Fired Up with Raku Quarry Books

This compact reference explains the basic terms, processes, classifications, tools, materials and techniques of Japanese potters. Everyone interested in pottery and crafts will find this practical guide a valuable addition to both bookshelf and workshop. Penny Simpson, an English potter living in Japan, and Kanji Sodeoka, her Japanese colleague, have compiled a step-by-step manual of the way pots are made in Japan, their forms, and their decorations. The authors give a thorough account of both traditional and modern techniques and also describe in detail tools,

Everything You Need to Get Started with Pottery If you ever daydream about delving into pottery but aren't sure where to begin, this is your book. Professional potter Kara Leigh Ford will be your personal pottery guide, helping you to overcome any doubts about your abilities. All you need are curiosity and a few simple tools to mold stunning stoneware with confidence. Inspiring projects and primers on equipment, technique, clay types and setting up a workspace make pottery approachable for complete newcomers, as well as budding potters who want to hone their skills. Plus, gorgeous photos from Kara's studio offer visual guidance every step of the way. Enter the wonderful world of ceramics with hand building, the meditative method behind your next mug, spoon set or soap dish. When you're ready for the wheel, easy-to-follow instructions cover the foundations of throwing bowls, plates, vases and other beginner-friendly kitchenware like a pro.

Each stand-alone piece builds upon a skill introduced in the previous project: Craft all ten and you've learned pottery's fundamentals! Tutorials on glazing and decorative techniques will help you discover your own unique style and understand the basics of the firing process—whether in your own kiln or at a community studio—ensuring beautifully finished pieces. Kara's can-do approach brings handmade ceramic creations fully within reach. Whether you want to make charming home décor or thoughtful gifts for loved ones, you'll find all you need to embark on your pottery journey.

The Electric Kiln Vieweg+teubner Verlag

This book covers techniques of firing and finishing at low temperature without using glazes. Many ancient cultures and contemporary potters use methods of low firing, adding slips and burnishing pieces to create a more natural finish. The advantages are that it can be done without a kiln using old dustbins, pits dug out of the earth, or bonfires, meaning that providing you have outdoor space, it can be done on a low budget. This book is a step-by-step practical approach and beginner's guide, which focuses on how to do low firing and natural finishes, with many

The Kiln Book Landauer (IL)

Backyard Kilns is a fully illustrated E-Book on Kiln Building. The *Backyard Kiln*, based on the brick kiln, has been tested in several locations, and has proved very efficient indeed, reaching very high temperatures, and capable of being fired both quickly and very slowly, and leaving a virtually ash-free firebox at the end! For the potter who likes to plough his or her own furrow, and who, although welcoming help from friends with firings, prefers not to have to rely on a team in order to get their work finished.

Alternative Kilns University of Pennsylvania Press

Learn the key techniques, tips, and tricks for pit, barrel, raku, and wood firing. Fall in love with flames, wood, and the effect that unique firing methods have on pottery. Move beyond the electric kiln and explore the dramatic surfaces of raku, the flashes of salt firing, and the rustic look of ash rivulets. In this book, Lindsay Oesterritter provides a crash course in the most accessible methods of alternative firing. Raku firing requires minimal equipment and can easily be fueled with a standard propane tank. Likewise, pit and barrel firing do not require much in the way of initial investment. Yet all these techniques provide an immediate glimpse into the magic of firing. Bright reds and blues, dramatic black and white crackle, even metallic luster are instantly possible. For more experienced potters and studios looking to offer more, Oesterritter also explores wood-fired kilns. Drawing on years of experience and extensive interviews with fellow wood-fire potters, there is no comparable resource on the market. Features on top potters working today get to the heart of specialty techniques and asides show firing variations and traditional kilns in different cultures around the world. A gallery of showstopping work from a diverse group of artists round out the package and inspire you to get started.
