The beloved modern classic character, Molly Lou Melon, is tackling the timely topic of speaking up for yourself and others. Molly Lou Melon's

mother taught her to use her big voice for good--to speak up for what's right, for those who can't, and even when it's hard. So she does. When school starts and a bully begins teasing everyone, including a new student, Molly Lou knows just what to do. From standing up for a friend to admitting when you've made a mistake, Molly Lou shows us how speaking up is always the right choice. The beloved classic character has another important message to share, and David Catrow's vibrant and spunky illustrations continue to expand Molly Lou's larger-than-life personality.

The kids in *What I Like About Me*, are as different as night and day. And, guess what?

They love it. Some adore the fact that their braces dazzle and gleam, others feel distinguished when they wear their glasses. This fun-loving book, with a mirror included on the last page, proves to kids that, in a world where fitting in is the norm, being different is what makes us special.

Helping children learn about diversity, while fostering self-esteem, is what this super-sized *Teacher Classroom Pack* is all about.

Teachers can read the rhyming text of the award-winning *What I Like About Me!* and use the oversized book to focus on differences in nationality,

appearance, food, and more. Inviting children to look in the giant mirror will encourage them to think and talk about what they like best about themselves.

A hilarious companion to I Wanna Iguana. Ever since their baby sister came along, Alex has been forced to

share a room with his little brother, Ethan, and it's a nightmare. Ethan always breaks stuff, snores like a walrus, and sticks crayons up his nose. No hardworking, well-behaved, practically grown-up boy like Alex should have to put up with that! Writing letters to his mom convinced her to let him get his pet iguana, so Alex puts pencil to paper again, this time determined to get his own room. Though all of his powers of persuasion can't get his dad to expand the house, he does come through with a fun alternative to give Alex some space of his own.

If you are serious about weight training, you have probably experienced the

"plateau phenomenon." You train harder, you consume extra protein in your diet, but you just don't get the strength and power gains that you want. For the last ten years sports nutrition has focused on what to eat. The latest research from leading sports science labs now shows that when you eat may be even more important. Nutrient Timing adds the missing dimension to sports nutrition, the dimension of time. By timing specific nutrition to your muscle's 24-hour growth cycle, you can activate your body's natural anabolic agents to increase muscle growth and gain greater muscle mass than you ever thought possible. Nutrient Timing is the

biggest advance in sports nutrition in over a decade.

Shoe-la-la! (A StoryPlay Book) Houghton Mifflin Harcourt

In *Breaking the Ocean*, diversity and inclusion specialist Annahid Dashtgard addresses the long-term impacts of exile, immigration, and racism by offering a vulnerable, deeply personal account of her life and work. Annahid Dashtgard was born into a supportive mixed-race family in 1970s Iran. Then came the 1979 Revolution, which ushered in a powerful and orthodox religious regime. Her family was forced to flee their homeland, immigrating to a small town in Alberta, Canada. As a young girl, Dashtgard was bullied, shunned, and ostracized both by her

peers at school and adults in the community. Home offered little respite, with her parents embroiled in their own struggles, exposing the sharp contrasts between her British mother and Persian father. Determined to break free from her past, Dashtgard created a new identity for herself as a driven young woman who found strength through political activism, eventually becoming a leader in the anti-corporate globalization movement of the late 1990s. But her unhealed trauma was re-activated following the 9/11 terrorist attacks. Suffering burnout, Dashtgard checked out of her life

and took the first steps towards personal healing, a journey that continues to this day. *Breaking the Ocean* introduces a unique perspective on how racism and systemic discrimination result in emotional scarring and ongoing PTSD. It is a wake-up call to acknowledge our differences, addressing the universal questions of what it means to belong and ultimately what is required to create change in ourselves and in society.
