The 9 Practices to Ignite an Empowered Life Hay House Incorporated

It's a marvelous thing to know that you have the courage, discipline, and follow-through to enliven your consciousness. In this groundbreaking book, Stuart Wilde brings to light new and compelling information about the sixth sense and tells you how to develop it. He defines this sixth sense as sacred energy that taps you into the state of all-knowing. Once you discover the sixth sense/etheric point of view, it opens the energy centers in your subtle body and you take on more light, going naturally from stiff to pliant, flowing with life rather than struggling with it. Stuart tells us in *Sixth Sense* that "what you need is inner power, a personal charisma, a spiritual power, an extrasensory perception that makes you bigger than life. You garner that energy through compassion, kindness, introspection, and solidity." After reading this book, your perception of life in all its subtlety and vastness will reach beyond the mundane to a special level of spirituality.

Perceptions of a New World Hay House, Inc  
Oscar Wilde was a major influence on the culture of his time, and remains relevant today, as a model of wit and style, a sexual icon, and a moral example. John Stokes shows how in the 1880s and 1890s Wilde played a vital part in the development of modern culture, inspiring others to carry his ideas on into the twentieth century. Stokes examines the evidence of diaries, letters, dramatizations of Wilde's plays and impersonations of the man himself, and discusses Wilde's relationship to fin-de-siècle and twentieth-century ideas.

"Much of the inspiration for this book has stemmed from the unique things I experienced during my four years of sun dancing. For instance, I learned what the warrior path was truly about, which had nothing to do with what I had been in movies, heard in music or read in books. It wasn't about being destructive or the toughest person in the neighborhood or any other media-stained image. In my moments of terror, pain and loneliness, I realized that this ceremony wasn't self-serving."-- Taken from preface.

We live in a world where we're all about updating. We update our computers, phones, cars, careers—even our partners. Now it's time to update your personal

philosophy and view. In essence, it's time to update you. Being of Power is about transforming relationships. Not just with others, but with yourself, your experiences, your work, your purpose—how you relate to everything in your life. Here you will find the tools to enable you to break through the limiting views that have been keeping you stuck, frustrated, and unfulfilled; expand your viewpoint to see new possibilities; and come into your authentic self. The nine practices in this book are the stepping-stones on the path back to your essential authenticity, which is where your greatest power lies. These are practices to put into action minute by minute, day by day. We don't master them all at once; instead, we work them in each present moment, again and again, until eventually we come to embody them as a natural way of being. This is how we transform. The aim of this book is not to tell you "the truth," but rather to help you rediscover your own truth. Your deepest power comes from what you already know inside. You have the intelligence. You have the answers. The nine practices of transformation will simply allow you to dissolve the blocks standing in your way and access the wisdom that's already within you. They will show you how to put your essentially powerful way of being into action so you can create new, expanded results in your life. At its core, this book is about connecting to your authentic self and rediscovering who you are and what's possible.

*Whispering Winds of Change* will appeal to lovers of alternative ideas and philosophies. Stuart Wilde challenges us to stand outside the usual paradigms of consciousness as "fringe dwellers". He asks us to observe the dying throes of what he calls the "world ego" - the embodiment of the manipulative and dominating force of the status quo. With his characteristic candor and wit, he plots a fascinating comparison between the overall global destiny and an individual's personal, sacred, inner journey. Wilde believes through quieting the ego and creating a rotation out of the three-dimensional world of external reality to the fourth dimension of the inner being, we can each offer serenity and healing to ourselves, and the rest of the world. Like his other books, this work is full of compelling ideas, unusual perceptions, and esoteric concepts for individuals who want to progress inwardly, while making a success of their lives in the external world.

In this uniquely fascinating book, Stuart Wilde gives you the keys to levels of metaphysical comprehension and sophistication not normally understood. According to him, we are living in the era of the goddess Kali's return, the Age of Destruction, when the self-correcting intelligence of the planet (Gaia) will take back Earth on behalf of the animals, nature, and the little children. There are battles currently raging in the spiritual worlds, waged by the forces of light against the dark entities in order to free us all. Stuart describes a power he calls the Solar Logos, which will come to Earth to deliver a rebirth known as the Renewal. As such, he calls this time the "End of Days"- not because the world will end, but because it is the end of the world as we know it.
