A comprehensive and integrative approach to achieving digestive health using mainstream, complementary, and alternative therapies • Offers complete information on herbal and homeopathic remedies, supplements, diets, medical tests, and environmental toxin reduction • Includes a step-by-step diet to help readers moderate their carbohydrate intake and balance blood sugar levels • Contains effective therapies for 30 digestive disorders, from candida to ulcers

According to the National Institutes of Health, more than 90 million Americans suffer from digestive disorders. Drawing on the expertise of 25 practitioners, *Optimal Digestive Health* explores the symptoms, possible causes, medical testing, and effective treatments for 30 digestive disorders, from candida and colitis to ulcers. In addition, the authors explain the role digestion plays in many other health conditions, such as arthritis, fibromyalgia, headaches, mood swings, immune function, and skin problems. They provide clear information on detoxification, food allergies, and environmental factors, as well as meditation, qigong, and yoga. A step-by-

step diet is offered to help readers moderate their carbohydrate intake and balance their blood sugar--keys to health and weight loss. *Optimal Digestive Health* demystifies the use of herbal therapies, acupuncture, biofeedback, and Ayurveda in the treatment of digestive disorders, pairing the best of mainstream medicine and complementary therapies with intelligent self-care for an integrated patient-centered approach to healing.

Steve Coppell was one of England's most gifted wingers, who went on to become a successful manager. He led Crystal Palace during their halcyon era of the late 80s, briefly managed Manchester City before returning to Palace and winning promotion again. He then held the reins during difficult times at both Brentford and Brighton, but was on the brink of winning another promotion with the Seagulls when he took the job at Reading. Blessed with an ability to spot raw talent such as Kevin Doyle and Steven Hunt, Coppell led the Royals into the top flight for the first time in their history with a record points tally. Reading took the Premier League by

storm, finishing just outside the European places. Sadly they wilted in their second season and slumped to relegation, and then failed to win a return straight back into the big time in 2008-09. Following Coppell's resignation as Reading manager in May 2009, Stuart Roach went on a journey to discover the real Steve Coppell. From his humble origins on Merseyside to his glamour move to Old Trafford and into the England side, Coppell proved an exciting winger, capable of creating scoring opportunities for his strikers. But a cruel injury cut his career dead and Coppell reinvented himself as the then youngest ever Football League manager at the age of 28. This book will reveal what lies beneath Coppell's famously cool exterior, why his manager at Manchester United Tommy Docherty christened him "the number 27 bus," what Coppell gained from taking an Economics degree from the University of Liverpool and how he nearly caused a rift in the marriage of Charles Saatchi and Nigella Lawson! Features contributions from major figures in Coppell's career such as John Madejski, Ian Wright, Jonathan Pearce, Mark Bright, Martin Buchan, Dick Knight, Ron Noades,

Alan Pardew, Lou Macari, Bobby Zamora, and Graeme Murty.

Though best known as the creator of beloved tales for young adults such as *Little Women*, Louisa May Alcott's choice of subjects ranged widely over the course of her creative career. The stories collected in *On Picket Duty, and Other Tales* focus on a range of social issues that were at the fore in nineteenth-century America.

Living in the small farming community of Nyssa, Oregon, the daily evidences of God's creations provide for never-ending inspiration. Although Mary's desire to write has been a passion for many years, she believes desires may also be defined as dreams. After the loss of an eighteen year career, Mary's deepest aspirations finally materialized. The opportunity to share her dream, has become a reality. This is her first book for publication. "On My Knees ... For These" is a fifty-two-week journey of

prayer and intercession. This weekly devotional allows the reader to log daily prayer requests, personal needs, and updates. Its pages are filled with intimate reflection, personal experiences, and inspiration thoughts from the author's life, her loves, and God's precious gifts. It is her hope that readers will draw strength and find similarities in their own life from each personal message.

This symposium was dedicated to science opportunities with the VLT. All major areas of astronomical research were discussed in the plenary sessions, ranging from where we stand in cosmology to the new frontiers in the solar system. The workshops published in this volume

focussed on different ways of finding clusters of galaxies at high redshift, on gravitational lensing by distant compact clusters, on the use of stellar populations as distance, age or abundance indicators, and on the extraordinary progress made in the discovery of extrasolar planets. This book affords a glimpse of what will be at the center of astrophysical research in the forthcoming decade. It is addressed to researchers and graduate students.

Long neglected, the history of nursing has recently become the focus of a considerable amount of attention. Over the past decade, developments in the history of medicine, the history of women ó particularly of womenís work ó and nursing itself have resulted in a new recognition of the importance of the subject. Nursing History Review enables those interested in nursing and health care history to trace new and developing work in the field. The Review publishes significant scholarly work in all aspects of nursing history as well as reviews of

recent books and updates on national and international activities in health care history. Under the distinguished editorship of Joan Lynaugh, with the Editorial Review Board including such noted nurses as Ellen Baer, Susan Baird, Olga Maranjian Church, Donna Diers, Marilyn Flood, Beatrice Kalisch, The Review provides historical articles, historiographic essays, discourse on the work of history, and multiple book reviews in each annual issue.

What happens if the world unexpectedly stands still for a moment? If, just like that, you are given a bit of time by sheer luck? This is exactly what happens in one of the biggest and busiest cities of the world, as a small snail crosses the street and makes traffic stop for half a day. A book about things that you always wanted to do but never had the time for.
