This teacher-friendly resource addresses one of the most important critical reading skills in the Common Core State Standards—reading across multiple texts. As the world grows ever more complicated, students more than ever need to become skillful at reading multiple sources, comparing, contrasting, and integrating texts. Responding specifically to Standards 7 and 9, this guide shows teachers how to work with students as they read, think about, critique, and evaluate multiple texts, including narrative and informational, print, graphic, and video, hard copy and online. The authors provide strategies for helping students answer text-dependent questions, find evidence in a text, and scan for information. Model lessons developed and taught by the authors and their professional colleagues will be especially useful to teachers whether they are beginning or expanding their own teaching of multiple texts. “Reading Across Multiple Texts in the Common Core Classroom, K-5 is the book for which elementary school literacy educators have been waiting for ever since the Common Core State Standards were released.” —From the Foreword by Robert J. Marzano, CEO, Marzano Research Laboratory “These authors

provide a refreshingly realistic look at what it could mean to read across texts. Planning templates and examples illustrate the potential of CCSS to vastly improve students' text-based experiences. The combination of an extended application of comprehension research and a clear understanding of classrooms make this book a must read for teachers." —Sharon Walpole, professor, School of Education, University of Delaware

*A New Translation From The French* By Marion Wiesel Born in Sighet, Transylvania, Elie Wiesel was a teenager when he and his family were taken from their home in 1944 and deported to the Auschwitz concentration camp, and then to Buchenwald. Night is the terrifying record of Elie Wiesel's memories of the death of his family, the death of his own innocence, and his despair as a deeply observant Jew confronting the absolute evil of man. This new translation by his wife and most frequent translator, Marion Wiesel, corrects important details and presents the most accurate rendering in English of Elie Wiesel's seminal work.

*Language and Literacy Connections: Intervention for School-Age Children and Adolescents* takes readers on a path of knowledge steeped in principles and practical applications. This much-needed new text uniquely integrates language learning and disorders and literacy together in a coherent and cohesive

narrative that covers the challenges facing school-age students from early elementary levels through high school. Using past and current research and interventions from speech-language pathology (SLP) and reading and literacy arenas, the authors present transcripts, cases, and detailed intervention sessions to provide a template for daily practice. The text raises questions relating to "why am I doing this?" and provides some answers to this most complex, yet basic, question. *Language and Literacy Connections...* \* Uses strong theoretical foundations with detailed applications to real-life situations and practices \* Highlights the different levels of literacy, from foundational to disciplinary, that underpin current thinking \* Includes three major sections that build upon one another as the authors navigate through: (1) conceptual frameworks, (2) practical applications across discourse intervention and individual language components, and (3) service delivery models \* Addresses the role of comprehension in auditory processing and classroom difficulties \* Compares effective and less effective intervention sessions with explanations about why each fall within a category \* Debunks common myths and practices that have been questionable for decades but that persist in practice \* Offers innovative suggestions related to providing collaborative service delivery procedures through virtual online platforms and specific lesson plans \* Answers the question asked by many school-based SLPs: How do I add literacy on top of my responsibilities when my caseloads are so large and demanding? **Key Features:** \* Questions at the beginning of each chapter that reflect concerns of SLPs and their teams \* Projects and assignments that supplement and review the material

\* Examples of teaching modules with practical lesson plans that integrate the role of SLPs in Interprofessional Practices (IPP) while explicitly addressing the curriculum across a variety of subject areas Disclaimer: Please note that ancillary content (such as documents, audio, and video, etc.) may not be included as published in the original print version of this book.

Winner of the 2016 NAGC Curriculum Studies Award In I, Me, You, We: Individuality Versus Conformity, students explore essential questions such as “How does our environment shape our identity? What are the consequences of conforming to a group? When does social conformity go too far?” This unit, developed by Vanderbilt University’s Programs for Talented Youth and aligned to the Common Core State Standards (CCSS), includes a major emphasis on rigorous evidence-based discourse through the study of common themes across rich, challenging nonfiction and fictional texts. Escher and Pablo Picasso, and primary source documents from Plato, Eleanor D. Roosevelt, William Bradford, Ralph Waldo Emerson, and Henry David Thoreau. Grades 6-8
