From the moment Homo Sapiens descended from the trees, possibly onto their heads, humanity has striven towards civilization. Fire. The Wheel. Running Away from furry things with more teeth than one might reasonably expect—all are testament to man's ultimate supremacy. It is a noble story and so, of course, complete and utter fiction. For one man has discovered

the hideous truth: that humanity's ascent to civilization has been ruthlessly guided by a small gang of devious frogs. The man's name is David Perkins, and his theory is not, on the whole, widely admired, particularly not by the frogs themselves, who had invested a great deal of time and effort in keeping the whole thing quiet.

The “magisterial” (The New York Times Book Review) second volume of Sidney Blumenthal’s acclaimed, landmark biography, *The Political Life of Abraham Lincoln*, reveals the future president’s genius during the most decisive period of his political life when he seizes the moment, finds his voice, and helps create a new political party. In 1849, Abraham Lincoln seems condemned to political isolation and defeat. His Whig Party is broken in the 1852 election, and disintegrates. His perennial rival, Stephen Douglas, forges an alliance with the Southern

senators and Secretary of War Jefferson Davis. Violent struggle breaks out on the plains of Kansas, a prelude to the Civil War. Lincoln rises to the occasion. Only he can take on Douglas in Illinois. He finally delivers the dramatic speech that leaves observers stunned. In 1855, he makes a race for the Senate against Douglas, which he loses when he throws his support to a rival to prevent the election of a proslavery candidate. In *Wrestling With His Angel*, Sidney Blumenthal explains how Lincoln and his friends operate behind the scenes to destroy the anti-immigrant party in Illinois to clear the way for a new Republican Party. Lincoln takes command and writes its first platform and vaults onto the national stage as the leader of a party that will launch him to the presidency. The *Washington Monthly* hailed Blumenthal’s Volume I as, “splendid...no one can come away from reading *A Self-Made Man* without eagerly anticipating the ensuing volumes.” Pulitzer Prize-winning author Diane McWhorter hailed Volume II as “dramatic narrative history, prophetic and intimate.” *Wrestling With His Angel* brings Lincoln from the wilderness to the peak of his career as he is determined to enter into the battle for the nation’s soul and to win it for democracy.

Holt's Almanac revolves around a clever and knowledgeable protagonist, Holt Dooley, and his encounters of actual folklore creatures that have been recorded around the United States. His journey starts as a criminal and ends in a peculiar fashion, making one want to re-read and catch all of the hidden details. These details were meticulously placed over a period of 5 years of historical and scientific research, which helped to accurately accelerate the interactions of Holt and his gang through many of the American ecosystems, cultures, and legends. This story might appeal to fans of C.S. Lewis, as well as adventurers, and maybe even those who find themselves asking about the meaning of life. After reading Holt's Almanac, one will gain a wealth of unusable facts, find themselves smiling over the quirky humor, and ask questions about other dimensions and the human subconscious. It is altogether possible that one might become healthy, wealthy, and wise after reading this book, although maybe not a direct
