 Proceedings of the 7th Annual International Seminar on Transformative Education and Educational Leadership (AISTEEL 2022) contains several papers that have presented at the seminar with theme “Technology and Innovation in Educational Transformation”. This seminar was held on 20

September 2022 and organized by Postgraduate School, Universitas Negeri Medan and become a routine agenda annually. The 7th AISTEEL was realized this year with various presenters, lecturers, researchers and students from universities both in and out of Indonesia. The 7th AISTEEL presents 4 distinguished keynote speakers from Universitas Negeri Medan - Indonesia,

<p>Murdoch University- Australia, Curtin University Perth- Australia, University Malaya - Malaysia, Monash University - Australia, and Tampere University of Applied Sciences, Finland. In addition, presenters of parallel sessions come from various Government and Private Universities, Institutions, Academy, and Schools. Some of them are those who have sat and</p>	<p>will sit in the oral defence examination. The plenary speakers have been present topics covering multi disciplines. They have contributed many inspiring inputs on current trending educational research topics all over the world. The expectation is that all potential lecturers and students have shared their research findings for improving their teaching process and quality, and leadership.</p>	<p>There are 162 papers passed through rigorous reviews process and accepted by the committee. All of papers reflect the conference scopes by follow: Teachers Education Model in Future; Education and Research Global Issue; Transformativ e Learning and Educational Leadership; Mathematics,S cience and Nursing Education; Social, Language and</p>

ICTES 2018 UMM Press This is an open access book. The International Conference on Education, Humanities, and Social Science (ICEHoS) is an activity in the form of an international conference by presenting new studies and research results in the fields of Education, Humanities, and Social Sciences. The Elementary School Teacher Education Study Program is the organizer of this international conference. ICEHoS is the second conference held by us and will be held virtually due to the COVID-19 Pandemic which has not shown a better situation. The 2nd ICEHoS 2022 conference is expected to be able to bring together national and international scale researchers, academics, practitioners, students, and community and industry activists in our chosen fields. Considering the COVID-19 pandemic which has impacted various lines, especially

research in this field, the 2nd ICEHoS 2022 international conference has the main theme, "The future education in society 5.0 to build a strong learning connection."

n lingkungan belajar, Kegiatan Memirsa Audio Visual (Viewing) dalam Pembelajaran Teks Berita Samudra Biru This book is addressed to people with research interests in the nature of mathematical thinking at any level, to people with an interest in "higher-order thinking skills" in any domain, and to all mathematics teachers. The focal point of the book is a framework for the analysis of complex

problem-solving behavior. That framework is presented in Part One, which consists of Chapters 1 through 5. It describes four qualitatively different aspects of complex intellectual activity: cognitive resources, the body of facts and procedures at one's disposal; heuristics, "rules of thumb" for making progress in difficult situations; control, having to do with the

efficiency with which individuals utilize the knowledge at their disposal; and belief systems, one's perspectives regarding the nature of a discipline and how one goes about working in it. Part Two of the book, consisting of Chapters 6 through 10, presents a series of empirical studies that flesh out the analytical framework. These studies document the ways that competent problem solvers make

the most of the knowledge at their disposal. They include observations of students, indicating some typical roadblocks to success. Data taken from students before and after a series of intensive problem-solving courses document the kinds of learning that can result from carefully designed instruction. Finally, observations made in typical high school classrooms

serve to indicate some of the sources of students' (often counterproductive) mathematical behavior. **Dimensions of Thinking** Springer Nature Directory of scholarship for elementary and higher education in Indonesia and abroad. kosmis. Karakteristik umum teks sastra kearifan lingkungan sastra lisan Jawa, yaitu (i) arcadia dilukiskan terpengaruh mitologi yang berdasar atas alam; (ii) idylls digambarkan sebagai pelaksanaan adat desa sebagai warisan nenek moyang dan para leluhur; (iii) georgic digambarkan sebagai bekerja secara harmonis dengan alam fisik dan metafisik; (iv) retreat diwujudkan

dalam narasi perjalanan (ritual) tokoh pewayangan dan para cikal bakal; (v) return dilukiskan melalui parabel (perjalanan tokoh) pewayangan dan sosok cikal bakal, trindih ukir, atau babat alas desa setempat yang dipahlawankan; (vi) gagasan apokaliptik tersaji di balik latar penamaan tempat serta penamaan para baureksa dalam sastra lisan, yang	diangkat atau terinspirasi dari penggalan, kutipan, atau sebagian kisah pewayangan, suluk, dan kitab suci; serta (vii) apokaliptik sebagai pemulihan stabilitas alam melalui tindakan pencegahan yang persuasif. Secara khusus (khas), karakteristik sastra kearifan lingkungan sastra lisan Jawa dibagi dalam dua kategori, yaitu kategori ciri puitis dan ciri	naratif. Karakteristik sastra kearifan berimplikasi secara ekologis, sosiologis, dan kultural. Secara ekologis, bekerja(sama) secara harmonis dengan alam, baik alam fisik maupun metafisik, merupakan bentuk perilaku kosmis. Alam fisik 'dijaga' dengan cara mengolah sekaligus memeliharanya. Sementara itu, alam psikis 'dijaga' melalui penghormatan

terhadap roh baureksa. Unsur narasi apokaliptik sastra lisan Jawa secara implisit (simbolis) menunjukkan fakta-fakta sekali pesan-pesan ekologis, yaitu (i) adanya kedekatan secara fisik maupun psikis terhadap alam (pedesaan), (ii) penolakan pembangunan (fisik)—sebagai stereotipe modernisasi yang berpotensi merusak lingkungan, (iii) alam merupakan kaca benggala,	cermin(an) diri, sekaligus media penemuan diri. <u>Supervision of Instruction</u> Prentice Hall ESL/EFL teachers and trainees will welcome this methodology text, which considers all practical classroom techniques and activities in terms of solid foundation stones of research on second language acquisition. -- Readers develop an overall approach to language	teaching from which their classroom practices can emerge. -- The text has user- friendly, readable prose, interactive end-of-chapter exercises for discussion and action, and end-of-chapter recommendati ons for further reading. Johnson discusses the elements of the brain-compatible contextual teaching and learning system: making meaningful connections; investing school work with significance; self-regulated learning; collaboration; critical and creating thinking; nurturing the individual; reaching high standards; and using authentic assessment. Drawing on the practices of teachers in kindergarten through university, Johnson provides numerous examples of how to use each part of the CTL system. Proceedings of the International Conference on Education, Humanities, Social Science (ICEHoS 2022) Lembaga Academic & Research Institute Abstract: An instructional text for teachers focuses on the effective use of media in teaching and on the unique characteristics of individual learners. The text is intended for use in conjunction with carefully planned classroom and laboratory activities. Topics include the systematic approach to teaching and its application; the learning process and the teacher's role; school learning objectives; instruction evaluation; teaching cognitive, affective, and motor skills objectives; teaching

<p>strategies; the role of instructional media; media selection; the uses of various media types; and characteristics of the instruction management model. A brief listing of audiovisual materials and resources is appended. Instructional component objectives and numerous exercises are given throughout the text. Puji dan syukur penulis panjatkan ke hadirat Allah swt. yang telah melimpahkan rahmat dan karunia-Nya, sehingga kita masih diberikan

kekuatan, kesehatan, dan kemudahan dalam menjalankan berbagai aktivitas. Berkat rahmat-Nya, buku “Strategi Pembelajaran Keterampilan Berbahasa dan Sastra yang Efektif di Sekolah Dasar” ini dapat terselesaikan. Penulisan buku ini berawal dari kegiatan mengkaji bersama tentang Filosofi, Teori, dan Konsep Bahasa dan Sastra Indonesia,

sampai akhirnya membentuk tim dan bertekad merampungkan buku ini karena memiliki kesamaan visi untuk meningkatkan kualitas pembelajaran Bahasa Indonesia di Sekolah Dasar. Pembelajaran Bahasa Indonesia tidak lepas dari pembelajaran keterampilan berbahasa, yaitu menyimak, berbicara, membaca, dan menulis. Sajian

<p>keterampilan berbahasa yang tidak lagi tersaji eksplisit dalam kurikulum 2013 menuntut guru agar lebih cermat dalam merancang pembelajaran sehingga pembelajaran dapat tepat sasaran. Pembelajaran keterampilan berbahasa tepat sasaran manakala</p>	<p>aspek keterampilan, strategi pembelajaran, bahan ajar, media pembelajaran, dan evaluasi pembelajaran nya sesuai. Faktanya, masih dijumpai penilaian pembelajaran keterampilan menulis dilakukan dengan menggunakan bentuk soalnya pilihan ganda; hanya</p>	<p>beberapa siswa yang mendapat kesempatan untuk berbicara; siswa menyimak sambil membaca teks dalam pembelajaran keterampilan menyimak, dan masih banyak lagi. Oleh karena itu, diperlukan strategi pembelajaran keterampilan berbahasa yang efektif.</p>
