Presenting the 2019 edition! Imagine living the lifestyle you want while making money and working anywhere in the world. Imagine enjoying the beaches in Thailand one day, then trying the best pizza in Italy the next. It sounds like a dream -- travel anywhere you want, make money doing something you enjoy, and live life to the fullest. It's not a dream, though -- a growing number of digital nomads are leaving the 9-to-5 life and choosing to take control of their life. What's a digital nomad? A person who travels at will, lives where they want, and does their work digitally. They have no cubicle and no dress code. Digital nomads are young, old, male, female, single, married, have children, and are from almost every country on this planet. If you want to become a digital nomad, nothing can stop you. Becoming a Digital Nomad offers a proven step-by-step guide to test and transition into the digital nomad lifestyle. It's one part travel guide and one part how-to. Steps build on each other in chronological order, and a dozen worksheets guide you with specific questions to answer. (These are freely available to save and print offline or online, whatever works best for you.) Step 1: know yourself and what you want focuses on you, good reader. We have some work on do on understanding you, the person you see in the mirror. Step 2: clarify your desires and acknowledge limitations does two important things in gearing you up for your journey. Nomadus interruptus: just a test, please is an interim chapter dedicated to setting up a good test of the digital nomad lifestyle. Step 3: making money puts together a list of the many ways digital nomads can make money along with some notes on how to manage your money across borders. Step 4: get affairs in order focuses on what needs to be done before leaving your country. Step 5: gear up and slim down focuses on what to pack and how to deal with the rest of your stuff, depending on your choices from earlier steps. Step 6: the big move and settling in counts you down from your last few days at your old place to your first few days at your new place. Step 7: start enjoying your new life helps establish new habits, make new connections, and helps to make the lifestyle a sustainable one. Step 8: going home -- or making a new home for yourself anywhere you choose to go. Learn from dozens of digital nomads, get how-to advice on every aspect of the transition, or learn how to test the lifestyle out before committing to it. About the author Chris Backe has lived as a digital nomad since 2013, and taught English in South Korea for five years before that. He is a travel blogger, a web developer, a guidebook writer, and a digital nomad consultant. He's married to an awesome Canadian, and together they've traveled across Asia, Europe, South America, and North America.

The James Beard Award-winning chef of Underbelly Hospitality, a champion of Houston's diverse immigrant cooks—Vietnamese, Korean, Mexican, Indian, and more—shows you how to work with their flavors and cultures with respect and creativity. JAMES BEARD AWARD FINALIST Houston's culinary reputation as a steakhouse town was put to rest by Chris Shepherd, the Robb Report's Best Chef of the Year. A cook with insatiable curiosity, he's trained not just in fine-dining restaurants but in Houston's Korean grocery stores, Vietnamese noodle shops, Indian kitchens, and Chinese mom-and-pops. His food, incorporating elements of all these cuisines, tells the story of the city, and country, in which he lives. An advocate, not an appropriator, he asks his diners to go and visit the restaurants that have inspired him, and in this book he brings us along to meet, learn from, and cook with the people who have taught him. The recipes include signatures from his restaurant—favorites such as braised goat with Korean rice dumplings, or fried vegetables with caramelized fish sauce. The lessons go deeper than recipes: the book is about how to understand the pantries of different cuisines, how to taste and use these flavors in your own cooking. Organized around key ingredients like soy, dry spices, or chiles, the chapters function as master classes in using these seasonings to bring new flavors into your cooking and new life to flavors you already

knew. But even beyond flavors and techniques, the book is about a bigger story: how Chris, a son of Oklahoma who looks like a football coach, came to be "adopted" by these immigrant cooks and families, how he learned to connect and share and truly cross cultures with a sense of generosity and respect, and how we can all learn to make not just better cooking, but a better community, one meal at a time.

Globalization and Competitiveness Tuttle Publishing

"An "inside the room" memoir from one of our most distinguished ambassadors who—in a career of service to the country--was sent to some of the most dangerous outposts of American diplomacy. From the wars in the Balkans to the brutality of North Korea to the endless war in Iraq, this is the real life of an American diplomat. Hill was on the front lines in the Balkans at the breakup of Yugoslavia. He takes us from one-on-one meetings with the dictator Milosevic, to Bosnia and Kosovo, to the Dayton conference, where a truce was brokered. Hill draws upon lessons learned as a Peace Corps volunteer in Cameroon early on in his career and details his prodigious experience as a US ambassador. He was the first American Ambassador to Macedonia; Ambassador to Poland, where he also served in the depth of the cold war; Ambassador to South Korea and chief disarmament negotiator in North Korea; and Hillary Clinton's hand-picked Ambassador to Iraq. Hill's account is an adventure story of danger, loss of comrades, high stakes negotiations, and imperfect options. There are fascinating portraits of war criminals (Mladic, Karadzic), of presidents and vice presidents (Clinton, Bush and Cheney, and Obama), of Secretaries of State (Madeleine Albright, Colin Powell, Condoleezza Rice, and Hillary Clinton), of Secretary of Defense Robert Gates, and of Ambassadors Richard Holbrooke and Lawrence Eagleburger. Hill writes bluntly about the bureaucratic warfare in DC and expresses strong criticism of America's aggressive interventions and wars of choice"--

And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga

that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. *Includes reading group guide*

NOW - Version 2.0 released November 3, 2011 - several sections expanded, made the Korean larger, upgraded table of contents.Coming to Korea?* Want to teach English in Korea?* Want to do business in Korea and really understand the way they think?* Want to chat with a cute / handsome Korean at the club?* Want to do more than just order a beer or stumble around the major tourist destinations?It's time to LEARN KOREAN. But I HATE learning languages! you say. I can understand that - it takes too long, there's too much to learn, or whatever. This e-book will highlight several hundred words and phrases you're definitely going to use. Everything from ordering a beer to telling the doctor where it hurts is here - and logically organized to help you find things later on.Hi, I'm Chris Backe. I'm an English teacher and professional writer currently living in Seoul, South Korea. When I first moved to Korea, I wasn't sure I'd ever pick up the language. Why? Every book that tried to teach me Korean did the same thing: they spent maybe three pages on the basic parts of the language, then jumped right into full phrases and lecturing about boring points of grammar. Yawn. Sure, I ended up learning a fair amount of Korean - and I realized there was an easier way: let's learn the stuff you're actually going to use in Korea. You will probably never need to know the phrase 'I am wearing a green sweater', so why learn it? You WILL use the phrase 'Where is the bathroom?', so you WILL learn that one. It's that simple.Here's the strategy: Use words and phrases, not stupid dialogues. We're going to pair up the words and phrases, show you what it looks like in Korean, then show you how to say it in simple English syllables. It's as simple as that. Write it on flashcards, say it over and over again, use post-it notes, practice with your significant other, whatever. Here are the tools - use them in whatever way works for you.This book is not a dictionary - it's designed specifically for people coming to Korea or people interested in Korea. You'll start with hangeul, the Korean alphabet. You'll learn the letters, how to put them together, and how to make sounds with them. Later on, we'll talk about everything from Korean alcohol to getting off the beaten path. The biggest difference between this book and those produced by Koreans: I am not a professional Korean teacher. That means I'm not going to throw any fancy language terms like 'fricative' or 'nasal consonant' at you. It also means I know what you want to learn. I've been there. We're going to keep this so simple, even a fifth grader could keep up. I teach English to elementary schoolers, so I'd like to think I know what that means :)So what else are we going to talk about?* Getting the pronunciation right - the locals are picky about this.* About formalities and honorifics - a big deal in this Confucian-based society. * Getting to know people - everyone from co-workers to your boss.* The holidays Korea really celebrates - including the ones you WON'T find on your calendar. * Eating - with a special section for vegetarians and those with allergies.* Korean alcohol - some of the most potent stuff around.* Curses - the words and phrases that'll make the old people blush.* Handling your students (if you're an English teacher) * Talking to your boss and co-workers (if you're a businessperson).* Traveling around Korea - how to read the maps, ask for help, and get around without a guidebook.* Enjoying the jimjilbang - A Korean sauna / spa that'll make you sweat and leave you relaxed.* What to say when you feel like crap.* Lots of Korean expressions - including some expressions that locals have never heard from a foreigner's mouth. And plenty more.All this comes to you from a native English speaker, living in Korea, who works with Koreans on a daily basis.So what are you waiting for? Stop messing around, get it now, and START LEARNING KOREAN.

Into the Wild Watson-Guptill

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

From one of the world's most admired women, this is former National Security Advisor and Secretary of State Condoleezza Rice's compelling story of eight years serving at the highest levels of government. A native of Birmingham, Alabama, who overcame the racism of the Civil Rights era to become a brilliant academic and expert on foreign affairs, Rice distinguished herself as an advisor to George W. Bush during the 2000 presidential campaign. Once Bush was elected, she served as his chief adviser on national-security issues - a job whose duties included harmonizing the relationship between the Secretaries of State and Defence. It was a role that deepened her bond with the President and ultimately made her one of his closest confidantes. With the 11 September 2001, terrorist attacks, Rice found herself at the centre of the Administration's intense efforts to keep America safe. Here, Rice describes the events of that harrowing day - and the tumultuous days after. No day was ever the same. Surprisingly candid in her appraisals of various Administration colleagues and the hundreds of foreign leaders with whom she dealt, Rice also offers her keen insight into how history actually proceeds. In No Higher Honour,she delivers a master class in statecraft -- but always in a way that reveals her essential warmth and humility, and her deep reverence for the ideals on which America was founded.

In Russia, everything has a price. In Far East Siberia, Russia, a sense of independence from the central government prevailed, even under harsh Communist rule. Now, with the nation in political turmoil, poachers operate in brazen defiance of the law. Their targets—rare Siberian tigers—fetch hundreds of thousands of dollars on the black market. American biologist Chris Harmon is part of a joint Russian-American research team investigating the tigers' survival in the Sikhote-Alin preserve. Harmon's recent discovery of a tiger and her three young cubs is threatened by a politician's lucrative thirty-year logging contract, which could destroy their habitat. His petition to oppose the deal is dismissed, but Harmon's efforts to protect the endangered animals are getting someone's attention. Former KGB hit man Sergei Lemenov is a dangerous man, not just a hunter of unusual animals, but of men too. He saves a piece of each of his victims—man or beast—giving him the gruesome nickname, The Collector. He's been ordered to obtain the tigers and to silence Harmon, permanently. Now, Harmon must navigate a labyrinth of bureaucratic red tape, ruthless Communist sympathizers, and a complicated international trafficking ring to save the tigers, and himself.
