Fiction. Women's Studies. Short Stories.  
Beginning with a story of an ex sex-worker  
drifting through a small rural town in the  
south, and ending with a young woman's  
wedding night, who learns from her new  
husband what it takes to kill a man, Nash  
writes across the complications of working  
class women, rendering their desires with

visceral prose and psychologically  
dissecting the fundamental root that  
threads her work: craving and the conflicts  
within.

After decades of being forgotten, northern Peru has finally begun emerging from the shadows of the country's better-known south. The magnificent ruins at Kuelap, the Gocta waterfall, the historical cities of Cajamarca and Trujillo, and jungle excursions along the Huallaga River are up-and-coming destinations for more adventurous travelers seeking to avoid the crowds in the south. And yet, northern Peru wasn't always unexplored territory for travelers. In the 19th century, the long-forgotten Moyobamba Route was the main connection between Peru's Pacific coast and the Amazon River. Among the adventurers who rode the old mule trails were a Royal Navy lieutenant, a Swiss nobleman, a French reporter, an American professor, and a famous early British aviator. Recently retired, the author set off to follow the ghosts of these and other early travelers, weaving together their stories with his own adventures each step

of the way. But the story of the Moyobamba Route is just as much about the people who lived there as those who wandered through. A Utopian bishop, a mountain warlord, a jungle-raised feminist, a future Hollywood starlet, war heroes, German immigrants, entrepreneurs, and missionaries are among the characters who make up the region's rich history. Drawing on original Spanish language materials for much of the Peruvian history, the author brings some of their stories to English language readers for the very first time.

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. Stand Firm: Apologetics and

the Brilliance of the Gospel argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

Tombs and burial customs are an exquisite source for social history, as their commemorative character determines them to express much of the contemporaneous ideology of a society. This book presents, for the first time, a holistic view of the funerary culture of

Rome and its surroundings during the third century AD. Barbara Borg argues that during this time there was, in many ways, a return to practices known from the Late Republic and early imperial period, with spectacular monuments for the rich, and a large-scale reappearance of collective burial spaces. Through a study of terraced tombs, elite monuments, the catacomb nuclei, sarcophagi, and painted imagedecoration, this volume explores how the third century was an exciting period of experimentation and creativity.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested

that an account of my life and fortunes would not be uninteresting to the public." - an excerpt

The Fierce 44 Crisis and Ambition Tombs and Burial Customs in Third-Century CE Rome

In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift

from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for?

Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.
