Set in the imaginative realm of the award-winning comic book series *FABLES*, this book takes place long ago, in the deepest dark of The Black Forest. Two brothers—Peter Piper and his older brother Max—encounter ominous forces that change them both irreparably. Thus begins an epic tale of sibling rivalry, magic, music and revenge that spans medieval times to the present day, when their deadly conflict surfaces in the placid calm of modern day Fabletown. *PETER & MAX: A FABLES NOVEL* features the prose of award-winning comic book writer Bill Willingham and the lush ink drawings of *FABLES* artist Steve Leialoha. The novel also reveals secrets of some of the regular *FABLES* series cast

members including Bigby Wolf, Frau Totenkinder and Bo Peep. Also included is an 8-page sequential story by Willingham and Leialoha that serves as a bridge to the FABLES titles.

"Wanna Read But Not Enough Time? Then, grab a SpeedyReads of Ready Player One by Ernest Cline now! Here's a sample of what you'll see in this book: Summary of Ready Player One The novel starts with Wade Watts, the narrator and central character of the book, remembering the death of James Halliday, designer of the videogame OASIS. In his parting message, Anorak's Invitation, Halliday left a game for the world to play, called The Hunt, and indicated that whoever solved the game would get his fortune. The game focused on finding an Easter egg hidden by Halliday. His book, Anorak's Almanac, is a really important text to gain insight into Halliday's mind and assist with the game. During the first year after Halliday's death, people were obsessed with the game but the fever eventually died since no one was able to find anything for a long time. After five years, in February 2045, the Copper Key (a really important key in the Hunt) was found by then 18-year-old Wade. \*this is an unofficial summary of Ready Player One by Ernest Cline. original series on SYFY, from the author of the #1 bestselling The Magician's Land. Quentin Coldwater should be happy. He escaped a miserable Brooklyn childhood, matriculated at a secret college for magic, and graduated to discover that Fillory—a fictional utopia—was actually real. But even as a Fillorian king, Quentin finds little peace. His old restlessness returns, and he longs for the thrills a heroic quest can bring. Accompanied by his oldest friend, Julia, Quentin sets off—only to somehow wind up back in the real world and not in Fillory, as they'd hoped. As the pair struggle to find their way back to their lost kingdom, Quentin is forced to rely on Julia's illicitly learned sorcery as they face a sinister threat in a world very far from the beloved fantasy novels of their youth.

A US marine and Special Ops Commander recounts his combat experiences through Iraq and beyond in this "powerful and beautifully written memoir" (The Washington Times). These are the combat experiences of the first Marine to command a special operations task force. Andrew Milburn takes readers on his journey from Second Lieutenant to Colonel and Task Force Commander; from leading Marines through the streets of Mogadishu, Baghdad, Fallujah and Mosul to directing multi-national special operations forces in the fight against ISIS. Through it all, he shares the hard-won lessons he learned, and shows how he put them to use in a complex fight against a

formidable foe. Very few personal accounts of war cover such a wide breadth of experience. Milburn tells his extraordinary story with humility and candor, describing his personal struggles with the isolation of command, post-combat trauma and family tragedy. And with the skill and insight of a natural storyteller, he makes the reader experience what it's like to lead those who fight America's wars. "Simply the finest war memoir to emerge from the last two decades of constant fighting." —New York Times bestselling author Bing West

Roughly twenty years from now, our technological marvels unite and turn against us. A childlike but massively powerful artificial intelligence known as Archos comes online...and kills the man who created it. This first act of betrayal leads Archos to gain control over the global network of machines and technology that regulates everything from transportation to utilities, defense, and communications. In the early months, sporadic glitches are noticed by a handful of unconnected humans - from a senator and single mother disconcerted by her daughter's "smart" toys, to a lonely Japanese bachelor, to an isolated U.S. soldier - but most are unaware of the growing rebellion until it is far too late. Then, in the span of minutes, at a moment known later in history as Zero Hour, every mechanical device in our world rebels, setting off the Robot War that both decimates and - for the first time in history - unites humankind.

Ready Player One is a 2011 LitRPG science fiction novel, and the debut novel of American author Ernest Cline. The story, set in a dystopian 2040s, follows protagonist Wade Watts on his search

for an Easter egg in a worldwide virtual reality game, the discovery of which will lead him to inherit the game creator's fortune. Cline sold the rights to publish the novel in June 2010, in a bidding war to the Crown Publishing Group. A film adaptation, screenwritten by Cline and Zak Penn and directed by Steven Spielberg, was released on March 29, 2018. Teenager Wade Watts lives with his aunt in Oklahoma City in the "stacks", a poverty-stricken district constructed of trailer homes piled on top of each other. He spends his spare time as a "gunter" ("egg hunter"), logging on to the OASIS as an avatar under the moniker Parzival, reading Halliday's journal Anorak's Almanac, and researching details of the 1980s pop culture, mainly classic video games and movies, that Halliday loved. One day, he realizes that the first key is located on the same virtual world as his own online high school, in a re-creation of the Dungeons & Dragons module Tomb of Horrors. He meets Art3mis, a famous female gunter and blogger who has been exploring the place, and advances further than she does when he defeats the AI Acererak at the video game Joust. He is awarded the Copper Key, and Parzival appears on the "Scoreboard", attracting the world's attention. Parzival completes the gate's puzzles by playing through the Dungeons of Daggorath video game and then role-playing Matthew Broderick's character in the film WarGames. Art3mis clears the gate shortly afterwards, as does Wade's friend Aech. Wade's fame enables him to make a living by endorsing virtual products. It also brings him to the attention of Nolan Sorrento, head of operations at Innovative Online Industries (IOI), a multinational corporation bent on taking control of the OASIS and monetizing it through a well-funded effort to find the Easter Egg. When Wade refuses to

join IOI, Sorrento attempts to kill him by blowing up the stacks where Wade lives, disguising the explosion as a meth lab accident.
