**We Can!** Simon and Schuster

The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies

sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story

of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

□□□□□ GATEWAY 2ND EDITION

In “a brilliant antidote to all the...false narratives about pot” (American Thinker), an award-winning author and former New York Times reporter reveals the link between teenage marijuana use and mental illness, and a hidden epidemic of violence caused by the drug—facts the media have ignored as the United States rushes to legalize cannabis. Recreational marijuana is now legal in nine states. Advocates

argue cannabis can help everyone from veterans to cancer sufferers. But legalization has been built on myths—that marijuana arrests fill prisons; that most doctors want to use cannabis as medicine; that it can somehow stem the opiate epidemic; that it is beneficial for mental health. In this meticulously reported book, Alex Berenson, a former New York Times reporter, explodes those myths, explaining that almost no one is in prison for marijuana; a tiny fraction of doctors write most authorizations for medical marijuana, mostly for people who have already used; and marijuana use is linked to opiate and cocaine use. Most of all,

THC—the chemical in marijuana responsible for the drug’s high—can cause psychotic episodes. “Alex Berenson has a reporter’s tenacity, a novelist’s imagination, and an outsider’s knack for asking intemperate questions” (Malcolm Gladwell, *The New Yorker*), as he ranges from the London institute that is home to the scientists who helped prove the cannabis-psychosis link to the Colorado prison where a man now serves a thirty-year sentence after eating a THC-laced candy bar and killing his wife. He sticks to the facts, and they are devastating. With the US already gripped by one drug epidemic, *Tell Your Children* is a “well-written treatise” (Publishers Weekly)

that “takes a sledgehammer to the promised benefits of marijuana legalization, and cannabis enthusiasts are not going to like it one bit” (Mother Jones).

Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are

likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers are so often neglected by literature on teaching methodology.
