Books

Lift the flaps to discover where different animals make their homes, up high in trees, down deep under the ground, or under the sea in a coral reef. Find out how

animals in the freezing cold Arctic keep themselves warm, and those in scorching deserts stay cool. It's also surprising to learn how many animals live inside your cosy home with you... An interactive yet informative book about where different animals live. With over 80 flaps, children can discover how different animals make, build or seek out their homes. Investigates lots of

different habitats and animal types, including insects such as bees, wasps and ants. Ideal for school studies and fun to dip into for pleasure. Big Book of the Body Knopf Books for Young Readers A fact-packed, illustrated introduction to the human body and how it works. Full of extraordinary photographs plus activities and experiments to try, it explores everything

from allergies to brain waves, from x-rays to zits. Look Inside the World of Bees Igloo Books Take a trip around the world in this fascinating book. Find out what the Earth is made of, who lives in steamy rainforests, how rivers flow into the sea, and much more.

My First Body Book Usborne Books Discover the amazing human body, system by system and layer by layer,

and the incredible things it is capable of with Inside Out Human Body. Comes with a real, 3-D model to help you learn faster! What do you think is the most amazing machine in the universe? A superconductor? The modern computer? A rocket ship? Think again: It's the human body! Astonishingly intricate and complex, your body grows, heals itself, and performs a mind-boggling

number of complex functions all at the same time! Inside Out: Human Body takes you on an incredible journey through the powerful muscular system, the "bone zone," the long and windy road of the digestive system, the blood-pumping circulatory system, the forty-seven-mile long nervous system, and beyond! A unique layered model of the human body serves

as the center point of each section, revealing key body parts and functions, while entertaining and informative text explains how the body works. Each section is fully illustrated with colorful diagrams and includes fun, interactive lessons for you to try yourself. You can learn how to take your own pulse, how to make your arms float, and even what the color of your urine means! Sometimes

the most incredible wonders are right under our noses. **Look Inside a Castle** Usborne Books Lift the flaps of this book and discover what grown-ups do, whether they work by day or night, outdoors or indoors, up high or even under the ground. This fascinating introduction to over 100 jobs, from nurses, to musicians and arborists, opens up a world of possibilities. Flaps on every

page reveal what happens behind the scenes, whether at the fire station or a busy restaurant kitchen. Gives children a sense of the rich array of jobs out there, while focusing on the things that most jobs have in common - teamwork, communication and helping people. A fabulous addition to the popular Look Inside series. [Look Inside Science](#) Usborne Books An inspiring book that

explores the wonders of nature, with gorgeous illustrations and ingenious flaps. Look up in the trees, behind the reeds or under the ground to see what's living there, and discover how plants grow and make seeds. Full of surprises and beautifully designed flaps to keep enquiring minds entertained. Over 50 flaps of different sizes and shapes to open and one big gatefold. Young readers

can discover amazing facts about birds, insects, mammals and reptiles, how they hunt, fight and build homes, where they live and how they care for their young.
