Cultural Anthropology Cengage Learning

Through the Lens of Anthropology is a concise introduction to anthropology that uses the twin themes of food and sustainability to connect evolution, biology, archaeology, history, language, and culture. The third edition remains a highly readable text that encourages students to think about current events and issues through an anthropological lens. Beautifully illustrated with over 100 full-color images and maps, along with detailed figures and boxes, this is an anthropology book with a fresh perspective and a lively narrative that is filled with popular topics. The new edition has been updated to reflect the most recent developments in anthropology and the contributions of marginalized scholars, while the use of gender-neutral language makes for a more inclusive text. New content offers anthropological insight into contemporary issues such as COVID-19, Black Lives Matter, and #MeToo. Through the Lens of Anthropology continues to be an essential text for those interested in learning more about the relevance and value of anthropology. The third edition is supplemented by a full suite of updated instructor and student resources. For more information visit www.lensofanthropology.com.

Cultural Anthropology: An Applied Perspective Routledge

Successfully integrating attention to culture change, gender, class, race and ethnicity, and the environment, Cultural Anthropology in a Globalizing World, 2/e engages students with compelling ethnographic examples and by demonstrating the relevance of anthropology. Faculty and students praise the book's proven ability to generate class discussion, increase faculty-student engagement, and enhance student learning. Through clear writing, a balanced theoretical approach, and engaging examples, Miller stresses the importance of social inequality and human rights, the environment, culture change and applied aspects of anthropology. Rich examples of gender, ethnicity, race, class, and age thread through the topical coverage of economic systems, the life-cycle, health, kinship, social organization, politics, language, religion, and expressive culture. The last two chapters address how migration is changing world cultures and the importance of local cultural values and needs in shaping international development policies and programs. Material throughout the book highlights the relevance of anthropology to students and how they can apply in their careers. By entwining attention to key theories for understanding culture with an emphasis on relevance of anthropological knowledge and skills, this text is the perfect choice for all introductory cultural anthropology courses.

Now with SAGE Publishing! In a first-of-its-kind format, Cultural Anthropology: A Problem-Based Approach is organized by problems and questions rather than topics, creating a natural discussion of traditional anthropological concerns such as kinship, caste, gender roles, and religion. This brief text promotes critical thinking through meaningful exercises, case studies, and simulations. Students will learn how to analyze their own culture and gain the tools to understand the cultures of other societies. The Eighth Edition has been thoroughly updated and reorganized to emphasize contemporary issues around social and economic inequality, gender identity, and more. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

The Second Edition of Ken Guest's Cultural Anthropology: A Toolkit for a Global Age covers the

concepts that drive cultural anthropology by showing that now, more than ever, global forces affect local culture and the tools of cultural anthropology are relevant to living in a globalizing world. *Time and the Other* University of Toronto Press

A reader for cultural anthropology courses consisting of articles that are global, both in authorship and perspective. The articles focus on contemporary global concerns and place an emphasis on gender issues throughout.

Cultural Anthropology: 101 Berghahn Books

Time and the Other is a classic work that critically reexamined the relationship between anthropologists and their subjects and reoriented the approach literary critics, philosophers, and historians took to the study of humankind. Johannes Fabian challenges the assumption that anthropologists live in the "here and now," that their subjects live in the "there and then," and that the "other" exists in a time not contemporary with our own. He also pinpoints the emergence, transformation, and differentiation of a variety of uses of time in the history of anthropology that set specific parameters between power and inequality. In this edition, a new postscript by the author revisits popular conceptions of the "other" and the attempt to produce and represent knowledge of other(s).

From ingredients and recipes to meals and menus across time and space, this highly engaging overview illustrates the important roles that anthropology and anthropologists play in understanding food and its key place in the study of culture. The new edition, now in full colour, introduces discussions about nomadism, commercializing food, food security, and ethical consumption, including treatment of animals and the long-term environmental and health consequences of meat consumption. New feature boxes offer case studies and exercises to help highlight anthropological methods and approaches, and each chapter includes a further reading section. By considering the concept of cuisine and public discourse, Eating Culture brings order and insight to our changing relationship with food.

In addition to a comprehensive overview of the discipline, CULTURAL ANTHROPOLOGY: AN APPLIED PERSPECTIVE, goes beyond basic introductory material by applying the theory, insights, and methods of cultural anthropology to contemporary situations that students both majors and non-majors are likely to encounter in their professional and personal lives. In the Eighth Edition, new co-author Susan Andreatta adds her expertise in economic and medical anthropology to that of Gary Ferraro, who has worked extensively in the anthropology of business, education, and organizational structures. Through the book's lucid narrative and wealth of modern examples, students come to understand how to view the world in which they find themselves today. New applied case studies opening each chapter are designed to catch the attention of students and remind them that the study of anthropology really is relevant to our lives. These introductory case studies, the popular Cross-Cultural Miscues presenting real-life examples, and Applied Perspectives features are now designated with a SWAP icon (Share with a Parent or friend) to encourage students to recognize the importance and necessity of understanding culture what it is and how it changes as individuals living in today's world. The Contemporary Issues features and in-text examples also emphasize the relevance of anthropology to students' lives and include new topics, including how South Korean society has rethought the value of having female children and whether or not professional anthropologists should work for the U.S. military in Iraq and Afghanistan, to help students better understand and participate in the globalized world around them. Everyday practice of religion is complex in its nature, ambivalent and at times contradictory. The task of an anthropology of religious practice is therefore precisely to see how people navigate and make sense of that complexity, and what the significance of religious beliefs and practices in a given setting can be. Rather than putting everyday practice and normative doctrine on different analytical planes, the authors argue that the articulation of religious doctrine is also an everyday practice and must be understood as such.

Taking the unique problem-based approach, the third Canadian edition of Sociocultural Anthropology encourages students to have a critical mindset when exploring the key concepts and methods presented in this textbook. Each chapter is organized around an intellectual "problem" and then further divided into a series of questions that address the problem from an anthropological perspective. Using problems and questions to frame each chapter along with the engaging writing style of the authors, this approach highlights the real-world, relevant problems that anthropologists are facing and encourages students to start thinking about how they would solve them as anthropologists.

Cultural Anthropology University of Toronto Press

This concise and accessible introduction establishes the relevance of cultural anthropology for the modern world through an integrated, ethnographically informed approach. The book develops readers' understanding and engagement by addressing key issues such as: What it means to be human The key characteristics of culture as a concept Relocation and dislocation of peoples The conflict between political, social and ethnic boundaries The concept of economic anthropology Cultural Anthropology: 101 includes case studies from both classic and contemporary ethnography, as well as a comprehensive bibliography and index. It is an essential guide for students approaching this fascinating field for the first time.

Stories of Culture and Place Baker Academic

Traits that signal belonging dictate our daily routines, including how we eat, move, and connect to others. In recent years, "fat" has emerged as a shared anchor in defining who belongs and is valued versus who does not and is not. The stigma surrounding weight transcends many social, cultural, political, and economic divides. The concern over body image shapes not only how we see ourselves, but also how we talk, interact, and fit into our social networks, communities, and broader society. *Fat in Four Cultures* is a co-authored comparative ethnography that reveals the shared struggles and local distinctions of how people across the globe are coping with a bombardment of anti-fat messages. Highlighting important differences in how people experience "being fat," the

cases in this book are based on fieldwork by five anthropologists working together simultaneously in four different sites across the globe: Japan, the United States, Paraguay, and Samoa. Through these cases, *Fat in Four Cultures* considers what insights can be gained through systematic, cross-cultural comparison. Written in an eye-opening and narrative-driven style, with clearly defined and consistently used key terms, this book effectively explores a series of fundamental questions about the present and future of fat and obesity.

Invitation to Anthropology University of Toronto Press

Drawing on the authors' fieldwork experience, this text explores how cultural creativity, human agency, and the material conditions of everyday life interact to shape cultural practices. Discussions of ongoing controversies - including tribalism vs. globalization and increasing inequality between "have" and "have not" regions - show how cultural anthropologists can tackle the world's most pressing social problems through their specialized knowledge and skills.

Lassiter's accessible introduction to anthropology encourages students to evaluate its relevance in our increasingly complex world. Part I focuses on the underlying assumptions and concepts that have driven anthropological theory and practice since its modern inception. Part II explores cross-cultural human issues showing how anthropological studies offer relevant insight into human beings and valuable models for thinking and acting. *Invitation to Anthropology* is an ideal text for undergraduate students, easily supplemented with case studies in anthropology.

Stories of Culture and Place makes use of one of anthropology's most enduring elements—storytelling—to introduce students to the excitement of the discipline. The authors invite students to think of anthropology as a series of stories that emerge from cultural encounters in particular times and places. References to classic and contemporary ethnographic examples—from *Coming of Age in Samoa* to *Coming of Age in Second Life*—allow students to grasp anthropology's sometimes problematic past, while still capturing the potential of the discipline. This new edition has been significantly reorganized and includes two new chapters—one on health and one on economic change—as well as fresh ethnographic examples. The result is a more streamlined introductory text that offers thorough coverage but is still manageable to teach.

Cultural Anthropology Berghahn Books

This introduction to the field of cultural anthropology from a Christian perspective exposes students to the excitement and significance of human history and culture.

Sociocultural Anthropology Wadsworth

The most current and comprehensive Canadian introduction that shows students the relevance of anthropology in today's world. This streamlined second edition of *Anthropology* asks what it means to be human, incorporating answers from all four major subfields of anthropology - biological anthropology, archaeology, linguistic anthropology, and cultural anthropology - as well as applied anthropology. Reorganized to enhance accessibility, this engaging introduction continues to illuminate the major concepts in the field while helping students see the relevance of anthropology in today's world.

Cultural Anthropology, Third Canadian Edition [by] Miller, Van Esterik, Van Esterik. Instructor's Resource CD-ROM [electronic Resource] McGraw-Hill Humanities, Social Sciences & World Languages

Taking a unique, problem-based approach, the fourth Canadian edition of this text encourages students to apply a critical mindset to the key concepts and methods outlined throughout the textbook. Each chapter is organized around an intellectual "problem" and then further divided into a series of questions that addresses them from an anthropological perspective. This approach, along with discussion of current and contemporary issues, encourages students to imagine what it is like to be an anthropologist in the field, bridging the gap between class and fieldwork.

Eating Culture

Anthropology asks what it means to be human, incorporating answers from all four major subfields of anthropology - biological anthropology, archaeology, linguistic anthropology, and cultural anthropology - as well as applied anthropology. Fully conveying the richness of the discipline, this detailed yet accessible introduction helps students gain a deeper understanding of the human condition by looking at themselves and the world around them through an anthropological lens.
