Did you know that stars are seasonal? That Orion is one of the brightest constellations? That a single day on Venus is longer than an entire year on Venus? Space has captivated mankind since the beginning of time. Fifty years ago, Neil Armstrong became the first man to step on the moon and since then our knowledge of astronomy has continued to expand. With so many mysteries yet to be solved, science journalist Abigail Beall takes readers on an astonishing journey though the landscape of space. In *The Art of Urban Astronomy*, you will be guided through the seasons and learn about the brightest stars and constellations, the myths and legends of astronomy and how to identify star clusters and galaxies with just your eyes or a pair of binoculars. and reconnect with nature. Packed full of seasonal star charts, constellation charts and fascinating facts, this is the perfect guide for those who have looked up at the night sky and don't know where to begin. After reading this book, you'll never look up in the same way again.

Color Theory for the Makeup Artist

Hachette+ORM

For their tenth anniversary, the design studio Roman and Williams Buildings and Interiors presents projects that blend the spirit of our collective history with a modernist edge. Roman and Williams's style honors craftsmanship, the use of natural materials, and the overlooked in unexpected ways. Their understated, glamorous sensibility is imparted in Manhattan's Ace Hotel interiors and restaurant The Breslin, The Standard Hotel, with its iconic Boom Boom Room, and the Royalton lobby. For such popular restaurants as The Dutch, the duo

created environments with textured backdrops that reference a rich past with a contemporary sensibility. Their innovative work has captured the attention of firms such as Facebook—they recently completed its campus food hall—and their residences for celebrities such as Ben Stiller and Gwyneth Paltrow are equally imaginative. This book surveys the firm's prestige projects, presented with Alesch's architectural hand drawings and sketches and detailed views. Also included is their loft and Montauk home, which serve as design laboratories, and a collection of furnishings and fixtures.
