Cambridge International AS/A

Level Biology Revision Guide 2nd edition Cambridge University Press Harry Collins and Trevor Pinch liken science to the Golem, a creature from Jewish mythology, powerful yet potentially dangerous, a gentle, helpful creature that may yet run amok at any moment. Through a series of intriguing case studies the authors debunk the traditional view that science is the straightforward result of competent theorisation, observation and experimentation. The very well-received first edition generated much debate, reflected in a substantial new Afterword in this second edition, which seeks to place the book in what have

become known as 'the science wars'.

The Cambridge English Revision Guide: GCE O Level aims to help overseas students prepare for the English O level examination.

Written by O level examiners in consultation with teachers and education officials from the target countries, it provides support for students based on a real understanding of the exams requirements. It

covers the four main skills of continuous writing, directed writing, comprehension and summary writing. Students will be encouraged by its supportive tone as they work through the explanations and practice exercises.

There is a wealth of examples as well as hints on a step by step approach to tackling longer writing tasks.

Golden rules are highlighted to provide students with simple and memorable guidelines.

Cambridge International AS and A Level Chemistry Revision Guide

Foundation Books

This practical write-in workbook is the perfect companion for the coursebook. It contains step-by-step guided investigations and

practice questions for Cambridge International AS & A Level Biology teachers and students. Through practical investigation, it provides opportunities to develop skills- planning, identifying equipment, creating hypotheses, recording results, analysing data, and evaluating. The workbook is ideal for teachers who find running practical experiments difficult due to lack of time, resources or support. Sample data- if students can't do the experiments themselves - and answers to the questions are in the teacher's resource.
