This book is the distillation of many years experience of working with Weber carburetors. These celebrated carburetors have been fitted to some of the most exciting and memorable cars and have been more widely used by tuners and modifiers, both for road and competition machinery, than any alternative. The mysteries of why and how they work so well and the practicalities of getting the best from them in any application are explained at length. Setting the carburetor to suit a particular engine, fault-finding on an existing installation, and the maintenance and repair of older carburetors are all topics which receive detailed attention.

Anyone maintaining or restoring a classic Weber-equipped car, or contemplating a Weber-based conversion, or simply interested in the science of engine performance and tuning, will learn something from these pages.

This book was published in June 1994 by a French publisher and became the winner of OAH's foreign language book prize. "The Nationalist Ferment contributes significantly to the renewal of early U.S. diplomatic history. Since the 1980s, a number of diplomatic historians have turned aside from traditional diplomatic issues and sources. They have instead focused on gender ethnic relationships, culture, and the connections between foreign and

domestic policy. Rossignol argues that in the years 1789-1812 the new nation needed to assert its independence and autonomous character in the face of an unconvinced world. After overcoming initial divisions caused by foreign policy, Americans met this challenge by defining common foreign policy objectives and attitudes, which both legitimized the United States abroad and reinforced national unity at home. This book establishes the constant connections between domestic and international issues during the early national period.

" Winner of the 35th Annual Lillian Smith Book Award, 2004 A BookSense 76 Spring 2004 Top 10 Poetry Book! Read an excerpt from the book Listen to Frank X Walker reading on NPR's "This I Believe" segment of Morning Edition. This collection of persona poems tells the story of the infamous Lewis & Clark expedition from the point of view of Clark's personal slave, York. The poems form a narrative of York's inner and outer journey, before, during

and after the expedition--a journey from slavery to freedom, from the plantation to the great northwest, from servant to soul yearning to be free. Over the course of the saga and through the poems, we are treated to subtle and overt commentaries on literacy, slavery, native Americans, buffalo, the environment, and more. Though Buffalo Dance purposely references historic accounts and facts, it is fictionalized poetry, and Frank X Walker's rare blend of history and art breathes life into an important but overlooked historical figure. Frank X Walker is the author of *Affrilachia* and the soon to be released *Black Box*, two collections of poetry. He teaches in

the department of English & Theatre and is the interim Director of the African/African American Studies Program at Eastern Kentucky University. He is also a visiting professor in Pan African Studies department at the University of Louisville. A 2004 recipient of the Lillian Smith Book Award, he lives in Lexington, KY.
