Evnen til at koncentrere styrker i verdens brændpunkter har hidtil været en naturlig del af USA's geostrategiske forbindelse med resten af verden.

Nedskæring af de amerikanske styrker har i væsentlig grad påvirket USA's evne til i fremtiden hurtigt at bringe styrker frem til et operationsområde uden for USA. Forfatteren beskriver USAF evne til at gennemføre styrke projektion samt anbefaler ændringer og forbedringer med henblik på fortsat at kunne gennemføre lufttransport operationer uanset dette involverer væbnede styrker, forsyninger og støtte til egne styrker eller evakuering af civile.

The new edition goes further to align the study of accounting theory to the professional environment domestically and internationally. To achieve this, the new edition includes a "International View" vignette in each chapter to profile the international response or thinking on relevant issues, "Theory in Action" boxes illustrate the chapter material by way of presenting professional examples to build understanding and end of chapter case studies have develop and apply student understanding of the material.
