*The Last Christmas Tree: An Idyl of Immortality* Artisan Books

As the modern celebration of Christmas took shape across the nineteenth century, American writers gave it new meaning in the pages of countless books and magazines. Now, for the first time, this rich anthology brings together some of the most significant of those seasonal stories to retell a forgotten tale of Christmases past. From the authors who helped define a national literary culture, to the popular sentimentalists who negotiated Christmas's position at the center of family life, to the realists who looked to reshape American letters in the wake of the Civil War, and beyond: all varieties of American writers turned to Christmas as an

inevitable and potent subject during this deeply formative period in the history of American literature. In *Christmas Past*, Thomas Ruys Smith brings together a diverse range of voices to showcase the many ways in which Christmas was imagined across the nineteenth century, offering images that echo down to the present. The introduction that frames the anthology provides a new literary history of Christmas, contextualizing the selections and making clear the links both between them and to the wider trajectory of American literature.

Who would like a Christmas tree? That all depends on when you ask. In January, in February, in March, in April . . . the black-capped chickadees, the field mice, the white-tailed deer, and the woodcock, come to claim the tree. They want it for breakfast, lunch, and dinner, for shelter and protection, for a place to start a new family. Can a Christmas tree be all that? Yes, and even more . . . The year has just begun!

Family, friendship, and the spirit of giving

are at the heart of this inspiring picture book. Opening in Depression-era New York, *The Carpenter's Gift* tells the story of eight-year-old Henry and his out-of-work father selling Christmas trees in Manhattan. They give one of their leftover trees to construction workers building Rockefeller Center. That tree becomes the first Rockefeller Center Christmas Tree, the finest Henry has seen when adorned with homemade decorations. Henry wishes on the tree for a nice, warm house to replace his family's drafty, one-room shack. Through the kindness of new

friends and old neighbors, Henry's wish is granted, and he plants a pinecone to commemorate the event. As an old man, Henry repays the gift by donating to Rockefeller Center the enormous tree that has grown from that pinecone. After bringing joy to thousands as a beautiful Christmas tree, its wood will be used to build a home for a family in need. Written by children's nonfiction author David Rubel, in collaboration with Habitat for Humanity, *The Carpenter's Gift* features charming, full-color illustrations by Jim LaMarche.
