought by showing how a growing movement of elderly entrepreneurs and part time workers are creating conditions for a stronger and more vibrant economy. Growing numbers of Americans are no longer retiring in the traditional sense. The

numbers are striking and largely unappreciated. The labor force participation rate of men 60 years and over has risen nearly one-third from a low of 26 percent in 1996 to 35 percent in 2014. The comparable rate for women is from 15 percent to 25 percent. Even more impressive, 25.5 percent of new business ventures in 2016 were started by the 55-to-64-year-old age group, up from 14.8 percent in 1996. People in their 50s and 60s are launching new businesses at nearly twice the rate of people in their 20s. America's aging society and workforce is redefining work for all generations and is among the most significant long-term forces shaping the U.S. economy and society, alongside globalization, automation and climate change. Instead of an economic

deadweight, America's aging population holds the promise of getting back the economy mojo. Reframing aging will result in faster rates of economic growth and higher living standards for all of us in addition to a more fulfilling and financially secure second half of life for our aging population.
