Parking Lots I've Eaten in Taylor & Francis
How do some of soccer's smartest and most accomplished figures master the craft of the game? This in-depth analysis of modern soccer reveals how elite players and coaches strategize on and off the field to execute in high-pressure situations. "A worthy addition to any soccer fan's shelf."—The Wall Street Journal In *Masters of Modern Soccer*, America's premier soccer journalist, Grant Wahl, reveals what players and managers are thinking before, during, and after games and delivers a true behind-the-scenes perspective on the inner workings of the sport's brightest minds. Wahl follows world-class players from across the globe, examining how they do their jobs and gaining deep insight from the players on how goalkeepers, defenders, midfielders, and forwards function individually and as a unit to excel and win. He also shadows a manager and director of soccer as they juggle the challenges of coaching, preparation, and the short- and long-term strategies of how to identify and acquire talent and deploy it on the field. These central figures share the little details that matter, position by position: • Attacking midfielder Christian Pulisic explains why he wears his soccer cleats a size too small to make his first touch even better. • Forward Javier "Chicharito" Hernández reveals the Mexican national team's secret synchronized patterns that create space for him in front of the goal. • Defender Vincent Kompany tells you why his teammates' pressure on the ball means he can defend his man more tightly in the penalty box. • Defensive midfielder Xabi Alonso describes his disdain for slide tackles and the tendency among even the best professional midfielders to play too closely to one another. • Goalkeeper Manuel Neuer tells the origin story of his sweeper-keeper role, which has allowed him to redefine the position for the modern game. • Head coach Roberto Martínez explains the differences between

coaching clubs and national teams and why one of the first things he looks for in any game situation is numerical advantage. • Director of football Michael Zorc discusses what he looks for when it comes to identifying players he can buy low and sell high, Moneyball-style, while still competing to win trophies. The definitive analysis of the craft of soccer, *Masters of Modern Soccer* will change the way any fan, player, coach, or sideline enthusiast experiences the game.

The Education of a Tennis Player

This collection sets about untangling some of the knotty issues in the underexplored relationship between human rights and the media. We investigate how complex debates in political, judicial, academic and public life on the role and value of human rights are represented in the media, particularly, in print journalism. To focus the discussion, we concentrate on media representation of the controversial proposals in the United Kingdom to repeal the Human Rights Act 1998 and to replace it with a British Bill of Rights. The collection is underpinned by the observation that views on human rights and on the proposals to repeal and replace are polarised. On the one hand, human rights are presented as threatening and, therefore, utterly denigrated; on the other hand, human rights are idolised, and, therefore, uncritically celebrated. This is the 'fear and fetish' in our title. The media plays a decisive role in constructing this polarity through its representation of political and ideological viewpoints. In order to get to grips with the fear, the fetish and this complex interrelationship, the collection tackles key contemporary themes, amongst them: the proposed British Bill of Rights, Brexit, prisoner-voting, the demonisation of immigrants, press freedom, tabloid misreporting, trial by media and Magna Carta. The collection explores media representation, investigates media polarity and critiques the media's role.
