The Singing Cowboys is a nostalgic, back-in-the-saddle examination of the musical B-Western films of the 1930s, 1940s, and 1950s and the singing cowboys that made them so popular. The author, David Rothel, spent a fondly remembered portion of his youth sitting in the Lincoln Theatre in Elyria, Ohio, where the singing cowboys-Gene Autry, Roy Rogers, Tex Ritter, and all the rest-played out their adventures and yodeled their songs on the silver screen. Thousands, perhaps millions, of youngsters from that era shared this common experience during their formative years. First published in 1978, The Singing Cowboys has been out of print for many years. Now, Riverwood Press in association with The Lone Pine Museum of Western Film History has republished the book in an updated, expanded, and repackaged edition. We hope you enjoy!

The movie musical has been a much loved genre since motion pictures found a voice and learned to sing. Throughout the decades, audiences thrilled to the glamour of the musicals of Busby Berkley and were emotionally invested in stories about Austrian nuns and the King of Siam with the musicals

from Rodgers and Hammerstein. With the advent of Rock 'n Roll, Heavy Metal, R&B, Motown, Punk Rock, and Disco entering the public consciousness, musicals started to sing a very different tune. Into the 1970s, the movie musical became a daring, dangerous, and divinely decedent cinema experience. Lee Gambin's *We Can Be Who We Are: Movie Musicals from the 1970s* explores this explosive energy and diversity. From the quirky sophistication of *On A Clear Day You Can See Forever* and the dark unnerving genius of *Cabaret* to the sweet sentimentality of *Charlotte's Web*, Gambin's book offers insightful film criticism while exhaustively covering the decade. Some of the films Gambin examines include *Phantom of the Paradise*, *Grease*, *The Wiz*, *Rock'n'Roll High School*, *Bedknobs and Broomsticks*, *All That Jazz*, *Godspell*, *Hair*, *The Rose*, *Saturday Night Fever*, *The Rocky Horror Picture Show*, *Willy Wonka and the Chocolate Factory*, *Pete's Dragon*, *Tommy*, *Kiss Meets The Phantom of the Park*, and many, many more. The book also features incredible brand new interviews from dozens of extremely talented artists who made these movies possible: director John Carpenter discussing his biopic *Elvis*; Lesley Ann Warren giving fascinating insight into the made for TV production *It's A Bird...It's A Plane...It's Superman*; auteur filmmaker Norman Jewison delivering two very different musicals with *Fiddler on the Roof* and *Jesus Christ Superstar*. This book is loaded with numerous production stories and candid insights into how these films were made and received. Gambin's book also features loads of wonderful photos, many of which have never before been seen including wonderfully candid behind the scenes stills!

At 368 pages, *Beyond Salsa for Ensemble, Vol. 1* is the most ambitious of the 15 volume series. The course is designed for college and high school Latin music ensembles and working salsa bands seeking to add modern Cuban "timba" and "songo" material and techniques to their repertoires. The course begins with the basic salsa groove and then presents two modern Cuban grooves (one in 2-3 clave and one in 3-2 clave), with note-for-note transcriptions for piano, bass, bongo, timbales, congas, and drums - all explained in careful detail in a conversational style. The next part of the book teaches 36 rhythm breaks, or "efectos," that can be added to any Latin arrangement. Again, every stroke of every part is meticulously transcribed, with lead sheets also provided for more experienced players. Finally, the book contains a complete chart for performance of a popular Cuban hit by the popular group *Los Que Son Son*, led by Pupy Pedrosó, the subject of several of the *Beyond Salsa Piano* books.

A lifelong dabbler in music, Michael Dane is also out of his mind. In this affectionately satirical memoir, you get a comedy crash course in music appreciation, from Bach to Bonnaroo. "Stuck" also chronicles the author's mental quirks, from OCD to anxiety disorder. The premise is simple: Everyone's crazy, crazy is funny, and whatever brand of crazy you have, there's probably a playlist for it. The book has playlists for losing your grip and for finding your way back. You'll also learn how to remove an earworm, why karaoke isn't necessarily evil, and how to avoid making Dizzy Gillespie angry. Dane, author of "Does This Taste Funny?," also interviews a fictional eighteenth century composer, a piano tuner with a penchant for destroying pianos, a legendary sixties icon, two accordionists, a hip-hop harpist, and his high school band director. No matter what style of music moves you, this book probably covers it, and whatever the state of your mental health, "Stuck In My Head" will have you laughing like a crazy person. Some pieces of music survive. Most fall into oblivion. What gives the ten masterpieces selected for this book their exceptional vitality? In this penetrating volume, Harvey Sachs, acclaimed biographer and historian of classical music, takes readers into the hearts of ten extraordinary works of classical music in ten different genres, showing both the curious novice and the seasoned listener how to recognize, appreciate, and engage with these masterpieces on a historical and compositional level. Far from what is often thought, classical music is neither dead nor dying. As a genre, it is constantly evolving, its pieces passing through countless permutations and combinations yet always retaining that essential élan vital, or life force. The works collected here, composed in the years between 1784 and 1966, are a testament to this fact. As Sachs skillfully demonstrates, they have endured not because they were exceptionally well-made or interesting but because they were created by composers—Mozart and Beethoven; Schubert, Schumann, Berlioz, Verdi, and Brahms; Sibelius, Prokofiev, and Stravinsky—who had a particular genius for drawing music out of their deepest wellsprings. “Through music,” Sachs writes, “they universalized the intimate.” In describing how music actually sounds, *Ten Masterpieces of Music* seems to do the impossible, animating the process of composing as well as the coming together of disparate scales and melodies, trills and harmonies. It tells us, too, how particular compositions came to be, often revealing that the pieces we now consider “classic” were never intended to be so. In poignant, exquisite prose, Sachs shows how Mozart, a former child prodigy under constant pressure to produce new music, hastily penned *Piano Concerto No. 17* in G major, one of his finest piano concertos, for a teenage student, and likewise demonstrates how Goethe's *Faust, Part One*, became a springboard for the musical imagination of the French composer Berlioz. As Sachs explains, these pieces are not presented as candidates for a new “Top Ten.” They represent neither the most well-known nor the most often-performed works of each composer. Instead, they were chosen precisely because he had something profound to say about them, about their composers, about how each piece fits into its composer's life, and about how each of these lives can be contextualized by time and place. In fact, Sachs encourages readers to form their own favorites, and teaches them how to discern special characteristics that will enhance their own listening experiences. With *Ten Masterpieces of Music*, it becomes evident that Sachs has lived with these pieces for a veritable lifetime. His often-soaring descriptions of the works and the dramatic lives of the men who composed them bring a heightened dimension to the musical perceptions of all listeners, communicating both the sheer improbability of a work becoming a classic and why certain pieces—these ten among them—survive the perilous test of time.
