BYRON DASHAWN

Do No Harm Fandemonium Books
 Killing time:Stargate Command is in crisis -- too many teams wounded, too many dead. Tensions are running high and, with the pressure to deliver tangible results never greater, General Hammond is forced to call in the Pentagon strike team to plug the holes.
The Life of Permafrost Open Book Publishers
 Colonel Shepherd's team fight not only to save their city and free their friends, but ultimately to save an entire species from extinction. In this riveting conclusion to the epic Legacy series, the destiny of Atlantis and her people will be decided.
STARGATE SG-1 Insurrection (Apocalypse Book 3) Fandemonium Books
 Colonel Jack O'Neill and his SG-1 team find themselves stranded on a primitive world where the inhabitants pay homage to the Goa'uld by providing their best specimens as host bodies for their young.

Life, Re-Scaled SGA

A reporter wants answers to the mysteries of StarGate, and Col. Jack O'Neill is only too happy to oblige, by taking him through the gate and into the heart of danger.

STARGATE ATLANTIS Third Path (Legacy Book 8) Roc

Based on the hit TV show Stargate Atlantis. Follow the team as they return Atlantis to the Pegasus galaxy.

Rebellion Springer Science & Business Media

Two different worlds collide when two exes fall in love one summer in this second-chance, modern Queer retelling of Jane Austen's *Persuasion*. Previously published as *Perfect Day*. When Joshua Newton, son of Long Island's elite, fell in love with ambitious young actor Finn Callaghan, his world finally made sense. With every stolen moment, soft touch and breathless kiss, they fell deeper in love. Finn was his future...until Joshua made the worst mistake of his life and let his family's disapproval tear them apart. Eight years later, Finn has returned to the seaside town where it all began. He's on the brink of stardom, a far cry from the poor mechanic who spent one gorgeous summer falling in love on the beach. The last thing he wants is a second chance with the man who broke his heart. Finn has spent a long time

forgetting Joshua Newton—he certainly doesn't plan to forgive him. Drawn together yet kept apart by their history, old feelings soon begin to stir. Back in the place where their romance began, Joshua and Finn finally come to realize the truth: love stays. Even when you don't want it to, even when you try to deny it, love stays.

STARGATE ATLANTIS: *Hunt and Run* Bloomsbury Publishing
Shortly after Daniel Jackson returns from his time among the ascended Ancients, he volunteers to join an archaeological survey of Chinese ruins on P3Y-702. But after accidentally activating a Goa'uld transport ring, Daniel finds himself the prisoner of the Goa'uld Lord Yu. Blaming himself for Daniel's capture, Jack O'Neill vows to go to any lengths to get him back - even if it means taking matters into his own hands.

The Morpheus Factor Fandemonium Books

The Stargate SG-1 team find themselves transported to a world where they must solve a series of riddles and avoid deadly traps in order to travel home. Pursued by Goa'uld and Jaffa, it is a race against death to the finish line.

The Price You Pay National Academies

A tender and triumphant story of forbidden love in the aftermath of war When Captain Ashleigh Dalton went to war in 1914, he never expected to fall in love. Yet, over three long years at the front, his dashing batman, Private West, became his reason for fighting--and his reason for living. For Harry West, an ostler from London's East End, it was love at first sight when he met complex, compassionate Captain Dalton. Harry knew their friendship wouldn't survive in the class-bound world back home, but in the trenches there was no point in worrying about tomorrow... Now, gravely wounded, Ash has been evacuated home to Highcliffe House, his father's Hampshire estate. Bereft of Harry, angry and alone, Ash struggles to fit into the unchanging world he left behind. Meanwhile, Harry, broken-hearted, doubts he'll ever see his beloved captain again. But when the guns fall silent and Harry finds himself adrift in London, a desperate hope carries him to Highcliffe House in search of work--and of the officer he can't forget... This novel is approximately 81,000 words and comes with a HEA guaranteed.

STARGATE SG-1: *the Barque of Heaven* Routledge

Based on the popular football commentary on the e-zine "Slate", this is a collection of haikus, Zen poetry, historical allusions, and other conceits Easterbrook uses to creates fresh commentary on the philosophy of the game. 50 illustrations.

The Last Kiss Fandemonium Books

Although unwilling participants, SG-1 soon finds itself fighting with the Vanir against its ancient foe--the brutal giants of Jotunheim--and feasting long into the night. But when dawn arrives, the team find itself in a very different world.

The Science of Battlestar Galactica Harlequin

When a Crystal Skull is discovered beneath the pyramid of the Sun in Mexico, it ignites a cataclysmic chain of events that maroons SG-1 on a dying world. Xaltdcan is a brutal society, steeped in death and sacrifice, where the bloody gods of the Aztecs demand tribute from a fearful and superstitious population. But that's the least of Colonel Jack O'Neill's problems.

Tuesday Morning Quarterback Simon and Schuster

The first book in a new trilogy based on the blockbuster film StarGate. Continuing the thrilling story of renegade Egyptologist Daniel Jackson and Colonel Jack O'Neil, this trilogy has all the action, mystery, and suspense of the film--and more.

STARGATE ATLANTIS: *Casualties of War* Roc

Most of the Earth's biosphere is characterized by low temperatures. Vast areas (>20%) of the soil ecosystem are permanently frozen or are unfrozen for only a few weeks in summer. Permafrost regions occur at high latitudes and also at

high elevations; a significant part of the global permafrost area is represented by mountains. Permafrost soils are of global interest, since a significant increase in temperature is predicted for polar regions. Global warming will have a great impact on these soils, especially in northern regions, since they contain large amounts of organic carbon and act as carbon sinks, and a temperature increase will result in a release of carbon into the atmosphere. Additionally, the intensified release of the climate-relevant tracer gas methane represents a potential environmental hazard. Significant numbers of viable microorganisms, including bacteria, archaea, phototrophic cyanobacteria and green algae, fungi and protozoa, are present in permafrost, and the characteristics of these microorganisms reflect the unique and extreme conditions of the permafrost environment. Remarkably, these microorganisms have been reported to be metabolically active at subzero temperatures, even down to -20°C.

Warehouse 13 Sga

Based on the hit television series airing on the Sci Fi Channel(. Exploring a distant planet, the SG-1 team encounters a mysterious race of beings who can tap into their dreams and make anything they find there real. Reissue.

STARGATE SG-1 *Ouroboros* University of Toronto Press

Lt. Col. John Sheppard submits his resignation following a mission in which two of his team members were lost, while Elizabeth Weir negotiates with two warring tribes who have traces of the Ancient ATA gene.

A Matter of Honor Puffin

This edited volume explores new engagements with the life sciences in contemporary fiction, poetry, comics and performance. The gathered case studies investigate how recent creative work reframes the human within microscopic or macroscopic scales, from cellular biology to systems ecology, and engages with the ethical, philosophical, and political issues raised by the twenty-first century's shifting views of life. The collection thus examines literature and performance as spaces that shape our contemporary biological imagination. Comprised of thirteen chapters by an international group of academics, *Life, Re-Scaled: The Biological Imagination in Twenty-First-Century Literature and Performance* engages with four main areas of biological study: 'Invisible scales: cells, microbes and mycelium', 'Neuro-medical imaging and diagnosis', 'Pandemic imaginaries', and 'Ecological scales'. The authors examine these concepts in emerging forms such as plant theatre, climate change art, ecofiction and pandemic fiction, including the work of Jeff Vandermeer, Jon McGregor, Jeff Lemire, and Extinction Rebellion's Red Rebel Brigade performances. This valuable resource moves beyond the biological paradigms that were central to the nineteenth and twentieth centuries, to outline the specificity of a contemporary imagination. *Life, Re-Scaled* is crucial reading for academics, scholars, and authors alike, as it proposes an unprecedented overview of the relationship between literature, performance and the life sciences in the twenty-first century.

STARGATE ATLANTIS *From the Depths* Fandemonium Books

In the fragile peace following Queen Death's defeat, Dr. Daniel Jackson arrives in Atlantis to indulge in some real archaeology. Naturally, things don't go according to plan.

STARGATE SG-1 *Female of the Species* Roc

THE UNKNOWN HAS AN ADDRESS. . . . Hidden away in the Badlands of South Dakota, Warehouse 13 is a top-secret repository for historical artifacts imbued with dangerous supernatural properties. Secret Service agents Pete Lattimer and Myka Bering are ever on the lookout for loose artifacts threatening to ruin the world's day. Their mission: "Snag it, bag it, tag it." Reports of a genuine psychic healer, along with a simultaneous epidemic of mysterious illnesses, lead Myka and

Pete on a hazardous investigation that stretches from a carnival sideshow back to the bloody history of the Civil War. But when Pete is infected with a deadly disease, Myka and the rest of the team, including Artie Nielsen and Claudia Donovan, must track down a pair of cursed gloves—before a madman unleashes a virulent plague upon America!

STARGATE SG-1 Permafrost Universe Publishing(NY)

In 1997, the series "Stargate SG-1" first aired on American cable television and over the course of nearly nine seasons has developed its own unique mythological superstructure. "Stargate SG-1" focuses on the dynamic relationships among the show's main characters, the four-person first-contact team: SG-1. Each week they are taken to new planets where ancient human civilizations have been seeded as slave populations by the show's arch-villains, the parasitic, body-snatching Goa'uld. The series' concerns therefore range from ancient cultures and

contemporary politics, to aliens and advanced technologies, all given life with award-winning special effects and anchored by the central icon of the Stargate. "Stargate SG-1" has blossomed into a series driven by fierce fan loyalty, with lively internet discussion groups, growing 'textual poaching' in fan fiction and art, and popular annual conventions. It has also generated a spin-off, "Stargate: Atlantis". In this welcome critical celebration, contributors discuss "Stargate SG-1's" characters, cinematic techniques, its themes and its place within science fiction television and film, along with its interaction with fan fiction, its Canadian setting, its ideological framing in the American point-of-view, and the tensions between its humanistic morality and its representation of military/political objectives. There is also assessment of the currently fledgling "Stargate: Atlantis". Written for both fans and scholars, the book also includes an episode guide to the first eight seasons of "Stargate SG-1" and to the first season of "Stargate: Atlantis", as well as a glossary of terms.
