The Missing Manual

John Wiley & Sons
The best financial planner Michelle Singletary ever knew was Big Mama, her grandmother. Big Mama raised Michelle and her four brothers and sisters on a salary that never reached more than \$13,000 a year. Yet at her death, Big Mama owned her own home, had paid off a car loan, and had a

beautiful collection of Sunday-go-to-meeting church hats and a savings account that supplemented her Social Security check and small pension. Most important, she had taught Michelle "7 Money Mantras for a Richer Life." Those mantras serve as the inspiration for this straight-talking book of practical personal financial advice that really works. The 7 Money Mantras are: 1. If it's on your ass, it's not an asset! 2. Is this a need or is it a want? 3. Sweat the small stuff. 4. Cash is better than credit. 5. Keep it simple. 6. Priorities lead to prosperity. 7. Enough is enough. Michelle Singletary is a syndicated columnist for The Washington Post whose popular personal finance

column appears in more than 120 newspapers. She's also a mother of three children who understands what it's like to live on a budget. In a plainspoken, sassy, no-nonsense voice, Michelle provides answers to the financial issues that confront almost every household: how to teach children the value of money; how to address money issues in a relationship or marriage; household saving tips; getting the best loans; and much more. "This book is about saving enough money to have choices," she writes. "It's about feeling free to be cheap if you can't afford to buy a ton of gifts at Christmas. It's about eliminating wasteful spend-ing so you can begin to save

and invest. It's full of uncommon commonsense lessons and guidance on the way people should use their money." With humor and down-home financial wisdom, Michelle Singletary offers practical and realistic advice that will help you live well with the money you have. Michelle Singletary on . . . Romance and Money "It's okay to say: 'Honey, I love you and everything, but if you need money, ask your mama.'" Credit Cards "We are minimizing our financial potential by making minimum credit-card payments." Car Buying "If you want to save money, keep your car until you're on a first-name basis with the local tow-truck drivers." Leasing a Car "You, too, can drive a car you

can't afford and then have to give it back. It's crazy." Gift Giving "Generosity isn't about how much you spend. It's about how much thought you put into the gift." Penny Pinching "I once bought a stick-shift car because it was \$1,000 cheaper than the automatic in the same model. There was just one little problem. I couldn't drive a stick-shift. But at least I saved \$1,000!"

Live Rich, Even when You're Not
Princeton University Press

Laugh till you cry in

this new collection of stories from the award-winning “Serena Williams of humor writing” (New York Times Book Review) about raising babies and trying not to be one. Called a “comedic Godsend” by Conan O’Brien and “the Stephen King of comedy writing” by John Mulaney, Simon Rich is back with *New Teeth*, his funniest and most personal collection yet. Two murderous pirates find a child stowaway on board and attempt to balance pillaging with co-parenting. A woman raised by wolves prepares for her parents’ annual Thanksgiving visit. An aging mutant superhero is forced to learn humility when the mayor kicks him upstairs to a desk job.

And in the hard-boiled caper “The Big Nap,” a weary two-year-old detective struggles to make sense of “a world gone mad.” Equal parts silly and sincere, *New Teeth* is an ode to growing up, growing older, and what it means to make a family.

Does the topic of money and personal finance stress you out? Would you like to learn more about living an 'expensive' life on a budget? Instead of feeling constricted and broke when you are on a slim income or have debt to pay off, 'Financially Chic' invites you to look upon it as a fun and exciting adventure; where you can gain as much enjoyment as possible for the least amount of cost, as well as learning to get ahead financially. I want to share my contagious beliefs that dealing with your money can be fun and exciting. I do hope you will join me in this journey because it feels so much better to have a good relationship with your money than not. I love the saying Look after your money, and your money will look after you. It does not have to be scary, and you do not have to worry

about becoming greedy if you focus on your finances; all that will happen is that this important area of your life will feel happier, freer and more bountiful. It is a glorious feeling and it is well within your reach. I hope that by the end of this book you will be eager and enthusiastic about your own finances; in fact, I am sure you will. Manifesto Spend Well,
Live Rich How to Get
What You Want with
the Money You Have

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement

funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Learn How to Budget, Save, Get Out of Debt, Improve Your Credit and Invest in 36 Days

Zondervan
You Don't Need to Make Millions to Get Rich. Believe Me. This comprehensive 8-step guide provides the blueprint to achieve financial freedom at a young age, regardless of income. No B.S., just answers. In Get Rich Action Plan, you will learn the lifelong habits to become financially independent sooner than you thought possible. Do we really need another personal finance book? YES. The outdated status quo advice of "Save 10% for 40+ years" simply doesn't work. It's time to rethink the conventional wisdom that only serves to

continue the vicious cycle of wage slavery and the "live to work" mentality. In an age of globalization and abundance, I'm here to tell you there is another way! It is time to change how we think about personal finance, budgeting, and investing. The 8 steps in this book each work in unison to create a rapid snowball effect that will make your money work for you immediately, so you can afford time off of work or even retire in your 30's. From saving money to investing to growing your income, all of the specifics are covered in this action plan. Get Started on the Right Foot and Change How You Think About Finances I have never made much money by Western standards. In

fact, I have never made more than a middle class income. But by employing these strategies, I was able to increase my net worth dramatically at a very young age. It took only 6 years of full-time employment to build an "FU money" fund of hundreds of thousands of dollars, providing me the freedom to travel and take time off of work to pursue other interests. I was able to do this by quickly taking action and ignoring conventional advice. After years of trial and error, I have developed a strategy and philosophy that simply works. And I want to share with you everything I have done to build this large nest egg. I have nothing to hide. The truth is that the path to wealth is

not complicated, and you do not need to make millions to get there. More and more of us are realizing that financial freedom is possible in 10 years or less. But the media will never tell you this. Your politicians will never tell you this. They want you to live to work instead of work to live. Now is the time to flip the script and live free! The Time To Take Action Was Yesterday. The Next Best Time is Now. Whether you are in your 20's and looking for sound advice to get started, or you're later in your career and haven't really thought about financial freedom, it's not too late to start! Once you put these systems in place, financial independence will no longer be a lifelong

battle. Ditch the 40-year plan and live the life you want to live. Get started today! **BONUS MATERIAL INCLUDED** I'm also excited to share **FREE** bonus material that highlights "27 Ways I Slashed My Budget By \$1818 Per Month." A link to the free PDF is included in the book! Adhering to the strategies in this book and in the free bonus guide will grow your net worth by thousands in the first year and hundreds of thousands over your lifetime! What are you waiting for?
