George Orwell's Nineteen Eighty-Four is unquestionably the most famous dystopian novel of all times. Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member.

The narrative around flexible working needs flipping. After being able to work flexibly for 14 of her 23 years in education across teaching, school leadership and MAT leadership roles, Emma Turner realised that sadly, she's actually in the minority and has just been kinda lucky. Across the education system, although

there is a recent groundswell of support for developing more life friendly, innovative and flexi ways of working, there are still a great deal of misconceptions, biases and prejudices about flexible working and flexible workers. Through her 'playlist' of educational floor fillers, Emma explores some of the successful ways in which flexible working can be viewed by both employers and employees for staff at all levels, including senior and school leadership.

Designed to open up the flexible working conversation, this book outlines what can work, what has worked and what could work. This new way of viewing the flexi narrative from an experienced flex-pert encourages all to revisit our views on flexible working.
