Includes music.

*An Organist's Guide to Resources for the Hymnal 1982* Courier Corporation

The organ works of Johannes Brahms are a beautifully-crafted and much-cherished component of the repertoire of church and concert organists across the world. A central and long renowned figure in the organ field, Barbara Owen is proposing the first in-depth study of this corpus, considering Brahms's organ works in relation to his background, methods, and overall artistic

development. Precisely because the collection of organ works is not extensive, the pieces--composed periodically throughout Brahms's lifetime--map his path as a composer, pinpointing various stages in his artistic development. Brahms's early preludes and fugues for the organ, for example, foreshadow his fascination with, and developing skills in, counterpoint, which surface notably in later motets, chamber works, and larger compositions such as the piano variations, *Deutsches Requiem*, and *Fourth Symphony*. The chorale preludes not only display a mastery of counterpoint, but a wealth of signature "Brahmsian" characteristics in miniature--carefully sculpted melodic lines, chained thirds, inversions, polyrhythms, hidden symbolism, and occasional hints of atonality. The *Organ Music of Johannes Brahms* offers a detailed examination of Brahms's contacts with organs and organists, and analyses of each specific work and its

place in Brahms's career. The body of the manuscript is devoted to the history and analysis of Brahms's individual organ works and their interpretation, focusing on the importance of his predecessors and contemporaries in the composition and performance of these pieces. Blending unique insights into composition and performance practice, this book targets the large, intellectually-minded community of organists (20,000 members in the American Guild of Organists), and will be appreciated by performers, students, and scholars of the organ, Brahms, and Nineteenth Century music.

*The Etude* Oxford University Press on Demand

This collection features church and concert works for the organ and includes such popular pieces as Bach's "Toccatina" and "Fugue in D Minor" and the "Toccatina" from Charles-Marie Widor's 5th Organ Symphony."

An Organist's Guide to Resources for the Hymnal 1982 Church Publishing, Inc.

The American Organist Lorenz Publishing Company

Book URL: [https://www.areditions.com/rr/special/S\\_022.html](https://www.areditions.com/rr/special/S_022.html) The son of an organist, Carl Czerny's understanding of the instrument is thorough and his works for organ largely in miniature, but also containing the large-scale Prelude and Fugue in A minor, op. 607 offer today's musician a pedagogical and practical entree to this often-neglected period in organ literature. The introductory essay sheds particular light on the relationship between Czerny and his English publisher, Robert Cocks and Co., and the reception of Czerny's organ works in England. The essay further discusses the English attraction to the Germanic style during the

Victorian age, the development of the organ in mid-nineteenth-century England, and the ability of Czerny and Cocks's to appeal to a musical society rapt with the "king of instruments."

Little Organ Book Routledge

Comprised of music for almost every occasion of the church year, this publication is a hearty and abundant resource of approachable organ music. Like the first volume, it is a godsend for those planning their church year and enriching their organ library. Of the forty-nine pieces contained within, thirty-one are newly composed for this volume.

Hymn Studies for Organists An Organist's Guide to Resources for the Hymnal 1982

The mastery of Joyce Jones is seen in these moving and exciting arrangements of 14 familiar hymns. Some will require more work than others, but all promise to be inspiring additions to worship services. Any will also make terrific recital selections. Titles include such favorites as: Holy, Holy, Holy \* Jesus, Lover of My Soul \* My Hope Is Built \* My Jesus, I Love Thee \* Rejoice, the Lord Is King \* Sweet Hour of Prayer \* What a Friend We Have in Jesus and seven others.

Johann Sebastian Bach: The Organist and His Works for the Organ Church Publishing, Inc.

Each issue includes choruses.

**Organists' Review** Warner Bros. Publications

The renowned Flor Peeters is known as an organist and composer from his native Belgium to all of Europe and both Americas. Little Organ Book, consisting of hymn tunes and original compositions, has won special favor among teachers and students because of the clear presentation of elementary rules for organ playing.

**The Organist and Choirmaster** Alfred Music

Features works for organists who prefer to play without pedals, including J. S. Bach's Partite diverse sopra, O Gott, du frommer Gott!; Pachelbel's Canon in D; plus works by Mozart, Haydn, Beethoven, Handel, Liszt, and others.

The Musical Times A-R Editions, Inc.

This volume explores twentieth-century organ music through in-depth studies of the principal centers of composition, the most significant composers and their works, and the evolving role of the instrument and its music. The twentieth-century was a time of unprecedented change for organ music, not only in its composition and performance but also in the standards of instrument design and building. Organ music was anything but immune to the complex musical, intellectual, and socio-political climate of the time. *Twentieth-Century Organ Music* examines the organ's repertory from the entire period, contextualizing it against the background of important social and cultural trends. In a collection of twelve essays, experienced scholars survey the dominant geographic centers of organ music (France, the Netherlands, Scandinavia, the United States, and German-speaking countries) and investigate the composers who made important contributions to the repertory (Reger in Germany, Messiaen in France, Ligeti in Eastern and Central Europe, Howells in Great Britain). *Twentieth-Century Organ Music* provides a fresh vantage point from which to view one of the twentieth century's most diverse and engaging musical spheres.

**Twelve Pieces for the Hazel Wright Organ** Oxford University Press on Demand

A listing of organ settings, descants, and alternative

harmonizations for the tunes of *The Hymnal 1982* along with their publishers, volume location in a multi-volume work, or selection location in a collection, and level of difficulty. This book does not contain the music itself. The listings in this volume are of those titles published since the compilation of Volume I.

*The Organ* Courier Corporation

"Johann Sebastian Bach: The Organist and His Works for the Organ" by André Pirro (translated by Wallace Goodrich).

Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Accessible Service Music for the Church Year Alfred Music Publishing

Bach's music has made an indelible mark on all those who compose for the organ, and in the nineteenth century, Bach's music was revived, revered, and brought to life for a musical public. In this fascinating study, Bach scholar and organist Russell Stinson examines how four major composers of the nineteenth century—Felix Mendelssohn, Robert Schumann, Franz Liszt, and Johannes Brahms—responded to the model of Bach's organ music. Whether for keyboard, voice, orchestra, or chamber ensemble, these composers not only borrowed from Bach's organ works in creating their own masterpieces, but also reacted significantly to the music as performers, editors, theorists, and teachers. The

book reveals how these four titans influenced one another as "receptors" of this repertory and how their mutual acquaintances--especially Clara Schumann--contributed as well.

The Musician Church Publishing, Inc.

Hymns are hard to play - hymnbooks are written for singers, not organists. Playing hymns is easy if you have the music written out for them and even easier if you are playing 3 part settings of them. Add a chorale prelude for organ to each of these 126 hymns and you have the ability to introduce new hymns over a few weeks by playing the chorale prelude and then rest easy with the playable 3 part hymn to play. This is from An Organist's Book of Hymns Series, which also offers 4 part organ hymn arrangements and more.

Christian Advocate Good Press

This revised collection includes both original works and familiar hymn arrangements by noted composer and organist Robert Hebble. The pieces range from grandiose to reflective, and are useful in worship settings or concerts. A history of the actual Crystal Cathedral organ is also included along with an update on additions by Fred Swann. Titles: \* Celebration \* Diptych (Orientis Partibus) \* Heraldings \* Meditation on My Shepherd Will Supply My Need \* Nave (Divinum Mysterium) \* Toccata on Old

Hundredth \* Pastel \* Prelude on I Wonder As I Wander \* Psalm Prelude \* Schematics (Ton y Botel and Ebenezer) \* Seven Palette Sketches of Utrillo \* Soft Stillness and the Night

Organ Preludes on Favorite Hymns Courier Corporation

A listing of organ settings, descants, and alternative harmonizations for the tunes of The Hymnal 1982 along with their publishers, volume location in a multi-volume work, or selection location in a collection, and level of difficulty. This book does not contain the music itself.

### **The Complete Organist, Vol. 2**

Beginning and intermediate organists can sample a wide variety of composers and styles with this excellent collection. Ranging from Palestrina's 16th-century Ricercare to latter-day works such as Sigfrid Karg-Elert's Improvisation on "Nearer, My God, to Thee," it spans more than four centuries of music. Selected from authoritative sources by musicologist and organist Rollin Smith, this compilation features such famous works as J. S. Bach's Pastorale, BWV 590; Couperin's Chaconne in F; and Handel's Concerto No. 13, "The Cuckoo and the Nightingale." Other well-known selections include compositions by Brahms, Gounod, Haydn, Liszt, Mendelssohn, Vierne, and Widor.
