HARRINGTON KARTER

Teaching Arithmetic Carson-Dellosa Publishing

A new workbook series based on the popular Singapore Math curriculum.

Singapore Math Activity Book 1b Math in Focus: Singapore Math
 Your students will engage in their first guided practice with fresh reading selections every week! Students can directly interact with text by underlining, circling, and highlighting text to support answers with text evidence.

Primary Mathematics Bright Minds Publishing

Singapore Math creates a deep understanding of each key math concept, includes an introduction explaining the Singapore Math method, is a direct complement to the current textbooks used in Singapore, and includes step-by-step solutions in the answer key. Singapore Math, for students in grades 2 to 5, provides math practice while developing analytical and problem-solving skills.

This series is correlated to Singapore Math textbooks and creates a deep understanding of each key math concept. Learning objectives are provided to identify what students should know after completing each unit, and assessments are included to ensure that learners obtain a thorough understanding of mathematical concepts. Perfect as a supplement to classroom work, these workbooks will boost confidence in problem-solving and critical-thinking skills!

Grade 1 Word Problems Learning Matters

Welcome to Singapore Math--the leading math program in the world! This workbook features math practice and activities for first and second grade students based on the Singapore Math method. Singapore Math allow pupils to explore mathematics from the concrete through the pictorial and finally to the abstract mathematical representation. It presents clearly and structurally a progressive approach to provide a strong mathematical foundation for students. Using many real life scenarios, pupils are able to connect their everyday life experiences with

mathematics. As they go through the exercises, they acquire the skills and competencies to become confident and self-directed learners of mathematics. This book is written in line with the primary mathematics syllabus from the Ministry of Education, Singapore. It is structured to not only meet the learning needs of primary school students but to develop pupils as citizens and active contributors to society. Mathematics is no longer boring, but engaging, accessible and meaningful. Chapters include: - Length - Addition and Subtraction within 40 - Time - Addition and Subtraction within 100 - Money - Multiplication and Division - Picture Graphs
