of the nineteenth and twentieth century Wests. Her gendered remapping of the regional landscape explodes traditional notions of western movement. All students of women and gender, travel and place, the West and America, would do well to read this excellent book."—David M. Wrobel, author of *Promised Lands: Promotion, Memory, and the Creation of the*

American West "Virginia Scharff claims for women what has long been central to the masculine mythology of the West—free movement and its many gifts, real and imagined. Her book is as exhilarating and as intellectually and emotionally expansive as our enduring dream of flight across the American land."—Elliott West, author of *The Contested Plains: Indians,*

Goldseekers, & the Rush to Colorado
 "Brilliant is not a word that is often a part of my critical vocabulary, but brilliantly is how Twenty Thousand Roads begins. When writing of Sacagawea and Susan Magoffin, Virginia Scharff shows vividly how a single life can be a source of sophisticated cultural analysis without becoming an academic artifact or an object of condescension."—Richard White, author

Death of a Salesman
 Heinle & Heinle Publishers
 Award-winning author Linda Williams Jackson pulls from her own childhood in the Mississippi Delta to tell the story of Ellis Earl, who dreams of a real house, food enough for the whole family--and to be someone. It's 1967, and eleven-year-old Ellis Earl Brown has big

dreams. He's going to grow up to be a teacher or a lawyer--or maybe both--and live in a big brick house in town. There'll always be enough food in the icebox, and his mama won't have to run herself ragged looking for work as a maid in order to support Ellis Earl and his eight siblings and niece, Vera. So Ellis Earl applies himself at school, soaking up the lessons that Mr. Foster

teaches his class-- particularly those about famous colored people like Mr. Thurgood Marshall and Miss Marian Wright--and borrowing books from his teacher's bookshelf. When Mr. Foster presents him with a copy of Charlie and the Chocolate Factory, Ellis Earl is amazed to encounter a family that's even worse off than his own-- and is delighted by the Buckets' very happy ending. But

when Mama tells Ellis Earl that he might need to quit school to help support the family, he wonders if happy endings are only possible in storybooks. Around the historical touchstone of Robert Kennedy's southern "poverty tour," Linda Williams Jackson pulls from her own childhood in the Mississippi Delta to tell a detail-rich and poignant story with memorable characters, sure to

resonate with readers who have ever felt constricted by their circumstances .

The Aloha Spirit

Houghton Mifflin Harcourt
The spirit of aloha is found in Hawaii's fresh ocean air, the flowers, the trade winds . . . the natural beauty that smooths the struggles of daily life. In 1922 Honolulu,

unhappy in the adoptive family that's raised her, Dolores begins to search for that spirit early on—and she begins by running away at sixteen to live with her newlywed friend Maria. Trying to find her own love, Dolores marries a young Portuguese man named Manolo. His large family embraces her, but when his drinking leads to physical abuse, only his relative Alberto comes to her

rescue—and sparks a passion within Dolores that she hasn't known before. Staunch Catholics can't divorce, however; so, after the Pearl Harbor attack, Dolores flees with her two daughters to California, only to be followed by both Manolo and Alberto. In California, Manolo's drinking problems continue—and Alberto's begin. Outraged that yet another man in her life is turning to the bottle for

answers, Dolores starts to doubt her feelings for Alberto. Is he only going to disappoint her, as Manolo has? Or is Alberto the embodiment of the aloha spirit she's been seeking?

The Oxford History of English Cambridge University Press Text component of WELL SAID.

The Lucky Ones Allyn & Bacon The book contains contributions from practitioners and theoreticians who explore the pronunciation of English from various perspectives: phonetic, phonological, psycholinguistic and sociolinguistic. In accordance with the unifying theme of the volume, individual contributions investigate the characteristics of a foreign accent, its production and perception, study the development of methods and techniques in pronunciation teaching, evaluate their use in classroom materials and in the classroom itself, and investigate the conditions for second language learning and teaching from the perspective of learners and teachers. The book offers a unique combination of a scholarly research with practical applications, inspired over the years by the work of Professor Włodzimierz Sobkowiak,

who has researched pronunciation teaching and pioneered technology-oriented, corpus-based approaches to the study of English pronunciation in Poland. Well Said Routledge This newly expanded three-book series gives beginning, intermediate, or advanced students all the tools, tips, and techniques they need to speak English clearly and accurately.
