Light on Life brings the insight and wisdom of Indian astrology to the Western reader. Jyotish, or Indian astrology, is an ancient and complex method of exploring the nature of time and space and its effect upon the individual. Formerly a closed book to the West, the subject has now been clarified and explained by Hart de Fouw and Dr. Robert Svoboda, two experts and long-term practitioners. In *Light on Life* they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology.

There are reasonable symptoms of the weakening of the church and Christian faith in the USA, and thereby the silent death American democracy and American Empire. The vacuum created in the American mind by the secular humanism, anti-supernatural liberal theology and godless philosophies have prepared the fertile ground for the silent take-over of USA by Islam, Hinduism, Advaita and yoga. New Age religion legitimizes almost anything in the name of religion. There is an explosion of sorcery. The absolutely unwise philosophies like all is one, man is God etc become

widely accepted among the people. New age psychology rejects the supernatural and God of the Bible, but accepts the paranormal miracles of devil. When the people begin to love the lie and hate the truth, the future is bleak. A strong democratic America would guarantee a better world. But what if the whole nation is hypnotized into paranormal and abnormal by secular spiritualities?

In Shadow Yoga, Chaya Yoga, author Shandor Remete shows how to utilize yoga to enhance all aspects of physical and spiritual health. Focusing specifically on the hatha tradition, the book delves deep into original Sanskrit texts, explaining the theoretical foundation of yoga in clear, encouraging language. Remete describes the "shadows" noted by classical yoga teachers that block the student, and shows ways to move beyond them. The book covers the key concepts of traditional yoga—the marmas, chakras, vayus (sources of energy), and nadis (flows of energy through the body)—before turning to the yogic techniques that improve their condition and functioning—asana (poses), nauli (abdominal exercises), pranayama (breathing), mudra (gestures), and laya (absorptions). It closes with illustrated sequences of the most important asanas. Shadow Yoga also discusses various little-understood, oft-neglected aspects of yogic training, such as the role of marma points (acupuncture-like energy points) and the influence of the zodiac. Detailed drawings of the body's energy system and its links to these elemental and planetary forces provide a visual guide to these largely unknown areas of yoga. This knowledge, considered essential in Indian yogic traditions, has been almost entirely lost in modern Western schools of yoga. Author Remete restores that information in this beautifully designed book. From the Trade Paperback edition.

There are large number of books available in the public domain which talks about various remedial methods that could be followed. Also there are groups of people who talk about the benefits of yoga, mantra, yantra and allied topics, each of which has a scientific logic as is the case with the manuscripts left behind by the Rishis. As we all are aware, there are planets which by their interaction, govern our destiny. My belief, developed during the study of this science, is that destiny depends on four major things in equal proportion. These are; our previous karma, the place where we are staying, the people with whom we interact and our own efforts. These are the four parameters and within each comes the important of a large gamut of activities. There is a complex equation that is a matter of study and research which, like any other science, gets deciphered and

known. I therefore believe that chart at the time of birth, coupled with the year's horoscope and the time at which the query is being asked, have to be co-related and a vector from them gives the correct analysis of the query. Similarly, as each planet is associated with a colour and the colours are in turn related to vibrations – a complex phenomenon by itself; the various mantras, colour therapy and other remedies have relevance.

We live in an age of unprecedented flourishing of technology in medicine. So why are we experiencing such epidemic levels of pain, disease, emotional and mental stress, and just plain old poor health--and often at such uncommonly young ages? Searching to answer these questions, we turn to every possible medical specialty and lifestyle cause, looking for clues. After guiding thousands of patients on their journeys back to health, Dr. Linda Lancaster has discovered that it is the interplay of invisible forces such as chemicals, heavy metals, radiation, and opportunistic parasites--the "Five Culprits"--worms, fungus, bacteria, micro-parasites, and viruses, that are the cause of many of the health struggles we experience today. This fundamental dynamic is the origin of most of the symptoms she has seen, including chronic exhaustion, digestive distress, painful joints, infertility, eczema, and mysterious conditions like Lyme Syndrome. If you have experienced any of these symptoms, you know how the physical experience affects your emotional wellbeing. But it doesn't have to be that way. You can begin to take your life back with Harmonic Healing. In this six-week foundational program, you will learn how to cleanse your liver, neutralize environmental pollution, revitalize your energy and return to a balanced state of health, using solely nontoxic, inexpensive, and natural protocols.
