Blood-soaked blades have been taking their toll among the luscious lovelies in Garrett's home city of TunFaire. And though Garrett can be as civic-minded as the next guy—unless the next guy is Captain Block of the Watch—the private eye isn't sure he really wants to take on a serial killer psycho who does too good a carving job and never leaves any of the blood behind. Still, having Block pay him for his services with lots of ill-gotten government funds, and having his own partner, the Dead Man, strenuously urge him to take the case, prove an irresistible combination for Garrett. And so he begins a search that would take him from the lowest slums to the highest estates, from confrontations with magic-spitting enemies to run-ins with the king of crime's wayward daughter, to a final encounter with an ancient evil that has once again been loosed on his unsuspecting town.

The Iron Dream is a metafictional 1972 alternate history novel by Norman Spinrad. The book has a nested narrative that tells a story within a story. On the surface, the novel presents an unexceptional science fiction action tale entitled Lord of the Swastika. This is a pro-fascist narrative written by an alternate history version of Adolf Hitler, who in this timeline emigrated from Germany to America and used his modest artistic skills to become first a pulp-SF illustrator and later a science fiction writer in the L. Ron Hubbard mold (telling lurid, purple-prosed adventure stories under a thin SF-veneer). Spinrad seems intent on demonstrating just how close Joseph Campbell's Hero with a Thousand Faces—and much science fiction and fantasy literature—can be to the racist fantasies of Nazi Germany. The nested narrative is followed by a faux scholarly analysis by a fictional literary critic, Homer Whipple, of New York University.

In debut author Gwendolyn Clare's thrilling *Ink, Iron, and Glass*, worlds collide as Elsa unveils a deep political conspiracy seeking to unlock the most dangerous weapon ever created—and only she can stop it. Can she write a world gone wrong? A certain pen, a certain book, and a certain person can craft entirely new worlds through a branch of science called scriptology. Elsa comes from one such world that was written into creation, where her mother—a noted scriptologist—constantly alters and expands their reality. But when her home is attacked and her mother kidnapped, Elsa is forced to cross into the real world and use her own scriptology gifts to find her. In an alternative Victorian Italy, Elsa finds a secret society of young scientists with a gift for mechanics, alchemy, or scriptology—and meets Leo, a gorgeous mechanist with a smart mouth and tragic past. She recruits the help of these fellow geniuses just as an assassin arrives on their doorstep. An Imprint Book “The novel samples historical figures the way a hip-hop album might sample a classic riff: it opens a window to European history, lets in fresh air, and sends facts flying... This novel is a source of serious fun.” —School Library Journal (starred review) “This debut novel is fully realized

steampunk-fantasy, offering an alternate history that deftly and creatively adopts the politics of 19th-century Italy to create a compellingly unique world.... Exciting and original.” —Kirkus (starred review) “Clare's debut is built upon an intriguing premise... A solid series starter featuring a competent, flawed heroine that's built for sf fans.” —Booklist “There's much more to uncover in the political machinations of each world, and a gasp-worthy ending ensures a sequel.” —BCCB
