"From the earliest days of thinking man, people the world over have pondered the nature of the Universe, our planet, and of ourselves. What does it all mean? Why am I here? What is the real purpose of my life? What will happen to me after I die? Will I return once again for another life on Earth?" So starts the first paragraph of this book, summarising and encapsulating very succinctly both the reason I was inspired to write *Our Ultimate Reality* and a concise summary of the contents contained therein. As we approach the end of a great age for humanity, increasingly more people from all walks of what we know as "life" are asking what it all means for them, for their families and for their future existence on this planet we call "Earth." *Our Ultimate Reality, Life, the Universe and Destiny of Mankind* is your complete reference and guide for realising the Divine heritage of each and every one of us as equal aspects of our Creator, a life of perfect happiness, health, abundance, fulfilment and Spiritual evolution. This book has been written in a modern, understandable, non-mystical way, setting out in a concise, logical, easy to follow format, all you need to know in order to understand, pursue and realise your own true potential during this pivotally important era. I wish you every possible success as you follow your own true destiny on the path of return to our Divine Creator from Whom we came in the beginning, and wish that this book will prove to be your valuable guide and companion.

From the trailblazing founder and CEO of the Virgin Group, a powerful argument for using business to make a positive impact in the world. Richard Branson, one of the world's most famous and admired business leaders, argues that it's time to turn capitalism upside down—to shift our values from

an exclusive focus on profit to also caring for people, communities and the planet. As he writes, “My message is a simple one: business as usual isn’t working. In fact, it’s ‘business as usual’ that’s wrecking our planet. Resources are being used up; the air, the sea, the land—are all heavily polluted. The poor are getting poorer. Many are dying of starvation or because they can’t afford a dollar a day for life-saving medicine. . . . Prophecy doom and gloom is simply not my style. . . . I think business can help fix things and create a more prosperous world for everyone. I happen to believe in business because I believe that business can be a force for good. By that I mean doing good is good for business.” *Screw Business as Usual* shows how easy it is for both businesses and individuals to embark on a whole new way of doing things, solving major problems and turning our work into something we both love and are proud of.

Throughout my life I have achieved many remarkable things. In *Screw It, Let's Do It*, I will share with you my ideas and the secrets of my success, but not simply because I hope they'll help you achieve your individual goals. Today we are increasingly aware of the effects of our actions on the environment, and I strongly believe that we each have a responsibility, as individuals and organisations, to do no harm. I will draw on Gaia Capitalism to explain why we need to take stock of how we may be damaging the environment, and why it is up to big companies like Virgin to lead the way in a more holistic approach to business. In *Screw It, Let's Do It* I'll be looking forwards to the future. A lot has changed since I founded Virgin in 1968, and I'll explain how I intend to take my business and my ideas to the next level and the new and exciting areas - such as launching Virgin Fuels - into which Virgin is currently moving. But I have also brought together all the important lessons, good advice and inspirational adages that have helped me along the road to success. Ironically, I have never been one to do things by the book, but I have been inspired and influenced by many remarkable people. I hope that you too might find a little inspiration between these pages.

Losing My Virginity and Other Dumb Ideas Longman

The small business guru behind Duct Tape Marketing shares his most valuable lesson: how to get your customers to do your best marketing for you.

The power of glitzy advertising and elaborate marketing campaigns is on the wane; word- of-mouth referrals are what drive business today. People trust the recommendation of a friend, family member, colleague, or even stranger with similar tastes over anything thrust at them by a faceless company. Most business owners believe that whether customers refer them is entirely out of their hands. But science shows that people can't help recommending products and services to their friends-it's an instinct wired deep in the brain. And smart businesses can tap into that hardwired desire. Marketing expert John Jantsch offers practical techniques for harnessing the power of referrals to ensure a steady flow of new customers. Keep those customers happy, and they will refer your business to even more customers. Some of Jantsch's strategies include: -Talk with your customers, not at them. Thanks to social networking sites, companies of any size have the opportunity to engage with their customers on their home turf as never before-but the key is listening. -The sales team is the most important part of your marketing team. Salespeople are the company's main link to customers, who are the main source of referrals. Getting them on board with your referral strategy is critical. -Educate your customers. Referrals are only helpful if they're given to the right people. Educate your customers about whom they should be talking to. The secret to generating referrals lies in understanding the "Customer Referral Cycle"-the way customers refer others to your company who, in turn, generate even more referrals. Businesses can ensure a healthy referral cycle by moving customers and prospects along the path of Know, Like, Trust, Try, Buy, Repeat, and Refer. If everyone in an organization keeps this sequence in mind, Jantsch argues, your business will generate referrals like a well-oiled machine. This practical, smart, and original guide is essential reading for any company looking to grow without a fat marketing budget.

The Power of Many AuthorHouse

In this beautifully written and propulsive memoir, Huma Abedin—Hillary Clinton’s famously private top aide and longtime adviser—emerges from the wings of American political history to take command of her own story. The daughter of Indian and Pakistani intellectuals and advocates who split their time between Saudi Arabia, the UK, and the United States, Abedin grew up in many worlds. Both/And grapples with family, legacy, identity, faith, marriage, and motherhood with wisdom and sophistication. Abedin launched full steam into a college internship in the office of the first lady in 1996, never imagining that her work at the White House would blossom into a career in public service, nor that the career would become an all-consuming

way of life. Still in her twenties and thirties, she thrived in rooms with diplomats and sovereigns, entrepreneurs and artists, philanthropists and activists, and witnessed many crucial moments in 21st-century American history—Camp David for urgent efforts at Middle East peace in the waning months of the Clinton administration, Ground Zero in the days after the 9/11 attacks, the inauguration of the first African American president of the United States, the convention floor when America nominated its first female presidential candidate. Abedin’s relationship with Clinton has seen both women through extraordinary personal and professional highs, as well as unimaginable lows. Here, for the first time, is a deeply personal account of Hillary Clinton as mentor, confidante, and role model. Abedin cuts through caricature, rumor, and misinformation to reveal a crystal-clear portrait of Clinton as a brilliant and caring leader a steadfast friend, generous, funny, hardworking, and dedicated. Both/And is a candid and heartbreaking chronicle of Abedin’s marriage to Anthony Weiner, what drew her to him, how much she wanted to believe in him, the devastation wrought by his betrayals—and their shared love for their son. It is also a timeless story of a young woman with aspirations and ideals coming into her own in high-pressure jobs, and a testament to the potential for women in leadership to blaze a path forward while supporting those who follow in their footsteps. Both/And describes Abedin’s journey through the opportunities and obstacles, the trials and triumphs, of a full and complex life. Abedin’s compassion and courage, her resilience and grace, her work ethic and mission are an inspiration to people of all ages. “This journey has led me through exhilarating milestones and devastating setbacks,” said Abedin. “I have walked both with great pride and in overwhelming shame. It is a life I am—more than anything—enormously grateful for and a story I look forward to sharing.”

'Timely and important' THE TIMES 'Considered and nuanced ... A must-read' The Rt Hon. Sajid Javid MP 'Compelling and moving' Tom Holland, author of *Dominion* _____ Islam is the fastest-growing faith community in Britain. Domes and minarets are redefining the skylines of towns and cities as mosques become an increasingly prominent feature. Yet while Britain has prided itself on being a global home of cosmopolitanism and modern civilisation, its deep-rooted relationship with Islam - unique in history - is complex, threatened by rising hostility and hatred, intolerance and ignorance. There is much media debate about embracing diversity in our communities, but what does integration look like on the ground, in places like Dewsbury, Glasgow, Belfast and London? How are Muslims, young and old, reconciling progressive values - of gender equality, individualism, the rule of law and free speech - with literalist interpretations of their faith? And how is this tension, away from the public gaze, unfolding inside mosques today? Ed Husain takes his search for answers into the heart of Britain's Muslim communities. Travelling the length and breadth of the country, Husain joins men and women in their prayers, conversations, meals, plans, pains, joys, triumphs and adversities. He tells their stories here in an open and honest account that brings the daily reality of British Muslim life sharply into focus - a struggle of identity and belonging, caught between tradition and modernity, East and West, revelation and reason.

The fall of the Berlin Wall and the collapse of the former Soviet Union forced America's armed forces to redefine themselves and codify their role as a key element of national power. New threats and emerging technologies changed the very character of war and demanded new strategies and an adaptable military to address them. Jason Q. Bohm began his service to our nation as a Marine at the start of this tumultuous era. He takes the reader on a journey from the turbulent times at the end of the Cold War through the current fight against the self-proclaimed Islamic State in Iraq and the Levant (ISIL). Bohm provides candid and useful historical background as, through a series of personal vignettes and rich operational experience, he describes how Marines translated strategic and operational objectives into tactical actions. In this unique way, he not only tells his story but that of the Marine Corps, and provides an invaluable look at the challenging times confronting Marines.

At 30, Duncan Bannatyne had no money and was enjoying life on the beaches of Jersey. He saw a story of someone who had made himself a millionaire, and decided to do the same. Five years later he had done it, and now he is worth £168 million. In this remarkable book, Bannatyne relives his colourful path to riches, from ice cream salesman to multi-millionaire, explaining how anyone could take the same route as he did - if they really want to. Hugely articulate, and with numerous fascinating and revealing stories to tell, this is an autobiography and a business book unlike any other - but then Bannatyne isn't like any other businessman, either.

Reach for the Skies Random House

The unusual, frequently outrageous autobiography of one of the great business geniuses of our time, Richard Branson. In little more than twenty-five years, Richard Branson spawned nearly a hundred successful ventures. From the airline business (Virgin Atlantic Airways), to music (Virgin Records and V2), to cola (Virgin Cola), and others ranging from financial services to bridal wear, Branson has a track record second to none. Many of his companies were started in the face of entrenched competition. The experts said, "Don't do it." But Branson found golden opportunities in markets in which customers have been ripped off or underserved, where confusion reigns, and the competition is complacent. In this stressed-out, overworked

age, Richard Branson gives us a new model: a dynamic, hardworking, successful entrepreneur who lives life to the fullest. Branson has written his own "rules" for success, creating a group of companies with a global presence, but no central headquarters, no management hierarchy, and minimal bureaucracy. Family, friends, fun, and adventure are equally important as business in his life. *Losing My Virginity* is a portrait of a productive, sane, balanced life, filled with rich and colorful stories, including: - Crash-landing his hot-air balloon in the Algerian desert, yet remaining determined to have another go at being the first to circle the globe - Signing the Sex Pistols, Janet Jackson, the Rolling Stones, Boy George, and Phil Collins - Fighting back when British Airways took on Virgin Atlantic and successfully suing this pillar of the British business establishment - Swimming two miles to safety during a violent storm off the coast of Mexico - Staging a rescue flight into Baghdad before the start of the Gulf War And much more. *Losing My Virginity* is the ultimate tale of personal and business survival from a man who combines the business prowess of Bill Gates and the promotional instincts of P. T. Barnum.
