'The boat appeared when I didn't expect or, frankly, need her. My bucket list was empty. Life was full...But sailing towards me was a boat that would stir the waters, waking decades of loss, revealing history untold, and restoring a legacy that was lost in the wind. For her and for me, I had to wade into that water. I had to go, to search, to find.' Having fallen hopelessly in love with a 1930s Danish spidsgatter, a beautifully constructed 25 ft wooden double-ender, Kaci embarks on an international search to unravel the mystery of the boat's past, and discovers the many lives Pax touched since she first hit the water in 1936. Kaci Cronkhite's seven year search for Pax's history is an elegant little gem, taking the reader aboard not only for sublime, wind-filled sails but also to eavesdrop the conversations and relationships that are built as she learns more about Pax's past, whilst hugely enjoying her present. Finding Pax is a story of discovery and reconnection like no other. The writing is poetic, spare, and full of wisdom: 'In sailing, in weather, in life and death, answers are not endings and questions are not to be feared. The unknowns keep us moving forward.'

Lin and Larry Pardey have now been cruising on board their own boats, racing, delivering, and repairing other people's boats for more than 44 years. After west-to-east and east-to-west circumnavigations, and voyages to more than 75 countries, they have a breadth of knowledge that few other boating authors possess. Most of the voyaging has been done on an earn-as-you-go budget that could be well within the reach of the majority of those whose dream is to set sail. Their motto? "Go small, go simple, but go now!" The Pardeys' strengths are neatly symbolized by the boats they have built. Each one is romantically traditional, with swooping sheerlines, and is completely dependent on the wind. And yet each boat carries the best, strongest, and most seamanlike gear. Like their vessels, the Pardeys' writings are founded on a marriage of the spirit of romantic adventure and the practical, up-to-date seamanship that keeps them and their boats safe. This revised and expanded third edition of a cruising classic includes 10 completely new chapters with such advice as: sixteen ways to encourage your lover (partner) to share your dream; strategies for turning sudden engine failure into a minor incident; choosing safety equipment; repairing rigging at sea. All of the original chapters have been updated to ensure that the information will be helpful for everyone who dreams of cruising—whether now or soon. The Capable Cruiser is a logical extension of the Pardeys' *The Self-Sufficient Sailor*, with more emphasis on seamanship underway, including careful analysis of extreme anchoring situations and solutions for mitigating them. Underlying each and every chapter is the warmth and encouragement that spurred Herb McCormick, former editor of *Cruising World* magazine, to label Lin and Larry Pardey "the enablers."

**Around the World on a 12 Foot Yacht** FriesenPress

Turn a run-down fiberglass boat into a first-class yacht Since it first appeared in 1991, Don Casey's *This Old Boat* has helped tens of thousands of sailors refurbish older fiberglass boats and has become a revered classic among boat rehabbers. This second edition is revised from first page to last with new information on electrical systems, diesel engines, refrigeration, resins, plumbing and more. Plus, more than 600 newly created illustrations enhance the book's beauty as well as its utility.

There is a growing crisis in our oceans: mysterious outbreaks of infectious disease are on the rise.

Marine epidemics can cause mass die-offs of wildlife from the bottom to the top of food chains, impacting the health of ocean ecosystems as well as lives on land. Portending global environmental disaster, ocean outbreaks are fueled by warming seas, sewage dumping, unregulated aquaculture, and drifting plastic. *Ocean Outbreak* follows renowned scientist Drew Harvell and her colleagues into the field as they investigate how four iconic marine animals--corals, abalone, salmon, and starfish--have been devastated by disease. Based on over twenty years of research, this firsthand account of the sometimes gradual, sometimes exploding impact of disease on our ocean's biodiversity ends with solutions and a call to action. Only through policy changes and the implementation of innovative solutions from nature can we reduce major outbreaks, save some ocean ecosystems, and protect our fragile environment.

A record breaking solo sailing adventure on the smallest yacht to ever complete a circumnavigation.

**Reviews and Comparisons of 360 Boats Under 26 Feet** L&L Pardey Publications

Larry Pardey is accepted as one of the master craftsmen of the wooden-boat building world. He and his wife, Lin, have built and repaired many boats including two strong, handsome cruising cutters and sailed twice around the world in them. This impressive book shows the process of constructing a boat hull with extensive photographs and drawings and includes ample time-saving procedures. From financial and time planning, lofting, floors and framing, selection of materials, planking and spiling, design considerations, to deck beams, man-hour norms and details critical to wooden boat construction, this volume serves as the most comprehensive guide a potential builder could ever use. Reders will also appreciate the discussions of how to select from numerous construction methods and materials, how to set up the shop and tips for sharpening and making your own tools. The new appendix on proper adhesive selection is "must" reading.

A collection of 24 stories written by talented authors. No two writers are the same, but they have one thing in common: they are storytellers at heart and their deepest desire is to be heard. *Writing the Dream* shares the stories of twenty-four Australian writers, from emerging to established authors. Some are traditionally published, while others have taken the self-publishing route. Some have faced rejection after rejection, while others have had a dream path. But, while their writing journeys are different, all of them strive to create, entertain, inspire and inform. And all of them have unique and creative voices that deserve to be heard. With contributors including Anna Jacobs, Juliet Marillier, Natasha Lester, Jenn J McLeod, and a host of other talented writers, the stories in *Writing the Dream* are set to strike an inspirational chord in every hopeful writer's heart.

**Round the Horn Before the Mast** L&L Pardey Publications

Everyone dreams of tropical escape. But what happens when you escape for too long? Imagine spending 24 hours a day with your spouse in 31 not-so-square feet . . . for years; crossing the Pacific Ocean on two gallons of fuel; and tossing spaghetti marinara around your living room, then cleaning it up while bouncing like ice in a martini shaker. *Tightwads on the Loose* tells the story of Wendy and Garth, lured to sea by the promise of adventure. They buy a 31-foot boat that fits their budget better than it fits Garth's large frame and set sail for an open-ended voyage, never imagining they'd be gone seven years, or cover 34,000 miles at the pace of a fast walk. They live without most "necessities" and learn that teamwork and a sense of humor matter most as they face endless "character-building opportunities." They make a long-anticipated visit to the island where Garth had been shipwrecked as a teenager, only to find it had become a penal colony. An electronic catastrophe in the Solomon Islands leaves them without navigation equipment, which forces them to trade their free-wheeling lifestyle for one that seems straight out of a '60s sitcom: jobs at a U.S. Army base in the Marshall Islands. In Asia, they dodge typhoons and ships that threaten to turn their home into kindling. Finally they endure a grueling 49-day nonstop ocean crossing. None of this prepares them for their arrival "home" to a post-9/11 America which leaves them wondering what

had changed more, them or the world. *Tightwads on the Loose* offers a fun read to the armchair adventurer -- or anyone afflicted with wanderlust.

The Waggoner Cruising Guide is often called the Bible for Northwest Cruising. Each year it is extensively updated to provide the latest information covering each cruising area along with detailed listings of moorage and fuel facilities. There is text on anchorages, Local Knowledge, the flavor of each area, some history, and list on things to see and do. Lots of maps and photos, too *A Catalog of Plans for Cruising Boats, Sail & Power*, from the Boards of the Benford Design Group Chronicle Books (CA)

This historical work tells the story of Captain Vancouver and his mapmaker, Lt. Baker, an ancestor of the author. It describes in authentic detail the relationships with the First Nations people they met on voyages between Vancouver and Hawaii. The book was presented in the BC Legislature. and bonus material includes questions for educators.

*Lakeland Boating* Paradise Cay Publications

In *Tides: The Science and Spirit of the Ocean*, writer, sailor, and surfer Jonathan White takes readers across the globe to discover the science and spirit of ocean tides. In the Arctic, White shimmies under the ice with an Inuit elder to hunt for mussels in the dark cavities left behind at low tide; in China, he races the Silver Dragon, a twenty-five-foot tidal bore that crashes eighty miles up the Qiantang River; in France, he interviews the monks that live in the tide-wrapped monastery of Mont Saint-Michel; in Chile and Scotland, he investigates the growth of tidal power generation; and in Panama and Venice, he delves into how the threat of sea level rise is changing human culture—the very old and very new. *Tides* combines lyrical prose, colorful adventure travel, and provocative scientific inquiry into the elemental, mysterious paradox that keeps our planet's waters in constant motion. Photographs, scientific figures, line drawings, and sixteen color photos dramatically illustrate this engaging, expert tour of the tides.

*The Vega Adventures* Wendy E. Hinman

The dual biography of Moses Louis Annenberg and his son, Walter, details their colorful, entrepreneurial lives and careers, from the father's racketeering fortune building and tax-evasion prosecution to the son's current publishing and political ventures

**Federal Requirements for Recreational Boats** 2008 PowerBoat Guide

Early in 1892, one of Norway's finest boat builders launched a sailing legend. Over 100 years later Shane Granger and Meggi Macoun were peacefully enjoying a siesta when the great tsunami of 2004 changed their lives forever. With thousands of people desperately in need, they loaded their boat with donated food and medical supplies then set sail for Sumatra. That voyage was the beginning of a rip-roaring real life sea tale complete with storms, adventures, exotic tropical islands, and heart-rending drama. Come feel the wind, smell the riggers tar, and taste the salt in this tale of a century old wooden sailing boat and her crew of intrepid adventurers as they take up their yearly 7,500-mile journey to deliver over 25 tons of educational and medical supplies to some of our world's most remote island communities. About the Author SHANE GRANGER (1948 - until his luck runs out) has been in love with the sea since he was seven years old. Having worked as a radio DJ, advertising photographer, boat builder, director of museum ship restoration, and bush pilot, he has always come back to the sea. Shane has sailed thousands of miles solo, most of that on a square-rigged brigantine he salvaged from a beach in West Africa - a vessel he once single-handedly sailed across the Atlantic without a functioning rudder. After walking across the Sahara Desert, and being kidnapped by bandits in Afghanistan, his greatest ambition in life is to find a comfortable niche where he can enjoy the healthy benefits of monotony and boredom. He currently lives on an ancient wooden sailing boat with his partner Meggi Macoun and their cat Scourge.

*How I Sailed on Other People's Yachts and Lived to Tell about It* Simon & Schuster

Follow the sailing adventures of Robert Beriault, when at the age of 57, he joins a sailing club for lessons and soon becomes an instructor. He dreams of sailing around the world and adopts the strategy of going at it one ocean at a time. Part travelogue and part sailing primer, *Sailor Without a Boat* tells the true story of how Robert chases after his dream. Candid, humorous advice is interspersed with hilarious tales from the Atlantic to the Pacific, as he recounts the idiosyncrasies of his skippers and fellow sailors. Among his many adventures, Robert crews for a reckless captain who pushes boat and crew beyond safety limits during a 3600-kilometre offshore passage. Searching the Internet for a transatlantic crossing, he almost sets out to sea with a Captain Bligh before jumping ship. Enjoying such places as the Caribbean and Cuba's stunningly beautiful Gardens of the Queen, Robert is boarded by gun-toting pirates; almost experiences an exploding yacht at sea; is embroiled in steamy soap operas; is medevaced by horse from the Guatemalan jungle; and fights 30-foot seas

when crossing the Atlantic with Canada's sailing legend Derek Hatfield. All this, without ever having bought a boat!"

*3rd edition fully revised with nine new chapters* McGraw-hill

For the first time ever, a comparative survey of 95 percent of the fiberglass pocketcruising sailboats ever built Author Steve Henkel has researched hundreds of cruising sailboats less than 26 feet long--pocket cruisers--to create this definitive gallery and handbook of the small cruising sailboats built in the last 45 years. With detailed plans, specifications, performance indexes, and commentary for every model the author could find (360 in all!), *The Sailor's Book of Small Cruising Sailboats* is your ideal core reference for the used and new boats you see on the water.

**The Last Outrageous Woman** St. Martin's Press

A jewel nestled in the Cascade Mountains, fjord-like Lake Chelan is known today for its recreational opportunities, prominence in the apple industry, and up-and-coming wineries. This 55-mile-long lake, walled by cliffs for much of its length, was part of the traditional hunting, fishing, and gathering lands of several Native American tribes, including the Chelan Indians. The first European explorers arrived in 1811 seeking fur trade routes. Settlement began in earnest about 1886 with land allotments and homestead claims for the Chelan and Entiat Indians. Mining, logging, hydropower, the establishment of the Chelan town site, and the development of a lake ferry system followed. Generations of colorful characters appear in the history of the valley: trappers and miners, early entrepreneurs, and boat captains who piloted the steamers that served as the highway of the valley. All are part of the fabric of the Lake Chelan Valley today.

**Charlie's Charts** Trinity University Press

*Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

"This volume of measurement instruments in the English language arts is the second one produced by the Research Instruments Project (TRIP), which was designed to collect and evaluate research instruments in language arts, language and language development, literacy, literature, oral language, reading, teacher knowledge/attitudes, and writing. The 160 measurement instruments are arranged alphabetically by category; within each category, measures are listed alphabetically by author. All instruments are cross-referenced by author. The age range indicated is the specific age grouping as stated by the authors or the age of the sample to whom the instrument was administered. The description of the instrument provides the purpose of the instrument, the date of construction, and a physical description of the instrument--often including sample items and administration data (directions, time, scoring procedures, and so forth). The lack of reliability and validity data for instruments is indicated when the information was unavailable. In the case of tables of difficulty, indexes, and so on, the data contained are summarized and the complete data are made available with the test or references cited.
