**Mathematical Proofs: A Transition to Advanced Mathematics** Mathematical Proofs A Transition To  
Mathematical Proofs: A Transition to Advanced Mathematics, 4th Edition introduces students to proof techniques, analyzing proofs, and writing proofs of their own that are not only mathematically correct but clearly written. Written in a student-friendly manner, it provides a solid introduction to such topics as relations, functions, and cardinalities of sets, as well as optional excursions into fields such as number theory, combinatorics, and calculus. Mathematical Proofs: A Transition to Advanced Mathematics ...

proofs. A passing grade in this course indicates that a student should be able to read and write mathematics at a level necessary for more advanced courses in mathemat-ics. In addition to various proof-writing strategies, we will also discuss the basics of logic, set theory, number theory and real analysis. You are expected to learn this  
Mathematical Proofs: A Transition to Lectures: TuTh 11:00am - 12:15pm My Office: Boyd 502 Office Hours: TuTh 2:00pm - 3:00pm, and by appointment Course text: Mathematical Proofs: A Transition to Advanced Mathematics by Gary Chartrand, Albert D. Polimeni and Ping Zhang, 2nd edition. The text is required, for instance because most of the homework problems will be assigned out of it. Mathematical Proofs: A Transition to Advanced Mathematics  
Mathematical Proofs: A Transition to Advanced Mathematics. As such, it is an introduction to the mathematics enterprise, providing solid introductions to relations, functions, and cardinalities of sets. KEY TOPICS: Communicating Mathematics, Sets, Logic, Direct Proof and Proof by Contrapositive, More on Direct Proof and Proof by Contrapositive, ...
