The Routledge Dictionary of Cultural References in Modern French reveals the hidden cultural dimension of contemporary French, as used in the press, going beyond the limited and purely lexical approach of traditional bilingual dictionaries. Even foreign learners of French who possess a good level of French often have difficulty in fully understanding French articles, not because of any

linguistic shortcomings on their part but because of their inadequate knowledge of the cultural references. This cultural dictionary of French provides the reader with clear and concise explanations of the crucial cultural dimension behind the most frequently used words and phrases found in the contemporary French press. This vital background information, gathered here in this innovative and entertaining dictionary, will allow readers to go beyond a superficial understanding of the French press and the French language in general, to see the hidden yet implied cultural significance that is so transparent to the native speaker. Key features: a broad range of cultural references from the historical and literary to the popular and classical, with an in-depth analysis of punning mechanisms. over 3,000 cultural references explained a three-level indicator of frequency over 600 questions to test knowledge before and after reading. The Routledge Dictionary of Cultural References in Modern French is the ideal reference for all undergraduate and postgraduate students of French seeking to enhance their understanding of the French language. It will also be of interest to teachers, translators and Francophiles alike. French students in khâgne, Sciences-Po and schools of journalism will also find this valuable and relevant for their studies. **Debates on Women, Culture and Politics in France 1980-2001** Susquehanna University

This book studies women's resistance in the three countries of the Maghreb, concentrating on two questions: First, what has been the role of women artists since the 1960s in unlocking traditions and emancipating women on their own terms? Second, why have Maghrebi women rarely been given the right to be heard since Algeria, Morocco, and Tunisia gained national independence? Honouring the artistic voices of women that have been largely eclipsed from both popular culture and political discourse in the Maghreb, the work specifically examines resistance by women since 1960s in the Maghreb through cinema, politics, and the arts. In an ancillary way, the volume addresses a wide range of questions that are specific to Maghrebi women related to upbringing, sexuality, marriage, education, representation, exclusion, and historical memory. These issues, in their broadest dimensions, opened the gates to responses in different fields in both the humanities and the social sciences. The research presents scholarship by not only leading scholars in Francophone studies, cultural history, and specialists in women studies, but also some of the most important film critics and practicing feminist advocates. The variety of periods and disciplines in this collection allow for a coherent and general understanding of Maghrebi societies since

decolonization. The volume is a key resource to students and scholars interested in women's studies, the Maghreb, and Middle East studies.

Remembering Kahina Peter Lang

This book examines the representation of the female fertility cycle in contemporary Algerian, Mauritian, and French women's writing. It focuses on menstruation, childbirth, and the menopause whilst also incorporating experiences such as miscarriage and abortion. This study frames its analysis of contemporary women's writing by looking back to the pioneering work of the second-wave feminists. Second-wave feminist texts were the first to break the silence on key aspects of female experience which had thus far been largely overlooked or considered taboo. Second-wave feminist works have been criticised for applying their 'universal' theories to all women, regardless of their ethnicity, socio-economic status, or sexuality. This book argues that contemporary women's writing has continued the challenge against normative perceptions of the body that was originally launched by the second-wave feminists, whilst also taking a more nuanced, contextual and intersectional approach to corporeal experience. The cross-cultural and interdisciplinary approach of this book is informed not only by critics of the second-wave feminist movement but also by sociological studies which consider how women's bodily experiences are shaped by socio-cultural context.

Feminist theory has been widely translated, influencing the humanities and social sciences in many languages and cultures. However, these theories have not made as much of an impact on the discipline that made their dissemination possible: many translators and translation scholars still remain unaware of the practices, purposes and possibilities of gender in translation.

Translating Women revives the exploration of gender in translation begun in the 1990s by Susanne de Lotbinière-Harwood's *Re-belle et infidèle/The Body Bilingual* (1992), Sherry Simon's *Gender in Translation* (1996), and Luise von Flotow's *Translation and Gender* (1997). Translating Women complements those seminal texts by providing a wide variety of examples of how feminist theory can inform the study and practice of translation. Looking at such diverse topics as North American chick lit and medieval Arabic, Translating Women explores women in translation in many contexts, whether they are women translators, women authors, or women characters. Together the contributors show that feminist theory can apply to translation in many new and unexplored ways and that it deserves the full attention of the discipline that helped it become internationally influential.

In *The Cinema of Catherine Breillat*, Bélot offers a detailed analysis of Breillat's films by looking at the representation of women as sexual beings. These women's search of identity echoes that of Breillat's in establishing a personal or intimate cinema.

The 1990s witnessed an explosion in women's writing in France, with a particularly exciting new generation of writer's coming to the fore, such as Christine Angot, Marie Darrieussecq and Regine Detambel. Other authors such as Paule Constant, Sylvie Germain, Marie Redonnet and Leila Sebbar, who had begun publishing in the 1980s, claimed their mainstream status in the

1990s with new texts. The book provides an up-to-date introduction to an analysis of new women's writing in contemporary France, including both new writers of the 1990s and their more established counter-parts. The editors' incisive introduction situates these authors and their texts at the centre of the current trends and issues concerning French literary production today, whilst fifteen original essays focus on individual writers. The volume includes specialist bibliographies on each writer, incorporating English translations, major interviews, and key critical studies.

Quotations are given in both French and English throughout. An invaluable study resource, this book is written in a clear and accessible style and will be of interest to the general reader as well as to students of all levels, to teachers of a wide range of courses on French culture, and to specialist researchers of French and Francophone literature.

Catherine Breillat Seuil

In the 1990s the French literary arena was enlivened by the emergence of a new generation of women writers. This book selects six of its most distinctive voices and addresses important questions about the very new in French women's writing. What are young women choosing to write about? What do they tell us about changing perceptions of feminine identities? What does it mean to write (and to read) as women at the start of the new millennium? An introductory chapter explores key issues such as the woman writer in the public imagination and continuity and change within French women's writing since the 1970s. It also highlights thematic threads which recur across the work of the authors studied: history and time, wandering and exile, self and other, the body and sexuality and writing and telling. The remaining chapters propose productive approaches to the fictional worlds of Marie Darrieussecq, Virginie Despentes, Marie Ndiaye, Agnès Desarthe, Lorette Nobécourt and Amélie Nothomb through close readings of their most challenging, popular or telling texts. They focus on perennial preoccupations in women's writing which are given new treatment by these writers and discuss important developments such as uses of the pornographic, myth and fairy tale and parody and irony in new women's writing.

What happened when *Sesame Street* and *Big Brother* were adapted for African audiences? Or when video games *Final Fantasy* and *Assassins' Creed* were localized for the Spanish market? Or when *Sherlock Holmes* was transformed into a talking dog for the Japanese animation *Sherlock Hound*? Bringing together leading international scholars working on localization in television, film and video games, *Media Across Borders* is a pioneering study of the myriad ways in which media content is adapted for different markets and across cultural borders. Contributors examine significant localization trends and practices such as: audiovisual translation and transcreation, dubbing and subtitling, international franchising, film remakes, TV format adaptation and video game localization. Drawing together insights from across the audiovisual sector, this volume provides a number of innovative models for interrogating the international flow of media. By paying specific attention to the diverse ways in which cultural products are adapted across markets, this collection offers important new perspectives and theoretical frameworks for studying localization processes in the audiovisual sector. La réception de La vie sexuelle de Catherine M. de Catherine Millet Springer

French feminism was central to the theory and culture of Second Wave feminism as an international movement, and 1975 was a key year for the women's movement in France. Through a critical review of the politics, activism and cultural creativity of that moment, from the perspective of both preceding and subsequent 'waves' of feminism, this book evaluates the legacies of 1975, and their strengths and limitations as new questions and new conjunctures have come into play. Edited and written by an international group of feminist scholars, it offers both a critical re-evaluation of a vital moment in women's cultural history, and a new analysis of the relationship between second wave agendas and contemporary feminist politics and culture.

Un Modèle Psychanalytique Harvest Books

The essays reflect the shift from the theoretical and philosophical approaches that characterized feminism twenty years ago, to the more social and political questions of today. Feminist Translation Studies: Local and Transnational Perspectives situates feminist translation as political activism. Chapters highlight the multiple agendas and visions of feminist translation and the different political voices and cultural heritages through which it speaks across times and places, addressing the question of how both literary and nonliterary discourses migrate and contribute to local and transnational processes of feminist knowledge building and political activism. This collection does not pursue a narrow, fixed definition of feminism that is based solely on (Eurocentric or West-centric) gender politics—rather, *Feminist Translation Studies: Local and Transnational Perspectives* seeks to expand our understanding of feminist action not only to include feminist translation as resistance against multiple forms of domination, but also to rethink feminist translation through feminist theories and practices developed in different geohistorical and disciplinary contexts. In so doing, the collection expands the geopolitical, sociocultural and historical scope of the field from different disciplinary perspectives, pointing towards a more transnational, interdisciplinary and overtly political conceptualization of translation studies.
