The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

The tourism industry is an industry of people and is directly dependent on the performance of activities, skills, professionalism, quality, and competitiveness. Approaching the perspective of people management stresses the need to humanize companies, making empowerment and commitment easier. These are key to setting "talents" and, more importantly, to encouraging these individuals to put their creative capacities to the service of the companies for which they work. Only by being collaborative internally does business gain competitive capacity in the global marketplace. This aspect is crucial in tourism in the face of strong and growing competition in the sector. Human Capital and People Management in the Tourism Industry is a crucial reference source that reveals groundbreaking human resource policies for tourism destinations, revolutionary human capital managerial business approaches in tourism, innovative tourism training perspectives, and new tourism qualification prospects. Featuring research on topics such as intellectual capital, human resource management, and financial performance, this book is ideally designed for business managers, entrepreneurs, human resource officers, industry professionals, academicians, students, and researchers.

Managerial Accounting for the Hospitality Industry, 2nd Edition

Wintergreen Orchard House

The objective of this textbook is to teach students to be conversational in speaking "numbers." This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today's leading hotel and restaurant companies.

Chapters will be developed under the auspices of a select group of hospitality industry General Managers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or profits.
