Stanton Marlan brings together writings which span the course of his career, examining Jungian psychology and the alchemical imagination as an opening to the mysteries of psyche and soul. Several chapters describe a telos that aims at the mysterious goal of the Philosophers' Stone, a move replete with classical and postmodern ideas catalysed by prompts from the unconscious: dreams, images, fantasies, and paradoxical conundrums. Psyche and matter are seen with regards to soul, light and darkness in terms of illumination, and order and chaos as linked in the image of chaosmos. Marlan explores the richness of the alchemical ideas of Carl Jung, James Hillman, and others and their value for a revisioning of psychology. In doing so, this volume challenges any tendency to literalism and essentialism, and contributes to an integration between Jung's classical vision of a psychology of alchemy and Hillman's Alchemical Psychology. C.G. Jung and the Alchemical Imagination will be a valuable resource for academics, scholars, and students of Jungian and post-Jungian studies, Jungian analysis, and psychotherapy. It will also be of great interest to Jungian psychologists and Jungian analysts in practice and in training.

JAMES HILLMAN UNIFORM EDITION Shambhala Publications

Two groundbreaking essays, "The Thought of the Heart" and "Anima Mundi: The Return of the Soul to the World", by James Hillman that launched Archetypal Psychology and began the renaissance of a psychology that returns psychic reality to the world. Following Marsilio Ficino who was the first to place the soul in the center of his vision, Hillman argues for a psychology that reflects the world it works in.

Mythical Figures Nicolas-Hays, Inc.

Inhuman Relations, Vol. 7 of the Uniform Edition of the Writings of James Hillman, contains what could be described as Hillman's more "clinical" writings. Hillman chose the title, Inhuman Relations, to emphasize the archetypal forces that shape our human interactions -- the myths behind our messes, as he says in this volume. With this volume, Hillman decided to return to his groundbreaking book on soul-making, Re-Visioning Psychology, and organize most of essays under that book's original operative headings: Personifying or Imagining Things, Pathologizing or Falling Apart, Dehumanizing or Soul-Making, and Psychologizing or Seeing Through. The 24 essays in this volume illustrate these operations and allow the reader not only to appreciate their wide-ranging content, but also to become aware of their experiential influence. As Scott Becker writes in his introductory essay: "We can say that Hillman was not only trying to make a point, he was trying to be useful. Because of Hillman's frequently martial style and his plutonic deconstruction of his subject matter, some critics have understandably tended to overlook the fact that he was, by training and temperament, a psychotherapist, and that his therapeutic intent continued long after he left the world of psychoanalysis proper. His passion was in the service of compassion. That he accomplished this by holding up a mirror to our follies does not detract from his therapeutic intent. Quite the contrary, our disillusionment and discomfort were the required first steps to letting go of our destructive ideas, a necessary nigredo phase as we descended, fell apart, went bugs. We had to lose our minds to find them."

Animal Presences Spring Publications

Since the 1980s James Hillman, the best-selling author and founder of Archetypal Psychology has written and lectured extensively on the presence of animals in our conscious and unconscious lives. Volume 9 of the Uniform Edition of the Writings of James Hillman unites, for the first time, his papers and lectures on the subjects of animals, including "Animal Kingdom in the Human Dream" (1982), "Dream Animals" (1997), "Culture and the Animal Soul" (1994/1997), and "Learning from Animals" (1999). *Jungian Psychology and the Passions of Soul* Princeton University Press

Explores the life and work of psychoanalyst Sabina Spielrein

through a feminist and mytho-poetic lens. Long stigmatized as Carl Jung's hysterical mistress, Sabina Spielrein (1885-1942) was in fact a key figure in the history of psychoanalytic thought. Born into a Russian Jewish family, she was institutionalized at nineteen in Zurich and became Jung's patient. Spielrein went on to earn a doctorate in psychiatry, practiced for over thirty years, and published numerous papers, until her untimely death in the Holocaust. She developed innovative theories of female sexuality, child development, mythic archetypes in the human unconscious, and the death instinct. In Sabina Spielrein, Angela M. Sells examines Spielrein's life and work from a feminist and mytho-poetic perspective. Drawing on newly translated diaries, papers, and correspondence with Jung and Sigmund Freud, Sells challenges the suppression of Spielrein's ideas and shows her to be a significant thinker in her own right. "This book is a major, perhaps a definitive, contribution to the literature. Angela Sells documents both the demonization of a great psychoanalytic theorist—mainly because she was a woman and worse still, was once Carl Jung's patient. The book's greatest strength is its power to enlighten and inform and in so doing, to arouse indignation and amazement at Spielrein's brilliance and tenacity." — Phyllis Chesler, author of *Women and Madness* "This is a pathbreaking piece of research that not only begins to rehabilitate the reputation of a woman patient of Jung's, but also suggests that Spielrein was an important contributor in her own right to the beginnings of psychoanalysis." — Carol P. Christ, coauthor of *Goddess and God in the World: Conversations in Embodied Theology*

Human Motor Control is a elementary introduction to the field of motor control, stressing psychological, physiological, and computational approaches. Human Motor Control cuts across all disciplines which are defined with respect to movement: physical education, dance, physical therapy, robotics, and so on. The book is organized around major activity areas. A comprehensive presentation of the major problems and topics in human motor control Incorporates applications of work that lie outside traditional sports or physical education teaching *City and Soul* Open Court Publishing Company Alchemical symbols are part of popular culture, most recently popularised in the Harry Potter books. Alchemy intrigued Carl Jung, the founder of analytical psychology. It inspired him as he wrote 'the Red Book' - the journal of his voyage of internal discovery. He devoted much of his life to it, using alchemical symbols as metaphors for unconscious processes. Alchemy and Psychotherapy explores the issue of alchemy in the consulting room and its application to social and political issues. This book

argues against the dominant discourse in contemporary psychotherapy - scientific materialism - and for the discovery of spiritual meaning. *Alchemy and Psychotherapy* has four main sections: 'Alchemy and meaning' - looks at the history of alchemy, particularly the symbol of the coniunctio - sacred marriage - a metaphor for the therapeutic relationship. 'The symbolic attitude' - explores working with dreams, fairytales, astrology and the body: each of which is a symbolic language. 'The spirit and the natural world' - discusses the concept of 'burn out' - of therapists, our ecological resources, the mystical aspects of quantum physics and the philosophical underpinning of symbol formation. 'Clinical Applications' - shows alchemy's use with victims of abuse, those struggling to secure gender identity, in anorexia and in 'social healing' - atonement and restorative justice - which apply the idea of the coniunctio. *Alchemy and Psychotherapy* is illustrated throughout with clinical examples, alchemical pictures and poetry which emphasise that alchemy is both a creative art and a science. Bringing together contributors from a wide range of disciplines, Dale Mathers and contributors show that therapy is both art and science, that the consulting room is the alchemical laboratory, and that their research is their creative engagement. *Alchemy and Psychotherapy* will be a valuable resource for practitioners, students at all levels of psychotherapy, analytical psychology, psychoanalysis and creative, art-based therapies and for creative practitioners (in film, literature and performing arts) who draw on Jung's ideas. *Alchemical Image of Individuation : Lectures* Routledge

Extracted from Volumes 6, 7, 9, Parts I and II, 10 and 17. This collection offers a range of articles and extracts from Jung's writings on marriage, Eros, the mother, the maiden, and the anima/anima concept. In the absence of any single formal statement by Jung on the psychology of women, this work conveys his views on the feminine and on topics that are intrinsic or related.

Unlike many books on painting that usually talk about art or painters, James Elkins' compelling and original work focuses on alchemy, for like the alchemist, the painter seeks to transform and be transformed by the medium. In *What Painting Is*, James Elkins communicates the experience of painting beyond the traditional vocabulary of art history. Alchemy provides a magical language to explore what it is a painter really does in her or his studio - the smells, the mess, the struggle to control the uncontrollable, the special knowledge only painters hold of how colours will mix, and how they will look. Written from the perspective of a painter-turned-art historian, *What Painting Is* is like nothing you have ever read about art.

Psyche and the Mercurial Play of Image and Idea Routledge
"Edinger has greatly enriched my understanding of psychology through the avenue of alchemy. No other contribution has been as helpful as this for revealing, in a word, the anatomy of the psyche and how it applies to where one is in his or her process. This is a significant amplification and extension of Jung's work. Two hundred years from now, it will still be a useful handbook and an inspiring aid to those who care about individuation." --

Tracking the Wild Woman Archetype Chiron Publications

Moving Jungian psychology from types to images, to an image-based archetypal psychology, is James Hillman's concern in this volume. This volume leads from Hillman's principal essay on typology, "Egalitarian Typologies versus the Perception of the Unique," to his expansive "Inquiry into Image." Hillman instigates an active re-visioning, re-imagining, of psychology as a self-generative activity of the soul: "An image is given by the imagining perspective and can only be perceived by an act of imagining."

Archetypal Psychology Spring Publications

Jung and the Alchemical Imagination illustrates the spiritual nature of Jungian psychology and the debt it owes to the tradition

of esoteric religion. Unlike other books on Jung and alchemy which contain a psychological interpretation of alchemical material, this work uses alchemy to understand the three cornerstones of Jungian spirituality--the self, the transcendent function, and active imagination. Through the interpretation of alchemical imagery, Raff explains the nature of these three concepts and illustrates how together they form a new model of contemporary Western spirituality. This book is also unique in selecting alchemical texts for analysis that are relatively unknown and which, for the most part, have never been interpreted. In addition, he presents two new concepts--the ally and the psychoid realm. Through the addition of these ideas, and the new understanding that they offer, it is possible to apply alchemical imagery to transpsychic experience/ that is, to a world of spirits which may not be reduced to psychological concepts. By including this realm in the study of alchemy and Jungian thought, it is possible to gain insights into the nature of visionary and ecstatic experiences that form part of the path of individuation--the road to completion.

Aspects of the Feminine Elsevier

Dionysos, one of the most misunderstood of the gods, is a masculine energy that brings us back to life and vitality in a way that includes deep partnership with the feminine. Through the exploration of the love story of Ariadne and Dionysos, *Alchemy of the Heart* takes us on an archetypal adventure into an ancient world where the dance of masculine and feminine ignites fullness of being in both men and women. From the shadowy labyrinth of Minos to the sacred Initiation Chamber at Pompeii, *Alchemy of the Heart* travels the landscape of both the outer world and the inner psyche as it points the way past contemporary hedonism and pornography addiction into a Dionysian world of joy, vibrant sexuality, and spiritual transcendence. "A solid and important work of scholarship that is a must-read for those doing depth psychological work. Aguilar mines the myth of Dionysos and Ariadne for its insights into expanding Jungian notions about the animus and a woman's journey to wholeness. In the process, she updates Jungian thought to match emerging ways of seeing gender, the feminine, and the masculine in our time." —Carol S. Pearson, Ph.D., Author of *Persephone Rising*, *The Hero Within* and *Awakening the Heroes Within*. Former President of Pacifica Graduate Institute. "Joseph Campbell showed us the mythic mysteries, now Marina Aguilar unlocks the secrets of ecstatic teachings. *Alchemy of the Heart* is a breakthrough work on our divine connection to nature and the playful wisdom of the body." —Jonathan Young, Ph.D., Psychologist, Founding Curator, Joseph Campbell Archives. "A superb study of the myth of Dionysos through the lens of Jung's spiritual alchemy. Focusing on the sacred marriage of Dionysos and Ariadne, the author illuminates the journey to wholeness, both horizontal and vertical, revealing a power to heal not only a broken psyche but a broken world. Aguilar's 'meditative exegesis' on the Dionysian initiation chamber in the Villa of Mysteries at Pompeii is a model of transcendence at the heart of Plato's noetic philosophy. This is a penetrating reading bringing to life an ancient, yet timeless, myth." —Michael P. Morrissey, Ph.D., Author of *Consciousness and Transcendence: The Theology of Eric Voegelin*. Marina Aguilar received her master's degree in Counseling Psychology at Pacifica Graduate Institute, Santa Barbara, and has been a practicing depth psychotherapist and educator since 1990. She specializes in individuation as a spiritual, as well as soul process. Her expertise in mythology, comparative religion, spiritual alchemy and the ancient mystery school teachings serves as a valuable tool in working with archetypal themes as they emerge in day to day life, imagination, art and dreams. Having lived in the United States, Mexico and Europe, her work bridges cultures, continents and spiritual modalities and focuses on increasing consciousness and wholeness within the individual and society as a whole. *An Introduction to the Symbolism and the Psychology* Routledge Also available in an open-access, full-text edition at

<http://oaktrust.library.tamu.edu/handle/1969.1/86080> The black sun, an ages-old image of the darkness in individual lives and in life itself, has not been treated hospitably in the modern world. Modern psychology has seen darkness primarily as a negative force, something to move through and beyond, but it actually has an intrinsic importance to the human psyche. In this book, Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun and the meaning of darkness in Western culture. In the image of the black sun, Marlan finds the hint of a darkness that shines. He draws upon his clinical experiences—and on a wide range of literature and art, including Goethe's *Faust*, Dante's *Inferno*, the black art of Rothko and Reinhardt—to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary practice of analysis. He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime, resonating with the mystical experience of negative theology, the Kabbalah, the Buddhist notions of the void, and the black light of the Sufi Mystics. An important contribution to the understanding of alchemical psychology, this book draws on a postmodern sensibility to develop an original understanding of the black sun. It offers insight into modernity, the act of imagination, and the work of analysis in understanding depression, trauma, and transformation of the soul. Marlan's original reflections help us to explore the unknown darkness conventionally called the Self. Post-Jungian Perspectives Spring Publications

This book offers a collection of many new ideas: connection with the psychoid processes of the unconscious is a source of healing, especially in relation to trauma; fresh interpretation of the bedeviling flashbacks of trauma; addition of an alternative interpenetrating matrix to the container model of healing; sum of the insights of Nicholas of Cusa and their implications for Jung's complex around freedom and relation to the Divine.

Considered one of Jung's most controversial works, *Answer to Job* also stands as Jung's most extensive commentary on a biblical text. Here, he confronts the story of the man who challenged God, the man who experienced hell on earth and still did not reject his faith. Job's journey parallels Jung's own experience—as reported in *The Red Book: Liber Novus*--of descending into the depths of his own unconscious, confronting and reconciling the rejected aspects of his soul. This paperback edition of Jung's classic work includes a new foreword by Sonu Shamdasani, Philemon Professor of Jung History at University College London. Described by Shamdasani as "the theology behind *The Red Book*," *Answer to Job* examines the symbolic role that theological concepts play in an individual's psychic life.
