Mallor's 11ed is designed to meet the needs of the two-term course. The first term is generally required

of business majors and the second by accounting majors, as it prepares them to sit for the CPA exam. The cases in the 11ed are excerpted and edited by the authors, however, the syntax is not altered, therefore retaining the language of the courts. However, this edition will now include a mix of actual AND

hypothetical cases. 11ed is easily available for customization. Mallor is considered by the marketplace to be the most complete text available.

It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which

was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians),

and how to avert similar future attacks.Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts-it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious

collapse of WTC 7-it is nevertheless an essential record of one of the most transformational events of modern times.

Cengage Advantage Books: Business Law Today, The Essentials: Text and Summarized Cases John Wiley & Sons Clear, lucid, and extremely accessible, Problems and Materials on Commercial Law helps students understand black letter law and the statutory language in the Uniform Commercial Code. Drawing on experience in both teaching and writing, the authors provide thorough and practical coverage using a popular problem approach. The text's effective format,

manageable length, and inclusion of the most important cases make Problems and Materials on Commercial Law concise and efficient.

"This is the 18th Edition (and the 24th overall edition) of a business law text that first appeared in 1935. Throughout its more than 80 years of existence, this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these

traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject regulatory materials into a business law textbook, defining the "legal environment" approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and the law of an increasingly digital world. The 18th Edition continues to emphasize change by integrating

these four areas into its pedagogy"--
